ALIEN BONES - Chris 'Doc' Wyatt 2018-12-19

Everyone's a Alien When Ur a Alien Too - Jomny Sun 2017-06-27

The illustrated story of a lonely alien sent to observe Earth, where he meets all sorts of creatures with all sorts of perspectives on life, love, and happiness, while learning to feel a little better about himself--based on the enormously popular Twitter account. Here is the unforgettable story of Jomny, an alien sent to study Earth. Always feeling apart, even among his species, Jomny feels at home for the first time among the earthlings he meets. There is a bear tired of other creatures running in

fear, an egg struggling to decide what to hatch into, a turtle hiding itself by learning camouflage, a puppy struggling to express its true feelings, and many more. The characters are unique and inventive—bees think long and hard about what love means, birds try to eat the sun, nothingness questions its own existence, a ghost comes to terms with dying, and an introverted hedgehog slowly lets Jomny see its artistic insecurities. At the same time, Jomny's curious presence allows these characters to open up to him in ways they were never able to before, revealing the power of somebody who is just there to listen. Everyone's a fan. When Ur a fan is also the story behind the widely-shared and typo-filled @jonnysun twitter account. Since the beginning, Sun intentionally tweeted from an outsider's perspective, creating a truly distinct voice. Now, that outsider has taken shape in the character of Jomny, who observes Earth with the same intelligent, empathetic, and charmingly naïve voice that won over his fans on social media. New fans will find it organic, and old fans will delight at seeing the clever words that made them fans in the first place. Through this story of a lost, lonely and confused Alien finding friendship, acceptance, and love among the animals and plants of Earth, we will all learn how to be a little more human. And for all the earth-bound creatures here on this planet, we will all learn how sometimes, it takes an outsider to help us see ourselves for who we truly are.

A Wrinkle in Time - Madeleine L'Engle 2019-07-18

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights

are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Alien: the Original Screenplay - Cris Seixas 2020-12-15

In 1976, Twentieth Century Fox bought a screenplay by Dan O'Bannon entitled Star Beast. Three years later with Ridley Scott at the helm, Alien was unleashed on unsuspecting filmgoers. En route to back to Earth, the crew of the starship Snark intercepts an alien transmission. Their investigation leads them to a desolate planetoid, a crashed alien spacecraft, and a pyramidal structure of unknown origin. Then the terror begins . . . Writer Cristiano Seixas and artist Guilherme Balbi have attempted to stay true to the characters, settings, and creatures described in O'Bannon's original screenplay--without replicating the famous designs of Ron Cobb, Moebius, and H.R. Giger. A new experience, but still terrifying! Collects Alien: The Original Screenplay issues #1-#5.

Enemy Alien - Cassandra Luciuk 2020-03-31

" This graphic history tells the story of Canada's first national internment operations through the eyes of John Boychuk, an internee held in Kapuskasing from 1914-17. The story is based on Boychuk's actual memoir, which is the only comprehensive internee testimony in existence. The novel follows Boychuk from his arrest in Toronto to Kapuskasing, where he spends just over 3 years. It details the everyday struggle of the internees in the camp, including forced labour and exploitation, abuse from guards, malnutrition, and homesickness. It also documents moments of internee agency and resistance, such as work

slowdowns and stoppages, hunger strikes, escape attempts, and riots. Little is known about the lives of the incarcerated once the paper trail stops, but *Enemy Alien* subsequently traces Boychuk's parole, his search for work, his attempts to organize a union, and his ultimate settlement in Winnipeg. Boychuk's reflections emphasize the much broader context in which internment takes place. This was not an isolated incident, but rather part and parcel of Canadian nation building and the directives of Canada's settler colonial project.

Dragon's Egg - Robert L. Forward 2011-02-16

"In science fiction there is only a handful of books that stretch the mind—and this is one of them."—Arthur C. Clarke In a moving story of sacrifice and triumph, human scientists establish a relationship with intelligent lifeforms—the cheela—living on Dragon's Egg, a neutron star where one Earth hour is equivalent to hundreds of their years. The cheela culturally evolve from savagery to the discovery of science, and for a brief time, men are their diligent teachers. Praise for *Dragon's Egg* "Bob Forward writes in the tradition of Hal Clement's *Mission of Gravity* and carries it a giant step (how else?) forward."—Isaac Asimov "Dragon's Egg is superb. I couldn't have written it; it required too much real physics."—Larry Niven "This is one for the real science-fiction fan."—Frank Herbert "Robert L. Forward tells a good story and asks a profound question. If we run into a race of creatures who live a hundred years while we live an hour, what can they say to us or we to them?"—Freeman J. Dyson "Forward has impeccable scientific credentials, and . . . big, original, speculative ideas."—The Washington Post
