This workbook is for kids grades 2 to 5 who are looking to build cursive writing skills. Get over 200 pages of practice supported by easy illustrated dot-to-dot method to make learning cursive enjoyable and convenient. What makes this different from other cursive handwriting workbooks? 200 pages of cursive writing practice, giving you more cursive handwriting practice for your money. Competitors often range from 70 pages to 100 pages only. You get double that for about the same or lower price. Includes not only the alphabet, but cursive numbers as well. Many competitors don't have numbers to practice, just letters. For the ultimate practice, write short stories in cursive after story prompts This is a cursive handwriting workbook for kids grades 2-5. It is important to know that neuroscientists believe that learning cursive is developmentally beneficial for the human brain at any stage. Writing by hand, especially in cursive, is vital in training the brain to practice and improve more skills and senses all at once: hand-eye coordination, patience, self-control, and a sense of involvement, and ownership. All this is done while learning more about the English language. The book starts with the basic alphabet and numbers to develop the required muscle memory and progressively advances to words, sentences, then finally, whole stories. It builds an understanding of how to form each cursive letter and number correctly and connect them. This book takes the writer on a skill building journey of: Learning the dot-to-dot method, then tracing the cursive letters and numbers, then introducing free handwriting Connecting multiple letter words, some short, some long, in cursive Advancing to writing simple and complex sentences in cursive The included story prompts give a great foundation for writing cursive in paragraphs A free practice section for writing anything you need in cursive In this workbook, you will find various writing exercises in over 200 pages. The lines in the book are wide/legal ruled. The book is 8.5 x 11 inches, giving a wide berth to practice. The letter size is customized for kids to help with learning cursive writing on ruled lines. What's included? Part 1 starts of with the alphabet where writing letters in both lowercase and capital forms are practiced through tracing and connecting the dots. Each letter is presented with directional arrows to guide the hand movements. This book has plenty of space with a whole page for practicing each letter. Then it gives lessons on writing all numbers in cursive form as well once letters are learned. Part 2 builds on the previous knowledge with word building. A list of words starting with each letter is first practiced so that one can learn how to connect different letters longer. Common words for family, relationships, common items, directions, times, and such are presented in the second half of Part 2. Short words and longer words are included in each list. Part 3 is all about sentences. Common sentences are traced, and then free writing of the sentence finishes each. This is so that one can be comfortable writing longer in preparation for the next section. Part 4 puts it all together by giving story prompts. Initiative and creativity are tested with this ultimate practice of cursive writing. A couple pages for each story prompt is available to make a short story. Once finished, be confident that you have learned cursive extensively enough. Part 5 is a collection of empty, free practice pages once you have mastered cursive.

Trace & Learn - Cursive Writing - Shobha Pandey 2018-08-19
Motor skills, brain development and finesse Print writing and cursive writing both require very different skill sets. Cursive uses the hand muscles in a different way. Moreover, it activates a different part of the brain which regular writing does not use. Analysis shows that learning to use cursive writing advances students' motor and visual skills. Exercising cursive handwriting augments and develops dexterity in our fingers and hands. These skills are the ones which are required of a dentist, artist, surgeon, and computer technicians. Cursive also promotes our hand-eye coordination and the linkage between our brain and hand. Even more remarkable is the fact that learning to use cursive writing productively affects mind development. Research also indicates that the kids who learn cursive in addition to manuscript writing have higher grades on both spelling/writing and reading exams, conceivably because the linked-up style of cursive writing compels writers to think of words as wholes rather than parts. Students with learning difficulties Students with learning difficulties e.g., dyslexia, may have a hard time with print writing since many of the letters are similar in appearance, especially b and d. On the other hand, cursive letters look very different from their print counterparts. This gives dyslexic students another choice, which can reduce their dyslexic impulses and make them more confident in their capabilities. Cognitive skills and natural flow The flow of cursive writing comes much more naturally to children as compared to print writing and engages greater cognitive skills. This cognitive development helps students reason, problem solve, conceptualize and make decisions as they get older. Cursive writing progresses fine motor skills such as coordination, development of muscles and hand-eye synchronization. Additionally, cursive writing's letter strokes aid in the eyes' left-to-right reading motion. Cursive is also productive for note-taking because a word in cursive is one entire block, instead of a stop-and-start series of strokes. This productive and efficient way of taking notes assists students in grasping information greater than typing. The phrase we all have been using, "Write it down or you'll forget it," is very true. Scientific studies on Neuropsychology suggest that the act of listening and handwriting links the verbal and spatial processing regions of the brain, strengthening memory. The overall excellence of syntax and writing is improved by this ability to reconstruct thought, ideas and lectures into written words, contrasted to those who type.

Learning Cursive: Handwriting Practice Workbook for Teens - Trace2Write 2016-12-12

Teaching cursive handwriting to middle school and high school teens has never been easier. Learning Cursive: Handwriting Practice Workbook for Teens, provides extensive focus on cursive letter and sentence formation. This cursive handwriting workbook for teens contains more than 20,000 cursive tracing units. It includes a cursive alphabet chart with guided stroke/directional arrows; a paper position guide detailing appropriate writing posture; uppercase and lowercase cursive letter tracing and freehand practice sheets; and finally, freehand practice sheets using text from the U.S. Constitution, Bill of Rights, and Declaration of Independence. The introduction section features a full-page format that focuses on one uppercase and lowercase cursive alphabet per page—a method that allows for thorough practice when learning to write each letter correctly. Over 200 opportunities to trace each cursive letter is given before your teen is presented with a freehand cursive practice page. When teaching cursive handwriting to teens, daily practice should be encouraged. Daily practice allows spacing between words to become consistent. In order to make teaching cursive more effective, guided lines have been provided. Guided lines make cursive letter formation and word spacing simple and effective. Why is Learning Cursive: Handwriting Practice Workbook for Teens an important addition to your teen's curriculum? According to a 2013 New York Times article, "Learning to write in cursive is shown to improve brain development in the areas of thinking, language and working memory. Cursive handwriting stimulates brain synapses and synchronicity between the left and right hemispheres, something absent from printing and typing. As a result, the physical act of writing in cursive leads to increased comprehension and participation. The College Board found that students who wrote in cursive for the essay portion of the SAT scored slightly higher than those who printed." This handwriting book is perfect for teens improving cursive penmanship. Learning Cursive: Handwriting Practice Workbook for Teens is a great resource for the homeschool classroom as well as public and private 1st grade, 2nd grade, and 3rd grade classrooms. It's a great companion to other printed and cursive alphabet handwriting programs such as Zaner-Bloser, D'Nealian Cursive, and Kumon. This 260 page cursive workbook for teens is superior to one-page printable cursive worksheets.
