I Can't Breathe - David Horowitz 2021-10-05
THE TRUTH ABOUT THE BLACK LIVES MATTER MARTYRS "This book is essential. Don't miss it." —MARK LEVIN "A brilliant examination of the actual facts of the George Floyd case and the subsequent exploitation of his death by Black Lives Matter." —LEO TERRELL, civil rights attorney & commentator
In his latest salvo in the battle for America's survival, David Horowitz exposes the racial hoax that is spawning riots and dividing the nation. Examining the twenty-six most notorious cases of police "racism"— from Trayvon Martin and Michael Brown to George Floyd and Breonna Taylor—Horowitz demonstrates that Black Lives Matter has lied about every one of them in its quest to undermine law and order, fuel race hatred, and destroy America. In case after case, the lies and mythmaking break down under Horowitz's scrutiny. Even the chief prosecutor in the George Floyd case was forced to admit that he had no evidence of racial bias, while Breonna Taylor, the longtime accomplice of a major drug dealer, was killed when she and her boyfriend resisted arrest. The unchallenged myths about racist murders by the police have brought mayhem and crime to our cities, where the victims are predominantly black. They are also a slander against the United States, the least racist country in history, and against black Americans, the vast majority of whom are successful and law-abiding citizens. Now the Biden administration has embraced the false narrative of "systemic racism" and "white supremacy," which supposedly infect every aspect of American life, using it to justify a witch

hunt for "domestic terrorists." Most Americans, black and white, know in their bones that this portrayal of their country is a lie. An unflinching and courageous accounting, I Can't Breathe is the urgently needed proof that they are right.

Serviceology for Designing the Future -

Takashi Maeno 2016-09-18

This book provides a useful overall guide to the state of the art in theory and practice of services. It can also serve as a reference book for researchers in various fields, including engineering, marketing, economics, and other disciplines. Advanced works presented here were selected from the proceedings of the Second International Conference on Serviceology (ICServ2014), held September 14-16, 2014. This book helps readers to understand serviceology, which tackles with a broad range of services, the globalization of the economy and also enhances the quality of life of local residents.

Dancing to the Drum Machine - Dan LeRoy
2022-10-06

Dancing to the Drum Machine is a never-before-attempted history of what is perhaps the most controversial musical instrument ever invented: the drum machine. Here, author Dan LeRoy reveals the untold story of how their mechanical pulse became the new heartbeat of popular music. The pristine snap of the LinnDrum. The bottom-heavy beats of the Roland 808. The groundbreaking samples of the E-MUSP-1200. All these machines-and their weirder, wilder-sounding cousins-changed composition, recording, and performance habits forever. Their distinctive sounds and styles helped create new genres of music, like hip hop and EDM. But they altered every musical style, from mainstream pop to heavy metal to jazz. Dan LeRoy traces the drum machine from its low-tech beginnings in the Fifties and Sixties to its evolution in the Seventies and its ubiquity in the Eighties, when seemingly overnight, it infiltrated every genre of music. Drum machines put some drummers out of work, while keeping others on their toes. They anticipated virtually every musical trend of the last five decades: sequencing, looping, sampling, and all forms of digital music creation. But the personalities beneath those perfect beats make the story of drum machines a surprisingly human one-told here for the very first time.

Billboard - 1971-02-20

In its 114th year, Billboard remains the world's

premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Servicing Satellite TV Equipment - Nick Beer
1998-05-20

This is the definitive practical guide to fault-finding, troubleshooting and servicing satellite television equipment, both indoors and outdoors. It will take you through all areas of satellite television system servicing from the simplest fixed dish to fully motorised systems. From PAL to Mac to MPEG all contemporary systems are covered. Satellite TV systems have been installed in a wide variety of locations, using a bewildering range of equipment. That equipment is beginning to need maintenance and repair. To cope with the volume and variety of work, Nick Beer has written the first guide to satellite TV which concentrates on what to look for and what to do when it goes wrong. This book is up to date and crammed with real-life experience, not theoretical data or manufacturer's ideal specs. Nick Beer has already written the best-selling *Servicing Audio and Hi-fi Equipment* and is a technical correspondent for many UK and international journals such as *Television*. He also works as an engineer and teaches satellite servicing to technicians. A practical guide to a new and important area for service engineers
Covers indoor and outdoor equipment

Serviceology for Services - Masaaki Mochimaru 2014-05-16

Services are key activities in the globalization of the economy and also underlie the quality of life of local residents. The advanced work presented in this book was selected from the proceedings of the First International Conference on Serviceology (ICServ2013), held October 16-18,

2013 in Tokyo. This book provides a useful overall guide to the state of the art in theory and practice of services for researchers in various fields, including engineering, marketing, economics, and others. This work also facilitates the scientific systematization of services and promotes technological developments for solutions of industrial issues.

Advances in Production Management Systems. Competitive Manufacturing for Innovative Products and Services - Christos Emmanouilidis 2013-08-13

The two volumes IFIP AICT 397 and 398 constitute the thoroughly refereed post-conference proceedings of the International IFIP WG 5.7 Conference on Advances in Production Management Systems, APMS 2012, held in Rhodes, Greece, in September 2012. The 182 revised full papers were carefully reviewed and selected for inclusion in the two volumes. They are organized in 6 parts: sustainability; design, manufacturing and production management; human factors, learning and innovation; ICT and emerging technologies in production management; product and asset lifecycle management; and services, supply chains and operations.
