## BIM for Facility Managers - IFMA 2013-04-03

A practical look at extending the value of Building Information Modeling (BIM) into facility management—from the world's largest international association for professional facility managers. Building owners and facility managers are discovering that Building Information Modeling (BIM) models of buildings are deep reservoirs of information that can provide valuable spatial and mechanical details on every aspect of a property. When used appropriately, this data can improve performance and save time, effort, and money in running and maintaining the building during its life cycle. It can also provide information for future modifications. For instance, a BIM could reveal everything from the manufacturer of a light fixture to its energy usage to maintenance instructions. BIM for Facility Managers explains how BIM can be linked to facility management (FM) systems to achieve very significant life-cycle advantages. It presents guidelines for using BIM in FM that have been developed by public and private owners such as the GSA. There is an extensive discussion of the legal and contractual issues involved in BIM/FM integration. It describes how COBie can be used to name, capture, and communicate FM-related data to downstream systems. There is also extensive discussion of commercial software tools that can be used to facilitate this integration. This book features six in-depth case studies that illustrate how BIM has been successfully integrated with facility management in real-life projects at: Texas A&M Health Science Center USC School of Cinematic Arts MathWork's new campus Xavier University State

of Wisconsin Facilities University of Chicago Library renovation BIM for Facility Managers is an indispensable resource for facility managers, building owners, and developers alike.

## *An English-French Dictionary of Clipped Words*

Fabrice Antoine 2000

This dictionary deals with the little words which everyone uses every day without even noticing them and which are so liable to escape the grasp of a speaker of another language - clipped words, obtained by back-clipping or apocope (the dropping of one or more final syllables), by front-clipping or apharesis (the dropping of one or more initial syllables), by the combination of these two processes and sometimes further transformed, especially in slang, by the addition of a new ending. The aim is not of course merely to list all these words and say from which longer words they were obtained; an attempt is made here to retrace the history of each of them, its stylistic, semantic and often morphological evolution, to illustrate this with authentic and often pungent or humorous quotations and also to show how each can be translated into the other language. Indeed this is an English-French bilingual dictionary, whose aim is to translate clipped words according to principles of historical and register fidelity which bilingual dictionaries do not ordinarily set for this type of headword. Thus, clipped words will be shown to have meaning precisely because they are clipped; consequently, this meaning must be preserved and conveyed in translation. This dictionary thus aims at being different from traditional bilingual dictionaries, dictionaries of slang and

colloquialisms included, in the structure and content of its articles, in which much space is devoted to the lexicological data, which inform the strictly lexicographical information. Special attention and care have been devoted to the system of cross-references, the recording and presentation of derived forms, variants and compounds and to the presentation of slang or colloquial synonyms of the headwords. The body of the dictionary is preceded by a preface in which the editing principles and methods are outlined and an attempt is made at analyzing the corpus : its historical, sociological and morphological aspects are reviewed, together with the motivations of those that coin or use clippings. These motivations appear essential to the proper appraisal of this body of slang and colloquial words; this dictionary's intention is to pay homage to all the unknown people who have made the lexicon richer by playing with and on words, with joyful humour, zest and gusto. It is hoped that all lovers of words will have the same pleasure exploring this dictionary as its author had writing it. Professor Fabrice Antoine teaches English at the Universite Charles-de-Gaulle Lille III (France). His research fields are bilingual lexicography, lexicology and translation; he has been a consulting editor for a dozen bilingual dictionaries, general as well as slang ones. He is especially interested in French and English slang and colloquialisms and co-edited ELEXTRA (Etudes sur le Lexique et la Traduction), a research centre at the University of Lille.

Wem gehört das übersetzte Gedicht? - Andreas F. Kelletat 2022-02-18

Mit Blick auf Gedichte und ihre Autoren ist Andreas F. Kelletat ein ausgewiesener Kenner. In diesem Band liegt endlich eine Auswahl seiner Schriften über Lyrik und Lyriker vor.

Philologisch präzise Interpretationen und strukturalistisch-hermeneutische Einzelanalysen zu Texten von Erich Arendt, Volker Braun oder Richard Pietraß stehen neben Beiträgen zu Lyrikübersetzungen von Peter Rühmkorf und Manfred Peter Hein. Kelletat diskutiert zudem grundsätzliche Fragen wie jene, ob ins Deutsche übersetzte Gedichte als Fakten der deutschen Literatur behandelt werden müssen.

Kennzeichnend für seine Studien ist - neben dem Interesse an nicht-kanonisierten Texten - eine starke interkulturelle Ausrichtung sowie das Bestreben, auch im wissenschaftlichen Umgang mit Gedichten Sprachbegeisterung zuzulassen und zu wecken. Kelletats Aufsätze gewinnen ihren besonderen Reiz daraus, dass sie im Austausch mit Studenten und Kollegen aus anderen Ländern und Kulturen entstanden sind.

**Vom Text zum Text** - Julija Boguna 2014-12-15

Der Wissenschaftler und Schriftsteller Andreas F. Kelletat ist eine Ausnahmeerscheinung. Sein Talent zum kritischen sowie produktiven Umgang mit Sprache, Worten und Zeichen hat er in zahlreichen Vorträgen und Publikationen unter Beweis gestellt. Nun schreiben andere für und über ihn. Kollegen, Wegbegleiter und Freunde aus Deutschland, Finnland und Europa ehren einen Mittler der deutsch-finnischen Literatur- und Kulturbeziehungen, einen Brückenbauer ins Baltikum, einen Kämpfer für die interkulturelle Arbeit in Forschung und Lehre, dessen Frage nach dem Wie des „interkulturellen Lernens“ immer auch zur Frage nach dem Wie des „interkulturellen Gesprächs“ führt. Neben fundierten Forschungsergebnissen aus Literatur-, Sprach- und Translationswissenschaft stehen hier lyrische Gedanken und persönliche Erinnerungen. Im Zusammenspiel der Texte

entsteht ein vielschichtiges Panorama, das die vielseitigen Interessen Kellertats spiegelt.

*BIM et maquette numérique* Collectif Eyrolles  
2014-09-04  
En un volume rassemblant les grands acteurs français du domaine, ce traité expose les différents aspects d'une révolution en cours dans le bâtiment : 20 ans après le passage de la planche à dessin aux outils de DAO, le BIM s'impose à la filière pour basculer vers le bâtiment 2.0. Ce mode collaboratif de conception et de réalisation appliqué au bâtiment repose sur l'emploi d'outils logiciels dédiés permettant l'interopérabilité entre les différents intervenants d'une opération de construction. Né aux Etats-Unis où, dès 2008, on l'imposait dans certains marchés publics avant que des règlements similaires ne soient promulgués aux Pays-Bas et en Scandinavie

(notamment en Finlande, en Suède et en Norvège), le BIM sera bientôt obligatoire en Grande Bretagne où, en 2016, tous les projets publics devront être rendus en Level II BIM. On attend du BIM de nombreux gains en termes de temps, de coûts, de réduction des malfaçons et, au-delà, d'exploitation rationnelle du bâtiment une fois livré. Quelle qu'en soit sa traduction, l'expression va ainsi très au-delà de la représentation graphique du bâtiment pour devenir sa base de données : Building Information Model, Modeling, ou encore Management, on peut y lire aussi Bâtiment et Informations Modélisés. Tous les acteurs de la construction sont concernés - et l'on sait qu'en France le monde du BTP est le premier secteur économique. Déjà, l'audience des conférences, l'information en ligne, les dossiers dans la presse professionnelle (dont Le Moniteur du BTP, Les cahiers techniques du bâtiment, AMC) et les nouveaux cycles de formation initiale ou continue préfigurent une demande qui va aller croissant. Cent quarante contributeurs spécialisés ont traité chacun un thème précis : enseignants et chercheurs des écoles d'architecture ; architectes, ingénieurs, géomètres, économistes et maîtres d'ouvrage (souvent représentants de leurs organisations professionnelles respectives); éditeurs de logiciels ; équipes de recherche ; représentants des entreprises du bâtiment (petites et majors) ou encore représentants des nouveaux métiers (BIM managers, consultants). Les deux directeurs de l'ouvrage - dont le point de vue et l'expérience sont complémentaires - sont l'un et l'autre experts de la maquette numérique depuis son apparition. Les auteurs se sont donné pour objectif d'informer le mieux possible tous les professionnels, depuis ceux qui sont en charge de la conception (architectes, ingénieurs, économistes et maîtres d'ouvrage, urbanistes et promoteurs), de la réalisation (maîtres d'oeuvre, entrepreneurs) et de la gestion d'un bâtiment, d'un parc immobilier ou d'un quartier (propriétaires, gestionnaires de patrimoine, collectivités) jusqu'aux enseignants et aux formateurs autant qu'aux informaticiens du secteur (développeurs, revendeurs, prestataires). ### **The Architecture Portfolio Guidebook** - Vincent Hui 2019-12-06

The Architecture Portfolio Guidebook shows you

how to make portfolios for both academic and professional needs to provide reviewers exactly what they are looking for. In school, architecture curricula nurture the knowledge and skills to develop design work to varying levels of presentation. In the profession, those skills are further developed and applied in the creation of the built environment. In both contexts, a portfolio is a core component for admission and advancement. This book provides key strategies to:

- develop an understanding of the unique needs of professional and academic organizations;
- identify applicants' key differentiators;
- highlight how applicants present themselves in their portfolios to address institutional needs;
- create successful reinforcing documentation;
- communicate using portfolios.

Rather than proposing generic solutions, this book details the successful practices for portfolio creation by addressing portfolio creation academically and professionally. Supporting insights and examples from leading academics and architects from around the world reinforce the themes presented in this guidebook. An ideal read for students and professionals of architecture, landscape architecture, interior design, and urban design, looking to advance their studies and careers.

**Managing the Professional Practice** - Hedley Smyth 2011-02-25

The emphasis here is to explore the key issues influencing the culture, strategies and management operations of professional practices. The focus is upon established practices from growing ones to large international firms in the built environment. A key aim of the book is to promote aspects of management by function and activities, with discipline acting as context rather than the primary focus. The book is structured into sections around 3 main themes: managing the organisation; and managing specific issues that affect operations, and a third section reflects upon management from practitioner experience. Section I: 'Managing the organisation' looks at how the history of the firm creates both

opportunities and rigidities for developing the practice, in terms of culture and market position, strategies and implementation, financial, marketing and HR management. Section II: 'Managing specific strategic and tactical issues' looks at how these affect approaches a discipline and operational processes in practices. These issues compliment those covered in Section I. Section III: 'Reflecting on practice' covers experience of those in practice and top practitioners detail how they are addressing key issues in their practice and for their discipline. Each chapter by a practitioner has a postscript from academic authors to make links back to research on theory and application. Addresses the key issues facing practice managers Collects latest research from leading academics Offers comment on current practice from top practitioners

*Come redigere il Capitolato Informativo secondo la metodologia BIM* Andrea Ferrara  
2018-07-25T00:00:00+02:00

A seguito dell'entrata in vigore del D.M. 560/2017, il BIM, Building Information Modelling, è divenuto obbligatorio per la progettazione, costruzione e gestione delle opere pubbliche. In uno scenario normativo in costante evoluzione, il presente testo raccoglie e compara i contenuti informativi espressi da specifiche tecniche nazionali e internazionali, al fine di fornire un quadro completo sulle procedure da attuare per l'esecuzione di una gara BIM. Attraverso l'analisi di normative dedicate come le BS PAS 1192, le specifiche tecniche NBIMS-US e le UNI 11337, il libro si configura come un compendio di nozioni, esempi e applicazioni indispensabili per la gestione informativa della commessa. L'illustrazione dettagliata del Capitolato Informativo e del relativo Piano di Gestione Informativa, introdotti entrambi dalla norma UNI 11337:2017, diviene il punto di partenza per la definizione di contenuti ben più ampi, come il BIM Execution Plan, la Common Data Environment, i BIM Use e i sistemi di classificazione di prodotti e processi, quali le tabelle OmniClass e Uniclass 2015. Rivolto a professionisti, imprese e rappresentanti della Pubblica Amministrazione,

il testo costituisce una sintesi completa per la programmazione e l'esecuzione di un appalto pubblico adottando gli strumenti del Building Information Modelling.

**CityMaker** - Jose Beirao 2012-09-28

CityMaker presents a method and a set of tools to generate alternative solutions for an urban context. The method proposes the use of a combined set of design patterns encoding typical design moves used by urban designers. The combination of patterns generates different layouts which can be adjusted by manipulating several parameters in relation to updated urban indicators. The patterns were developed from observation of typical urban design procedures, first encoded as discursive grammars and later translated into parametric design patterns. The CityMaker method and tools allows the designer to compose a design solution from a set of programmatic premises and fine-tune it by pulling parameters whilst checking the changes in urban indicators. These tools improve the designer's awareness of the consequences of their design moves.

**Het Fenomeen Stad** - Willem Verbaan

2012-04-10

In zijn Lectorale Rede gaat Willem Verbaan in op de veranderingen die de stad doormaakt, nu en in de toekomst. Door het globaliseringsproces is de competitie tussen steden op dit moment enorm. Het aantrekken en ontwikkelen van talent is hierdoor cruciaal.

Klimaatveranderingen beïnvloeden de leefbaarheid van de stad en de vitaliteit van haar inwoners. Duurzaamheidsdenken en waardencreaties zijn daarom nieuwe koersen waarvoor ideeën en concepten ontwikkeld moeten worden. Er zal een verschuiving plaatsvinden van bouw naar beheer om de leefomgeving te verbeteren, met waarde-stijging als resultaat. Governance-vraagstukken en een

multidisciplinaire benadering worden uitgangspunten daarbij. Oude financieringsvormen voldoen niet meer. Kernthema's voor de stad worden samenhang en het verbinden met nieuwe verdienmodellen; nieuwe partner- en financieringsvormen zullen ontstaan. Ketenintegratie en ICT gaan een fundamentele rol spelen in de nieuwe urbane processen.
