

Aion Gladiator Leveling Guide

Thank you completely much for downloading **aion gladiator leveling guide**. Maybe you have knowledge that, people have see numerous period for their favorite books with this aion gladiator leveling guide, but stop taking place in harmful downloads.

Rather than enjoying a good PDF once a cup of coffee in the afternoon, otherwise they juggled next some harmful virus inside their computer. **aion gladiator leveling guide** is affable in our digital library an online entry to it is set as public appropriately you can download it instantly. Our digital library saves in combined countries, allowing you to get the most less latency era to download any of our books following this one. Merely said, the aion gladiator leveling guide is universally compatible next any devices to read.

Migi ka Hera - Christopher A. Faraone 1997

This collection challenges the tendency among scholars of ancient Greece to see magical and religious ritual as mutually exclusive and to ignore "magical" practices in Greek religion. The contributors survey specific bodies of archaeological, epigraphical, and papyrological evidence for magical practices in the Greek world, and, in each case, determine whether the traditional dichotomy between magic and religion helps in any way to conceptualize the objective features of the evidence examined. Contributors include Christopher A. Faraone, J.H.M. Strubbe, H.S. Versnel, Roy Kotansky, John Scarborough, Samuel Eitrem, Fritz Graf, John J. Winkler, Hans Dieter Betz, and C.R. Phillips.

On the Track of the Book - Roberta Berardi 2019-06-17

This book offers the hint for a new reflection on ancient textual transmission and editorial practices in Antiquity. In the first section, it retraces the first steps of the process of ancient writing and editing. The reader will discover how the book is both a material object and a metaphorical personification, material or immaterial. The second section will focus on corpora of Greek texts, their formation, and their paratextual apparatus. Readers will explore various issues dealing with the mechanisms that are at the basis of the assembling of ancient Greek texts, but great attention will also be given to the role of ancient

scholarly work. The third section shows how texts have two levels of authorship: the author of the text, and the scribe who copies the text. The scribe is not a medium, but plays a crucial role in changing the text. This section will focus on the protagonists of some interesting cases of textual transmission, but also on the books they manufactured or kept in the libraries, and on the words they engraved on stones. Therefore, the fresh voices of the contributors of this book, offer new perspectives on established research fields dealing with textual criticism.

Jung's Studies in Astrology - Liz Greene 2019-09-04

Winner of the IAJS award for best authored book of 2018! C. G. Jung had a profound interest in and involvement with astrology, which he made clear in virtually every volume of the Collected Works, as well as in many of his letters. This ancient symbolic system was of primary importance in his understanding of the nature of time, the archetypes, synchronicity, and human fate. Jung's Studies in Astrology is an historical survey of his astrological work from the time he began to study the subject. It is based not only on his published writings, but also on the correspondence and documents found in his private archives, many of which have never previously seen the light of day. Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology: the ancient, medieval, and modern sources he drew on, the individuals

from whom he learned, his ideas about how and why it worked, its religious and philosophical implications, and its applications in the treatment of his patients as well as in his own self-understanding. Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories, as well as the nature of his world-view, needs to involve a thorough exploration of his astrological work. This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists, students and academics of Jungian and post-Jungian theory, the history of psychology, archetypal thought, mythology and folklore, the history of New Age movements, esotericism, and psychological astrology.

Lucretius on Disease - George Kazantzidis 2021-04-19

The standard view in scholarship is that disease in Lucretius' *De rerum natura* is mainly a problem to be solved and then dispensed with.

However, a closer reading suggests that things are more layered and complex than they appear at first sight: just as *morbis* causes a radical rearrangement of atoms in the body and makes the patient engage with alternative and up to that point unknown dimensions of the sensible world, so does disease as a theme generate a multiplicity of meanings in the text. The present book argues for a reconsideration of *morbis* in *De rerum natura* along those lines: it invites the reader to revisit the topic of disease and reflect on the various, and often contrasting, discourses that unfold around it. More specifically, it illustrates how, apart from calling for therapy, disease, due to its dominant presence in the narrative, transforms at the same time into a concept that is integral both to the poem's philosophical agenda but also to its wider aesthetic concerns as a literary product. The book thus sheds new light on *De rerum natura*'s intense preoccupation with *morbis* by showing how disease is not exclusively conceived by Lucretius as a blind, obliterating force but is crucially linked to life and meaning—both inside and outside the text.

Thomas Mann; a Collection of Critical Essays - Henry Hatfield 1964

Mann's complex, often ambiguous works are studied in chronological order by an international group of critics.

The Art of World of Warcraft - . Blizzard Entertainment 2015-06-16

Timed to the twentieth anniversary of the blockbuster Warcraft franchise, *The Art of World of Warcraft* celebrates the groundbreaking art of the complete series to date. In the ten years since its inception, World of Warcraft® has revolutionized the role-playing genre, creating the immense world of Azeroth and filling it with iconic characters and legendary weapons and environments. Featuring interviews with key developers and telling the complete story of the game's evolution, this fully illustrated book vibrantly displays the renowned artwork at the heart of the franchise. Including never-before-seen art from the latest World of Warcraft expansion, *Warlords of Draenor*, *The Art of World of Warcraft* will contain hundreds of drawings and concept art, forming the ultimate tribute to the epic gaming franchise.

Thomas Mann - Richard Winston 1990

Star Wars Padawan - Kiersten White 2022-07-26

BEING A TEENAGER IS HARD ENOUGH WITHOUT ALSO TRAINING TO BE A JEDI.... Obi-Wan Kenobi has not been apprenticed long to Qui-Gon Jinn, and he is chafing at Qui-Gon's training style: all meditation, no action. Obi-Wan yearns to prove himself on a mission, but when he and Qui-Gon are finally set to leave on an assignment, Qui-Gon is nowhere to be found. Angered by his master's abandonment, Obi-Wan sets out on the mission alone, determined to prove himself. On a mysterious planet he encounters a pack of feral, Force-wielding teens who seem to be the planet's only inhabitants. As he experiences wild freedom with them and wonders if this isn't the life he was meant for, Obi-Wan can't escape the nagging sense that something is wrong with the Force there. Romantic complications, startling revelations, and a looming threat to both the planet and his new friends will bring Obi-Wan face-to-face with his worst fear: that maybe he was never supposed to be a Jedi at all. Can he connect with the living Force in time to save himself and everyone around him? It's the star of the Obi-Wan Kenobi Disney+ limited series as you've never seen him before....

Bronze Age Mindset - Bronze Pervert 2018-06-06

The Atlantic named this author as possibly Steve Bannon's contact in the

White House (Rosie Gray, The Atlantic Feb 10 2017: " 'Think you should speak directly to my WH cutout / cell leader,' Yarvin said in an email. 'I've never met him and don't know his identity, we just DM on Twitter. He's said to be 'very close' to Bannon...Goal is to intimidate Congress with pure masculine show of youth, energy. Trump is said to know, will coordinate with powerful EOs..."); and a recent Vox article (Tara Isabella Burton, Vox June 1 2018) claimed that he is the "text" to Jordan Peterson's "subtext," and a "distilled" form of Peterson. Distilled means purer: yes, so why not read and understand the purer version? T. I. Burton also adds in this article that this author BAP is a kind of priest-king to thousands on Twitter and outside and is possibly leading a spiritual reawakening. Some say that this book, found in a safebox in the port area of Kowloon, was dictated, because Bronze Age Pervert refuses to learn what he calls "the low and plebeian art of writing." It isn't known how this book was transcribed. The contents are pure dynamite. He explains that you live in ant farm. That you are observed by the lords of lies, ritually probed. Ancient man had something you have lost: confidence in his instincts and strength, knowledge in his blood. BAP shows how the Bronze Age mindset can set you free from this Iron Prison and help you embark on the path of power. He talks about life, biology, hormones. He gives many examples from history, both ancient and modern. He shows the secrets of the detrimental robots, how they hide and fabricate. He helps you escape gynocracy and ascend to fresh mountain air. The pricing, he insisted on against all advice. It refers to the lucky 969 Movement of Burma, led by the noble monk Wirathu. Praise be to the Pervert. Praise be to his teaching of peace. Be careful.

The Variations - John Donatich 2012-02-28

A compelling sympathy of the faiths that fill the gap between who we set out to be and who we ultimately become A powerful debut novel about a priest who has lost his church, his mentor, and, most upsetting, his ability to pray. How can Father Dominic protect or guide his parish when everything he loves falls away? How can he counsel Dolores, a troubled teenager prone to emotional panic and spiritual monomania? Or James, a promising African American pianist, struggling to realize his artistic

ambitions by bringing his own voice to a piece that has been played by the world's most brilliant pianists, Bach's Goldberg Variations. Into this malaise comes Andrea, a sophisticated New York editor attracted at first by Dom's blog and then by the man himself. Dom's journey from the cloth into the secular world will offer carnal knowledge, but also something deeper, a more resistant knowledge as life fails to offer happiness or redemption. In prose both searching and muscular, John Donatich's The Variations has located the right metaphor for our spiritual crisis in this story of one man's spiritual disillusion and ache for self-knowledge.

PC Gamer - 2009

Gary Gygax's Living Fantasy Gary Gygax 2003-10-01

This second volume in the Gygaxian Fantasy Worlds series marshals a veritable host of information for the game designer. Unburdened with flavor text this tome is a collection of militantly organized definitions, lists, tables and charts with an army of information from the mundane to the extraordinary. The World Builder covers outdoor settings, indoor living settings, merchandise with a completely illustrated armor and weapons section and everyday facts from the government structure to the tensile strength of rope.

Reflex - Steven Gould 2005-08

Davy, who teleports for government cases, is taken captive by a mysterious group of people who brainwash him for their own purposes, forcing Davy's teleportation-capable wife, Millie, to rescue him.

Magical Practice in the Latin West Richard Lindsay Gordon 2010

Most studies of Graeco-Roman magic focus on the Greek texts. Stimulated by important recent finds of Latin curse-tablets, this collection of essays for the first time tries to define the nature and extent of the originality of magical practice in the Latin West

Craft: Volume 01 - Carla Sinclair 2006-10

CRAFT is the first project-based magazine dedicated to the renaissance that is occurring within the world of crafts. Celebrating the DIY spirit, CRAFT's goal is to unite, inspire, inform and entertain a growing community of highly imaginative people who are transforming traditional

art and crafts with unconventional, unexpected and even renegade techniques, materials and tools; resourceful spirits who undertake amazing crafting projects in their homes and communities. Volume 01, the premier issue, features 23 projects with a twist! Make a programmable LED shirt, turn dud shoes into great knitted boots, felt an iPod cocoon, embroider a skateboard, and much more.

The Greek Magical Papyri in Translation, Including the Demotic Spells
Hans Dieter Betz 1986

Religious Context of Early Christianity - Hans-Josef Klauck 2003-05-01

This is a uniquely well-informed and comprehensive guide to the world of religion in the Graeco-Roman environment of early Christianity. Drawing on the most up-to-date scholarship, the volume paints a carefully nuanced portrait of the Christians' religious context. Besides describing ordinary domestic and civic religion and popular belief (including astrology, divination and 'magic'), there is extended discussion of mystery cults, ruler and emperor cults, the religious dimensions of philosophy, and Gnosticism. A valuable textbook for advanced students, as well as an authoritative reference work for scholars.

[Finding Jung](#) - Frank N. McMillan 2012-03-14

Available electronically in an open-access, full-text edition from the Texas A&M University Libraries' Digital Repository at <http://hdl.handle.net/1969.1/146844>. Frank N. McMillan Jr., a country boy steeped in the traditional culture of rural Texas, was summoned to a life-long quest for meaning by a dream lion he met in the night. On his journey, he followed the lead of the founder of analytical psychology, Carl Jung, and eventually established the world's first professorship to advance the study of that field. McMillan, born and raised on a ranch near Calvert, was an Aggie through and through, with degrees in geology and petroleum engineering. As an adult working near Bay City, Texas, he was lunching in a country café when by chance he met abstract expressionist painter Forrest Bess, who was ecstatically waving a letter he had received from Jung himself. The artist's enthusiastic description of Jung

as a master psychologist, soul doctor, and healer led McMillan to the Jung Center in Houston, where he began reading Jung's Collected Works. McMillan frequently said, "Jung saved my life." *Finding Jung*: Frank N. McMillan Jr., a Life in Quest of the Lion captures McMillan's journey through the words of his own journals and through reflections by his son, Frank III. David Rosen, the holder of the first endowed McMillan Professorship at Texas A&M University, adds insights to the book, and the late Sir Laurens van der Post, whom the elder McMillan met at the Houston Jung Center in 1979, authored a foreword to the book before his death. This is a story that sheds light on the inner workings of the self as well as the Jungian understanding of the Self. In often lyrical language, it gives the human background to a major undertaking in the dissemination of Jungian scholarship and provides a personal account of a life lived in near-mythic dimensions.

[Jumper: Griffin's Story](#) - Steven Gould 2008-02-05

Griffin, who possesses a secret ability to teleport to any place he has previously visited, vengefully remembers the men who murdered his parents and plots to avenge himself against the people who would kill him for his powers.

A Thesaurus of English Word Roots
Horace Gerald Danner 2014-03-27
Horace G. Danner's *A Thesaurus of English Word Roots* is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In *A Thesaurus of English Word Roots*, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column.

In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacousia, hyperacousia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odyacusis.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

A Sketch of My Life Thomas 1875-1955 Mann 2021-09-09

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

[Ancient Magic](#) - Attilio Mastrocinque 2020-08-07

An international team of scholars from different academic disciplines address some of the most important issues, texts, and objects in the study of ancient magic. The volume is divided into three primary sections. The first part offers new approaches to some of the major theoretical and methodological questions in the study of ancient magic. Most importantly, the authors offer a defense of the term "magic" as a scholarly rubric in the study of antiquity. The contributors to the second part provide novel interpretations of some of the most significant defixiones, amulets, recipes and rituals from the ancient world. The

essays also engage with questions of gender, materiality, viscosity, and scribal practice. The final section examines the transmission of magical practice, both in antiquity and in later periods. Accordingly, the chapters in this final section allow scholars to approach the study of magic over the longue duree. By placing into dialogue the interests, concerns, and methods of scholars from diverse academic fields, this volume provides an interdisciplinary perspective to the study of premodern magic.

Cinephilia - Marijke de Valck 2005

They obsess over the nuances of a Douglas Sirk or Ingmar Bergman film; they revel in books such as François Truffaut's Hitchcock; they happily subscribe to the Sundance Channel—they are the rare breed known as cinephiles. Though much has been made of the classic era of cinephilia from the 1950s to the 1970s, Cinephilia documents the latest generation of cinephiles and their use of new technologies. With the advent of home theaters, digital recording devices, online film communities, cinephiles today pursue their dedication to film outside of institutional settings. A radical new history of film culture, Cinephilia breaks new ground for students and scholars alike.

[Jung on Astrology](#) - C. G. Jung 2017-09-05

Jung on Astrology brings together C. G. Jung's thoughts on astrology in a single volume for the first time, significantly adding to our understanding of Jung's work. Jung's Collected Works, seminars, and letters contain numerous discussions of this ancient divinatory system, and Jung himself used astrological horoscopes as a diagnostic tool in his analytic practice. Understood in terms of his own psychology as a symbolic representation of the archetypes of the collective unconscious, Jung found in astrology a wealth of spiritual and psychological meaning and suggested it represents the "sum of all the psychological knowledge of antiquity." The selections and editorial introductions by Safron Rossi and Keiron Le Grice address topics that were of critical importance to Jung—such as the archetypal symbolism in astrology, the precession of the equinoxes and astrological ages, astrology as a form of synchronicity and acausal correspondence, the qualitative nature of time, and the experience of astrological fate—allowing readers to assess astrology's place within the

larger corpus of Jung's work and its value as a source of symbolic meaning for our time. The book will be of great interest to analytical psychologists, Jungian psychotherapists and academics and students of depth psychology, Jungian and post-Jungian studies, as well as to astrologers and therapists of other orientations, especially transpersonal.

Ramakrishna; His Life and Sayings - Friedrich Max Müller 1899

Key Concepts in Public Archaeology - Gabriel Moshenska 2017-09-28

This book provides a broad overview of the key concepts in public archaeology, a research field that examines the relationship between archaeology and the public, in both theoretical and practical terms. While based on the long-standing programme of undergraduate and graduate teaching in public archaeology at UCL's renowned Institute of Archaeology, the book also takes into account the growth of scholarship from around the world and seeks to clarify what exactly 'public archaeology' is by promoting an inclusive, socially and politically engaged vision of the discipline. Written for students and practitioners, the individual chapters provide textbook-level introductions to the themes, theories and controversies that connect archaeology to wider society, from the trade in illicit antiquities to the use of digital media in public engagement, and point readers to the most relevant case studies and learning resources to aid their further study. This book was produced as part of JISC's Institution as e-Textbook Publisher project. Find out more at

<https://www.jisc.ac.uk/rd/projects/institution-as-e-textbook-publisher>
Praise for Key Concepts in Archaeology 'Littered throughout with concise and well-chosen case studies, Key Concepts in Public Archaeology could become essential reading for undergraduates and is a welcome reminder of where archaeology sits in UK society today.' British Archaeology

Merriam-Webster's Vocabulary Builder - Mary W. Cornog 1998

The ideal book for people who want to increase their word power. Thorough coverage of 1,200 words and 240 roots while introducing 2,300 words. The Vocabulary Builder is organized by Greek and Latin roots for effective study with nearly 250 new words and roots. Includes

quizzes after each root discussion to test progress. A great study aid for students preparing to take standardized tests.

A New System - Jacob Bryant 1807

Gary Gygax's World Builder - Gary Gygax 2002-12

For the vigilant writer, driven publisher or game designer, Volume 3 of the Gygaxian Fantasy World series drives forward the gathering host of information brought to you by the Gygaxian Fantasy World series. From the encampments of common folk and wanderers to the teeming streets of walled towns, this work brings the fantastic world of magic to life. Game designers captain their own creations when they master knowledge of the high and low, the hamlets and towns, cities and castles and all that accompanies life in a world of our own imagining. More than that, Everyday Life breathes strength into the arms of your imaginings with pirates and palace life, eating and entertainment, villains and vagabonds, communications and commerce. Whatever is found in the daily "life" of a typical fantasy world is covered herein. Sound the note of world creation with Gary Gygax's Everyday Life.

Cicero's Style - M. von Albrecht 2017-09-11

Cicero was speaking like everybody, but better than anybody. Far from confining himself to the so-called 'periodic style', Cicero was a master of a thousand shades. This synopsis, followed by examples, shows in detail, why a study of Cicero's style might be rewarding even today.

The Dada Painters and Poets - Robert Motherwell 1989

Presents a collection of essays, manifestos, and illustrations that provide an overview of the Dada movement in art, describing its convictions, antics, and spirit, through the words and art of its principal practitioners.

Approaches to Healing in Roman Egypt - Jane Draycott 2012

It refines the study of healing within Roman provincial culture, identifies diagnostic features of healing in material culture and offers a more contextualised reading of ancient medical literary and documentary papyri and archaeological evidence. This study differs from previous attempts to examine healing in Roman Egypt in that it tries, as far as possible, to encompass the full spectrum of healing strategies available

to the inhabitants of the province. The first part of this study comprises two chapters and focuses on the practitioners of healing strategies, both 'professional' and 'amateur'. Chapter 2 examines those areas of ancient medicine that have traditionally been neglected or summarily dismissed by scholars: 'domestic' and 'folk' medicine with particular emphasis on the extent to which the specific natural environment of any given location affects healing strategies.

Thrice-Greatest Hermes - G. R. S. Mead 1906

This is the edition including all three books. The so-called Hermetic writings have been known to Christian writers for many centuries. The early church Fathers (Justin Martyr, Tertullian, Clement of Alexandria) quote them in defense of Christianity. Stobaeus collected fragments of them. The Humanists knew and valued them. They were studied in the sixteenth and seventeenth centuries, and in modern times have again been diligently examined by many scholars. G. R. S. Mead has issued a translation of the whole body of extant literature, with extended prolegomena, commentary, etc. There is a wide difference of opinion as to the date at which this literature was produced. Mead believes that some of the extant portions of it are at least as early as the earliest Christian writings, while von Christ assigns them to the third Christian century, and thinks that they show the influence of neo-Platonism. To affirm that they influenced New Testament usage would be hazardous, but they perhaps throw some light on the direction in which thought was moving in New Testament times.

Olympic Education - Roland Naul 2008

"Olympic Education" is not only a text book for students and teachers in physical and sport education but also for course instructors and coaches in children's youth sport programmes, as well as for executives in sports federations. It answers the question, what the term "Olympic" really means in the broader context of the Olympic Games movement and as a global purpose and new challenge for a balanced physical, social and moral education. Olympic education has a traditional vision and an important future mission that is relevant for all children and youths, in schools as well as in sport clubs. In five parts and fifteen chapters, the

book shows why the Olympic ideals are a modern challenge not only for a new physical and sport education but also for the development of essential life skills for today. It introduces pedagogical and didactical fundamentals for an Olympic education, in order to bring motor abilities, social behaviour and moral actions in sports and everyday life back together again - in the mind, learning and actions of children and youths, but also of grown-ups in the social settings where young people live.

Miracles in Greco-Roman Antiquity - Wendy Cotter 2012-11-12

Miracles in Greco-Roman Antiquity presents a collection in translation of miracle stories from the ancient world. The material is divided up into four main categories including healing, exorcism, nature and raising the dead. Wendy Cotter, in an introduction and notes to the selections, contextualizes the miracles within the background of the Greco-Roman world and also compares the stories to other Jewish and non-Jewish miracle stories of the Mediterranean world. This sourcebook provides an interdisciplinary collection of material which will be of value to students of the New Testament.

The Greek and Latin Roots of English - Tamara M. Green 1990-02-01

The Crimson Vault - Will Wight 2013-12-10

Simon is caught between the clash between Enosha nd Damasca and must show if a hero lies inside him.

In His Name - E Christopher Reyes 2018-03-24

In His Name is a research into biblical history, its ramifications on the thinking of mankind, and its continuous alterations that serve the few.

Jumper - Steven Gould 2008-02-05

Blessed with the unusual ability to "jump"--to teleport himself to any place on Earth that he has been to before--Davy is determined to locate others who can jump, but the interference of the government could prevent him from doing so. Reissue. (A 20th Century Fox/New Regency Productions film, directed by Doug Liman, releasing February 2008, starring Hayden Christensen, Jamie Bell, Diane Lane, & Samuel L. Jackson) (Science Fiction)

The Greeks and the Irrational - Eric R. Dodds 2004-06-16

In this philosophy classic, which was first published in 1951, E. R. Dodds takes on the traditional view of Greek culture as a triumph of rationalism. Using the analytical tools of modern anthropology and psychology, Dodds asks, "Why should we attribute to the ancient Greeks

an immunity from 'primitive' modes of thought which we do not find in any society open to our direct observation?" Praised by reviewers as "an event in modern Greek scholarship" and "a book which it would be difficult to over-praise," *The Greeks and the Irrational* was Volume 25 of the Sather Classical Lectures series.
