Homo Deus - Yuval Noah Harari 2017-02-21
Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER
Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon Sapiens, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into

gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

A Golden Age - Tahmima Anam 2009-10-13

"Spellbinding . . . Anam has written a story about powerful events. But it is her descriptions of the small, unheralded moments . . . that truly touch the heart." —San Francisco Chronicle
Tahmima Anam's deeply moving debut novel about a mother's all-consuming love for her two children, set against the backdrop of war and terror, has led critics to comparisons with *The English Patient* and *A Thousand Splendid Suns*. Rehana Haque, a young widow transplanted to the city of Dhaka in East Pakistan, is fiercely devoted to her adolescent children, Maya and Sohail. Both become fervent nationalists in the violent political turmoil which, in 1971, transforms a brutal Pakistani civil war into a fight to the death for Bangladeshi independence. Fair-minded and intensely protective of her family, but not at all political, Rehana is sucked into the conflict in spite of herself. A story of passion and revolution, of family, friendship and

unexpected heroism, *A Golden Age* depicts the chaos of an era and the choices everyone—from student protesters to the country's leaders, and rickshaw wallahs to the army's soldiers—must make. Rehana herself will face a cruel dilemma; the choice she makes is at once heartbreaking and true to the character we have come to love and respect.
