Highway 39 - Sudeep Chakravarti 2012-05-18 In Highway 39: Journeys through a Fractured Land, Sudeep Chakravarti attempts to unravel the brutal history of Nagaland and Manipur, their violent and restive present, and their uncertain and yet desperately hopeful future, as he travels along Dimapur, Kohima, Senapati, Imphal, Thoubal, and their hinterlands-all touch points of brutalized aspiration, identity, conflict and tragedy. These are the lands that nurture deadly acronyms-like AFSPA, an act of Parliament that with impunity hurts and kills citizens. Lands where militants not only battle the Indian government but also each other in a frenzy of ego, politics and survival, and enforce 'parallel' administrations. Sudeep Chakravarti's journey introduces the reader to stories that chill, anger and offer uneasy reflection. A fourteen-year-old Naga girl who dies resisting a soldier's attempt to rape her-and is now an icon. An eleven-year-old girl abducted by police in Manipur because they want to trap her parents. A faked encounter in Imphal that kills a former rebel, and also an innocent lady and her unborn child. A family in Kohima still trying to come to terms with the death of their youngest child in a mortar attack. Chakravarti also interacts with security and military officials, senior bureaucrats, top rebel leaders, and human rights and social activists, to paint a terrifying picture of a society and a people brought repeatedly to breakdown through years of political conceit and deceit, and stress and conflict. In

prose suffused with a rare understanding of the region and its people, and with remarkable insight into its convoluted politics, Highway 39 brings into focus a region long neglected and often forgotten by Mainland India, a region surrounded by nations historically inimical to India- and yet, which offer a dream gateway to the markets of East Asia. A region India can continue to ignore only at the peril of the very idea of India.

Hydrogen Fuel Cell Technology for Stationary Applications - Badea, Gheorghe 2021-04-30
Unconventional energy sources have gained and will continue to gain an increasing share of energy systems around the world. Today, hydrogen is recognized as a non-polluting energy carrier because it does not contribute to global warming if it is produced from renewable sources. Hydrogen is already part of today's chemical industry, but as an energy source, its rare advantages can only be obtained with the help of technologies. Currently, the fuel cell is considered the cleanest sustainable energy. With the development of fuel

cells, hydrogen-based energy generation becomes a reality. Hydrogen Fuel Cell Technology for Stationary Applications is an essential publication that focuses on the advantages of hydrogen as a primary energy center and addresses its use in the sustainable future of stationary applications. While highlighting a broad range of topics including cost expectations, production methods, and social impact, this publication explores all aspects of the implementation and dissemination of fuel cell technology in the hope of establishing a sustainable marketplace for it. This book is ideally designed for fuel cell manufacturers, architects, electrical engineers, civil engineers, environmental engineers, advocates, manufacturers, mechanics, researchers, academicians, and students.

Justice - Michael J. Sandel 2009-09-15 A renowned Harvard professor's brilliant, sweeping, inspiring account of the role of justice in our society--and of the moral dilemmas we face as citizens What are our obligations to others as people in a free society? Should government tax the rich to help the poor? Is the free market fair? Is it sometimes wrong to tell the truth? Is killing sometimes morally required? Is it possible, or desirable, to legislate morality? Do individual rights and the common good conflict? Michael J. Sandel's "Justice" course is one of the most popular and influential at Harvard. Up to a thousand students pack the campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day, and this fall, public television will air a series based on the course. Justice offers readers the same exhilarating journey that captivates Harvard

students. This book is a searching, lyrical exploration of the meaning of justice, one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways. Affirmative action, same-sex marriage, physician-assisted suicide, abortion, national service, patriotism and dissent, the moral limits of markets—Sandel dramatizes the challenge of thinking through these con?icts, and shows how a surer grasp of philosophy can help us make sense of politics, morality, and our own convictions as well. Justice is lively, thought-provoking, and wise—an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life.

Boats on Land - Janice Pariat 2012-10-05
Boats on Land is a unique way of looking at India's northeast and its people against a larger historical canvas—the early days of the British Raj, the World Wars, conversions to Christianity, and the missionaries. This is a world in which the everyday is infused with folklore and a deep belief in the supernatural. Here, a girl dreams of being a firebird. An artist watches souls turn into trees. A man shape-shifts into a tiger. Another is bewitched by water fairies. Political struggles and social unrest interweave with fireside tales and age-old superstitions. Boats on Land quietly captures our fragile and awkward place in the world.

Marginalities in India Asmita Bhattacharyya 2017-09-20
This volume engages with the renewed focus on various forms of persisting and new

marginalities in globalising India. The persistence of hunger in pockets of India; forcible land acquisitions and their impact on deprived sections of society; the effects of urban relocations; material deprivation of minority groups and tribes as a result of conflicts; continuing caste discrimination; reported cases of atrocities against lower castes and tribes; regional disparities; gendered forms of exclusion and those related to disability and many other conditions suggest the need to rethink notions and practices of marginality and exclusion in India. This volume critiques the principal ways of thinking about marginalities, which primarily consist of a focus on normative principles, and brings into focus the chasm between such principles and subjective notions and experiences of marginality and injustice. The uniqueness of this edited volume is that it connects theoretical perspectives with empirical case studies and discussions, and cases of exclusion are discussed within an overall inclusive and integrated framework. This is a valuable resource for researchers, scholars, students, public policy formulators and for social innovators from private sectors and non-government organisations.

We must understand how an attacker approaches a web application and the implications of breaching its defenses. Through the first part of the book, Adrian Pruteanu walks you through commonly encountered vulnerabilities and how to take advantage of them to achieve your goal. The latter part of the book shifts gears and puts the newly learned techniques into practice, going over scenarios where the target may be a popular content management system or a containerized application and its network. Becoming the Hacker is a clear guide to web application security from an attacker's point of view, from which both sides can benefit. What you will learn Study the mindset of an attacker Adopt defensive strategies Classify and plan for standard web application security threats Prepare to combat standard system security problems Defend WordPress and mobile applications Use security tools and plan for defense against remote execution Who this book is for The reader should have basic security experience, for example, through running a network or encountering security issues during application development. The Bengalis - Sudeep Chakravarti 2017
The Bengalis are the third largest ethno-linguistic group in the world, after the Han Chinese and the Arabs. A quarter of a billion strong and growing, the community has produced three Nobel laureates, world-class scientists, legendary political leaders and revolutionaries, iconic movie stars and directors, and an unending stream of writers, philosophers, painters, poets and musicians of the first rank. But, bald facts aside, just who are the Bengalis? What is the community all about, stereotypically and beyond stereotype? In order to find the answers to these and related questions, the author (a Bengali born and steeped in his own culture but objective enough to give us a balanced reckoning of his fellows) delves deep into the culture, literature, history and social mores of the Bengalis. He writes with acuity about the many strengths of the community but does not flinch from showing us its weaknesses and tormented history. He points out that Bengalis are among the most civilized and intellectually refined people on earth but have also been responsible for genocide and racism of the worst kind. Their cuisine is justly celebrated but few remember the cause and effect

of millions of Bengalis dying of famine. Renowned for their liberal attitudes, they are also capable of virulent religious fundamentalism. Argumentative and meditative, pompous and grounded, hypocritical and wise, flippant and deep... Bengalis are all this and much, much more. With erudition, wit and empathy, this book manages to capture their very essence.

Born Standing Up- Steve Martin 2008-09-04 Steve Martin has been an international star for over thirty years. Here, for the first time, he looks back to the beginning of his career and charmingly evokes the young man he once was. Born in Texas but raised in California, Steve was seduced early by the comedy shows that played on the radio when the family travelled back and forth to visit relatives. When Disneyland opened just a couple of miles away from home, an enchanted Steve was given his first chance to learn magic and entertain an audience. He describes how he noted the reaction to each joke in a ledger - 'big laugh' or 'quiet' - and assiduously studied the acts of colleagues, stealing jokes when needed. With superb detail, Steve recreates the world of small, dark clubs and the fear and exhilaration of standing in the spotlight. While a philosophy student at UCLA, he worked hard at local clubs honing his comedy and slowly attracting a following until he was picked up to write for TV. From here on, Steve Martin became an acclaimed comedian, packing out venues nationwide. One night, however, he noticed empty seats and realised he had 'reached the top of the rollercoaster'. BORN STANDING UP is a funny and riveting chronicle of how Steve Martin became the comedy genius we now know and is also a fascinating portrait of an era.

Highway 39 - Sudeep Chakravarti 2012-05-18 In Highway 39: Journeys through a Fractured Land, Sudeep Chakravarti attempts to unravel the brutal history of Nagaland and Manipur, their violent and restive present, and their uncertain and yet desperately hopeful future, as he travels along Dimapur, Kohima, Senapati, Imphal, Thoubal, and their hinterlands-all touch points of brutalized aspiration, identity, conflict and tragedy. These are the lands that nurture deadly acronyms-like AFSPA, an act of Parliament that with impunity hurts and kills citizens. Lands where militants not only battle the Indian government but also each other in a frenzy of ego, politics and survival, and enforce 'parallel' administrations. Sudeep Chakravarti's journey introduces the reader to stories that chill, anger and offer uneasy reflection. A fourteen-year-old Naga girl who dies resisting a soldier's attempt to rape her-and is now an icon. An eleven-year-old girl abducted by police in Manipur because they want to trap her parents. A faked encounter in Imphal that kills a former rebel, and also an innocent lady and her unborn child. A family in Kohima still trying to come to terms with the death of their youngest child in a mortar attack. Chakravarti also interacts with security and military officials, senior bureaucrats, top rebel leaders, and human rights and social activists, to paint a terrifying picture of a society and a people brought repeatedly to breakdown through years of political conceit and deceit, and stress and conflict. In prose suffused with a rare understanding of the region and its people, and with remarkable insight into its convoluted politics, Highway 39 brings into focus a region long neglected and often forgotten by Mainland India, a region surrounded by nations historically inimical to India-and yet, which offer a dream gateway to the markets of East

Asia. A region India can continue to ignore only at the peril of the very idea of India.

The Wuhan Lockdown - Guobin Yang 2022-02-15 A metropolis with a population of about 11 million, Wuhan sits at the crossroads of China. It was here that in the last days of 2019, the first reports of a mysterious new form of pneumonia emerged. Before long, an abrupt and unprecedented lockdown was declared—the first of many such responses to the spread of the COVID-19 pandemic around the world. This book

tells the dramatic story of the Wuhan lockdown in the voices of the city's own people. Using a vast archive of more than 6,000 diaries, the sociologist Guobin Yang vividly depicts how the city coped during the crisis. He analyzes how the state managed—or mismanaged—the lockdown and explores how Wuhan's residents responded by taking on increasingly active roles. Yang demonstrates that citizen engagement—whether public action or the civic inaction of staying at home—was essential in the effort to fight the pandemic. The book features compelling stories of citizens and civic groups in their struggle against COVID-19: physicians, patients, volunteers, government officials, feminist organizers, social media commentators, and even aunties loudly swearing at party officials. These snapshots from the lockdown capture China at a critical moment, revealing the intricacies of politics, citizenship, morality, community, and digital technology. Presenting the extraordinary experiences of ordinary people, The Wuhan Lockdown is an unparalleled account of the first moments of the crisis that would define the age.

100 Days of Sunlight - Abbie Emmons 2019-08-07
When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt:

screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of Sunlight is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

The Eastern Gate - Sudeep Chakravarti 2022-01-06 Traders, Pushers, Soldiers, Spies. A pivot for India's Act-East policy. The gateway to a future of immense possibilities from hydrocarbons to regional trade over land and water that could create a new Silk Route. A bulwark against China. A cradle of climate change dynamics and migration. 'Northeast' India, the appellation with which India's far-east is known, is all this and more. Alongside hope and aspiration, it is also home to immense ethnic and communal tension, and a decades-old Naga conflict and the high-profile peace process that involves four gateway states—Nagaland, Manipur, Arunachal Pradesh and Assam—and several million people. It's among the most militarized zones in the world. It's a playground of corruption and engineered violence. Only

real peace, and calm in both Myanmar and Bangladesh, will unlock this Eastern gate. A keen observer and frequent chronicler of the region, Sudeep Chakravarti has for several years offered exclusive insights into the Machiavellian—Chanakyan—world of the Naga and other conflicts and various attempts to resolve these. He now melds the skills of a journalist, analyst, historian and ethnographer to offer inside stories and a ringside view to the tortuous, no-holds-barred attempts at resolving conflict. Employing a 'dispatches' style of storytelling, and interviews with rebel leaders, politicians, bureaucrats, policymakers, security specialists and operatives, gunrunners, 'narcos', peace negotiators and community leaders, Chakravarti's narrative provides a definitive guide to the transition from war to peace, even as he keeps a firm gaze on the future. The Eastern Gate is a tour de force that captures this story of our times.
