The Littlehampton Libels - Christopher Hilliard 2017-06-02

The Littlehampton Libels tells the story of a poison-pen mystery that led to a miscarriage of justice in the years following the First World War. There would be four criminal trials before the real culprit was finally punished, with the case challenging the police and the prosecuting lawyers as much any capital crime. When a leading Metropolitan Police detective was tasked with solving the case, he questioned the residents of the seaside town of Littlehampton about their neighbours' vocabularies, how often they wrote letters, what their handwriting was like, whether they swore — and how they swore, for the letters at the heart of the case were often bizarre in their abuse. The archive that the investigation produced shows in extraordinary detail how ordinary people could use the English language in inventive and surprising ways at a time when universal literacy was still a novelty. Their personal lives, too, had surprises. The detective's inquiries and the courtroom dramas laid bare their secrets and the intimate details of neighbourhood and family life. Drawing on these records, The Littlehampton Libels traces the tangles of devotion and resentment, desire and manipulation, in a working-class community. We are used to emotional complexity in books about the privileged, but history is seldom able to recover the inner lives of ordinary people in this way.

The Villainous Stage - Marvin Lachman 2014-10-31

Live theatre was once the main entertainment medium in the United States and the United Kingdom. The preeminent dramatists and actors of the day wrote and performed in numerous plays in which crime was a major plot element. This remains true today, especially with the longest-running shows such as The Phantom of the Opera, Les Misérables and Sweeney Todd. While hundreds of books have been published about crime fiction in film and on television, the topic of stage mysteries has been largely unexplored. Covering productions from the 18th century to the 2013-2014 theatre season, this is the first history of crime plays according to subject matter. More than 20 categories are identified, including whodunits, comic mysteries, courtroom dramas, musicals, crook plays, social issues, Sherlock Holmes, and Agatha Christie. Nearly 900 plays are described, including the reactions of critics and audiences.

Agatha Christie, Woman of Mystery - John Escott 2000

What does the name " Agatha Christie " mean? To many people, it means a book about a murder mystery - a " whodunnit ". " I'm reading an Agatha Christie, " people say. " I'm not sure who the murderer is - I think it's . . . " But they are usually wrong, because it is not easy to guess the murderer's name before the end of the book. But who was Agatha Christie? What was she like? Was her life quiet and unexciting, or was it full of interest and adventure? Was there a mystery in her life, too? Agatha Christie Goes to War - Rebecca Mills 2019-11-14

Agatha Christie has never been substantially considered as a war writer, even though war is a constant presence in her writing. This interdisciplinary collection of essays considers the effects of these conflicts on the social and psychological textures of Christie's detective fiction and other writings, demonstrating not only Christie's textual navigation of her contemporary surroundings and politics, but also the value of her voice as a popular fiction writer reflecting popular concerns. Agatha Christie Goes to War introduces the 'Queen of Crime' as an essential voice in the discussion of war, warfare, and twentieth century literature.

*Post colonial Post mort ems*Christine Matzke 2006

Recent crime fiction increasingly transcends national boundaries, with investigators operating across countries and continents. Frequently, the detective is a migrant or comes from a transcultural background. To solve the crime, the investigator is called upon to decipher the meaning(s) hidden in clues and testimonies that require transcultural forms of understanding. For the reader, the investigation discloses new interpretive methods and processes of social investigation, often challenging facile interpretations of the postcolonial world order. Under the rubric 'postcolonial postmortems', this collection of essays seeks to explore the tropes, issues and themes that characterise this emergent form of crime fiction. But what does the 'postcolonial' bring to the genre apart from the well-known, and valid, discourses of resistance, subversion and ethnicity? And why 'postmortems'? A dissection and medical examination of a body to determine the cause of death, the 'postmortem' of the postcolonial not only alludes to the investigation of the victim's remains, but also to the body of the individual text and its contexts. This collection interrogates literary concepts of postcoloniality and crime from transcultural perspectives in the attempt to offer new critical impulses to the study of crime fiction and postcolonial literatures. International scholars offer insights into the 'postcolonial postmortems' of a wide range of texts by authors from Africa, South Asia, the Asian and African Diaspora, and Australia, including Robert G. Barrett, Unity Dow, Wessel Ebersohn, Romesh Gunesekera, Kazuo Ishiguro, Sujata Massey, Alexander McCall Smith and Michael Ondaatje.

Philosophy and the Novel - Alan H. Goldman 2013-04-05

Alan H. Goldman presents an original and lucid account of the relationship between philosophy and the novel. In the first part, on philosophy of novels, he defends theories of literary value and interpretation. Literary value, the value of literary works as such, is a species of aesthetic value. Goldman argues that works have aesthetic value when they simultaneously engage all our mental capacities: perceptual, cognitive, imaginative, and emotional. This view contrasts with now prevalent narrower formalist views of literary value. According to it, cognitive engagement with novels includes appreciation of their broad themes and the theses these imply, often moral and hence philosophical theses, which are therefore part of the novels' literary value. Interpretation explains elements of works so as to allow readers maximum appreciation, so as to maximize the literary value of the texts as written. Once more, Goldman's view contrasts with narrower views of literary interpretation, especially those which limit it to uncovering what authors intended. One implication of Goldman's broader view is the possibility of incompatible but equally

acceptable interpretations, which he explores through a discussion of rival interpretations of Ernest Hemingway's *The Sun Also Rises*. Goldman goes on to test the theory of value by explaining the immense appeal of good mystery novels in its terms. The second part of the book, on philosophy in novels, explores themes relating to moral agency—moral development, motivation, and disintegration—in Jane Austen's *Pride and Prejudice*, Mark Twain's *Huckleberry Finn*, John Irving's *The Cider House Rules*, and Joseph Conrad's *Nostromo*. By narrating the course of characters' lives, including their inner lives, over extended periods, these novels allow us to vicariously experience the characters' moral progressions, positive and negative, to learn in a more focused way moral truths, as we do from real life experiences.

Guilty But Insane - Samantha Walton 2015

Guilty But Insane offers a timely and challenging discussion of the relationship between popular literature, science, and what it means to be human by examining how writers of detective fiction during the 1920s to 1940s understood guilt, responsibility, and the workings of the mind in relation to crime.

After Austen - Lisa Hopkins 2018-11-11

This collection of twelve new essays examines some of what Jane Austen has become in the two hundred years since her death. Some of the chapters explore adaptations or repurposings of her work while others trace her influence on a surprising variety of different kinds of writing, sometimes even when there is no announced or obvious debt to her. In so doing they also inevitably shed light on Austen herself. Austen is often considered romantic and not often considered political, but both those perceptions are challenged here, as is the idea that she is primarily a writer for and about women. Her books are comic and ironic, but they have been reworked and drawn upon in very different genres and styles. Collectively these essays testify to the extraordinary versatility and resonance of Austen's books.

The Stylistics of Landscapes, the Landscapes of Stylistics - John Douthwaite 2017-11-15

In treating the topic of the landscapes of stylistics, this book provides a series of chapters which deal not only with physical landscapes but also with social, mental, historical portraits of places, people and society. The chapters demonstrate that all texts project a worldview, even when the content appears to be only a physical description of the external world. The implication is that texts attempt to produce specific effects on the reader determined by the author's worldview. Contents and effects, (namely mental and emotional states, behaviours), are thus inseparable. Identifying those effects and how they are produced is an eminently cognitive operation. The chapters analyse a variety of linguistic devices and cognitive mechanisms employed in producing the text and accounting for the effects achieved. Though the majority of the chapters have a cognitive basis, a wide range of methodologies are employed, including ecostylistics, offering cutting-edge theoretical approaches teamed up with close reading. A further crucial feature of this collection is the selection of non-canonical texts, ranging from lesser-known texts in English to significant works in languages other than English, all of which are characterised by important social themes, thus emphasising the importance of critical appreciation as a means of self-empowerment.

Finding Truth in Fiction - Karen E. Dill-Shackelford 2020-02-06

In *Finding Truth in Fiction*, two media psychologists reveal that there's much more to our desire to seek out

stories in film, TV, and books than simple diversion - fiction can help us find truth in our real lives. Whether you consider yourself a fan of popular media or whether you find yourself thinking of a particular fictional scene for inspiration, you are not alone. Though some assume that interest in a fictional world is a sign of psychological trouble, the authors enthusiastically disagree. Because story worlds are simulations of our social world, we use them to make sense of our experiences and even decide what kind of people we want to be. This makes fiction far from trivial. By exploring our relationship with fictional stories and characters, the authors will examine how we create mental models in our minds so we can understand stories and characters and how we differentiate between the identities of characters and the actors who play them. What story arcs, such as the hero's journey, are we drawn to again and again? How do the moments that strike us as important in a story change as we age and move through different stages in our life? Delving into these questions and many more, the authors conclude that being a fan is not just healthy, it's human.

Agatha Christie - Andrew Norman 2010-12-26

When Agatha Christie, the so-called 'Queen of Crime', disappeared from her home in Sunningdale in Berkshire for eleven days on 3 December 1927, the whole nation held its breath. This work explains, in the light of scientific knowledge, her behaviour during that troubled time.

The Ageless Agatha Christie - J.C. Bernthal 2016-02-17

When Agatha Christie died in 1976, she was the bestselling mystery writer in history. This collection of new essays brings fresh perspectives to Christie scholarship with new readings and discussions of little-known aspects of her life, career and legacy. The contributors explore her relationship with modernism, the relevance of queer theory, television adaptations, issues with translations, information behavior theory, feminist readings, postcolonial tribute novels, celebrity culture and heritage cinema. The final word is given to fans in an editorial that collates testimonies from readers, collectors and enthusiasts.

Queering Agatha Christie - J.C. Bernthal 2016-09-02

This book is the first fully theorized queer reading of a Golden Age British crime writer. Agatha Christie was the most commercially successful novelist of the twentieth century, and her fiction remains popular. She created such memorable characters as Hercule Poirot and Jane Marple, and has become synonymous with a nostalgic, conservative tradition of crime fiction. J.C. Bernthal reads Christie through the lens of queer theory, uncovering a playful, alert, and subversive social commentary. After considering Christie's emergence in a commercial market hostile to her sex, in *Queering Agatha Christie* Bernthal explores homophobic stereotypes, gender performativity, queer children, and masquerade in key texts published between 1920 and 1952. Christie engaged with debates around human identity in a unique historical period affected by two world wars. The final chapter considers twenty-first century Poirot and Marple adaptations, with visible LGBT characters, and poses the question: might the books be queerer?

Truth in Fiction - John Woods 2018-02-23

This monograph examines truth in fiction by applying the techniques of a naturalized logic of human cognitive practices. The author structures his project around two focal questions. What would it take to write a book about truth in literary discourse with reasonable promise of getting it right? What would it take to write a book about truth in fiction as true to the facts of lived literary experience as objectivity allows? It is argued that the most semantically distinctive feature of the sentences of fiction is that they are unambiguously true and false together. It is true that Sherlock Holmes lived at 221B Baker Street and also concurrently false that he did. A second distinctive feature of fiction is that the reader at large knows of this inconsistency and isn't in the least cognitively molested by it. Why, it is asked, would this be so? What would explain it? Two answers are developed. According to the no-contradiction thesis, the semantically tangled sentences of fiction are indeed logically inconsistent but not logically contradictory. According to the no-bother thesis, if the inconsistencies of fiction were contradictory, a properly contrived logic for the rational management of inconsistency would explain why readers at large are not thrown off cognitive stride by their embrace of those contradictions. As developed here, the account of fiction suggests the presence of an underlying three - or four-valued dialethic logic. The author shows this to be a mistaken impression. There are only two truth-values in his logic of fiction. The naturalized logic of *Truth in Fiction* jettisons some of the standard assumptions and analytical tools of contemporary philosophy, chiefly because the neurotypical linguistic and cognitive behaviour of humanity at large is at variance with them.

Using the resources of a causal response epistemology in tandem with the naturalized logic, the theory produced here is data-driven, empirically sensitive, and open to a circumspect collaboration with the empirical sciences of language and cognition.

Agatha Christie and the Guilty Pleasure of Poison - Sylvia A. Pamboukian 2022-11-12

Agatha Christie and the Guilty Pleasure of Poison examines Christie's female poisoners in the context of Christie's own experience in pharmacy and of detective fiction. In doing so, it uncovers an overlooked dynamic in which female poisoners deliver well-deserved comeuppance for gendered and classed wrongdoing ordinarily accepted in everyday life. While critics have long recognized male outlaws, like Robin Hood, who use crime to oppose a corrupt system, this book contends that female outlaws - witches and poisoners - offer a similar heritage of empowered femininity. Far from cozy and formulaic, Agatha Christie's outlaw poisoners offer readers the surprising pleasures of comeuppance, and they set the stage for contemporary detective fiction writers, more recent films depicting poisoning as empowering, and even poison gardens, which are tourist destinations that offer visitors the guilty pleasure of poison.

Crime Uncovered: Private Investigator - Alistair Rolls 2016-04-01

The private investigator is one of the most enduring characters within crime fiction. From Dashiell Hammett's Sam Spade - the hard-boiled loner trawling the mean streets - to Agatha Christie's Captain Hastings - the genteel companion in greener surrounds - the P. I. has taken on any number of guises. In *Crime Uncovered: Private Investigator*, editors Alistair Rolls and Rachel Franks dive deep into crime literature and culture, challenging many of the assumptions we make about the hardy P. I. Assembling a cast of notable crime fiction experts, including Stephen Knight and Carolyn Beasley, the book covers characters from the whole world of international noir - Giorgio Scerbanenco's Duca Lambert, Léo Malet's Nestor Burma and many more. Including essays on the genealogy and emergence of the protagonist in nineteenth-century fiction; interviews with crime writers Leigh Redhead, Nick Quantrill and Fernando Lalana; and analyses of the transatlantic exchanges that helped to develop public perception of a literary icon, *Crime Uncovered: Private Investigator* will redefine what we think we know about the figure of the P. I. Rolls and Franks have engaged here the tension between the popular and scholarly that is inherent in any critical examination of a literary type, along the way unraveling the mystery of the alluring, enigmatic private investigator. *Crime Uncovered: Private Investigator* will be a handy companion for any crime fiction fan.

Onscreen Allusions to Shakespeare - Alexa Alice Joubin 2022

Allusions to Shakespeare haunt our contemporary culture in a myriad of ways, whether through brief references or sustained intertextual engagements. The Bible in Crime Fiction and Drama - Caroline Blyth 2019-01-24

The Bible has always enjoyed notoriety within the genres of crime fiction and drama; numerous authors have explicitly drawn on biblical traditions as thematic foci to explore social anxieties about violence, religion, and the search for justice and truth. *The Bible in Crime Fiction and Drama* brings together a multi-disciplinary scholarship from the fields of biblical interpretation, literary criticism, criminology, and studies in film and television to discuss international texts and media spanning the beginning of the 20th century to the present day. The volume concludes with an afterword by crime writer and academic, Liam McIvanney. These essays explore both explicit and implicit engagements between biblical texts and crime narratives, analysing the multiple layers of meaning that such engagements can produce - cross-referencing Sherlock Holmes with the murder mystery in the Book of Tobit, observing biblical violence through the eyes of Christian fundamentalists in Henning Mankell's *Before the Frost*, catching the thread of homily in the serial murders of *Se7en*, or analysing biblical sexual violence in light of television crime procedurals. The contributors also raise intriguing questions about the significance of the Bible as a religious and cultural text - its association with the culturally pervasive themes of violence, (im)morality, and redemption, and its relevance as a symbol of the (often fraught) location that religion occupies within contemporary secular culture.

East of the Wardrobe - Warwick Ball 2022

"This book teases out hitherto unrecognised Eastern aspects in and influences on C. S. Lewis' *Narnia Chronicles*. These include storylines, plots, themes, imagery and even cities and landscapes in the East, as well as the 'Persian' style of illustrations by Pauline Baynes. Although never having ventured East himself, Lewis wrote that 'I am the product of endless books,' and in recognising Eastern references - many only subconsciously intended by Lewis - it is possible to enter the rich world of books that Lewis lived and breathed all his life. And, perhaps less obviously, overhear the conversations he had with his fellow Inklings or that he might have overheard himself in an Oxford pub. Religious messages other than the obvious Christian find their way into *Narnia*, but so too does the *Arabian Nights* and *The Rubaiyat of Omar Khayyam* as well as the other great Persian poets; great travellers from Herodotus and Marco Polo to T. E. Lawrence and Robert Byron are there, but so too are the great fictional travellers, Baron Munchausen, Gulliver, and Sindbad; themes borrowed from the great epics, from the *Odyssey* and *Aeneid* to the *Kalevala* and the *Knight in the Panther's Skin*, can also be found. Delve deeper and Christianity is there along with paganism, but so too are Zoroastrian, Manichaean and even Islamic messages. Ultimately they are a reflection of the complex intellectual world that Lewis inhabited, and of the wider social and intellectual climate of Oxford in the first half of the twentieth century"

Brief Encounters - Susannah Fullerton 2009-06-01

Throughout the 19th and early 20th centuries, countless distinguished writers made the long and arduous voyage across the seas to Australia. They came to give lecture tours and make money, to sort out difficult children sent here to be out of the way; for health, for science, to escape demanding spouses back home, or simply to satisfy a sense of adventure. In 1890, for example, Robert Louis Stevenson and his wife Fanny arrived at Circular Quay after a dramatic sea voyage only to be refused entry at the Victoria, one of Sydney's most elegant hotels. Stevenson threw a tantrum, but was forced to go to a cheaper, less fussy establishment. Next day, the Victoria's manager, recognising the famous author from a picture in the paper, rushed to find Stevenson and beg him to return. He did not. In *Brief Encounters*, renowned author and speaker Susannah Fullerton examines a diverse array of writers including Charles Darwin, Rudyard Kipling, Stevenson, Anthony Trollope, Mark Twain, Arthur Conan Doyle, DH Lawrence, Joseph Conrad, HG Wells, Agatha Christie and Jack London to discover what they did when they got here, what their opinion was of Australia and Australians, how the public and media reacted to them, and how their future works were shaped or influenced by this country.
