1 1 real numbers algebra essentials college algebra 2e

irrational numbers at some point in the ancient past someone discovered that not all numbers are rational numbers a builder for instance may have found that the diagonal of a square with unit sides was not 2 or even $3/2$ but was something else or a garment maker might have observed that the ratio of the circumference to the diameter of a roll of cloth was a little bit more

division mathematics wikipedia

division is often shown in algebra and science by placing the dividend over the divisor with a horizontal line also called a fraction bar between

them for example a divided by b can be written as $\frac{a}{b}$ which can also be read out loud as divide a by b or a over b a way to express division all on one line is to write the dividend or numerator then a slash then the divisor or
