The Inner Consciousness - William Walker Atkinson 2017-10-03

Excerpt: It is now known that "Inner-Conscious" ideas, impressions and thoughts play a most important part in the thought-world of every individual. Beyond every outer-conscious action there may be found a vast inner-conscious background. It is held that of our entire mental processes, less than ten per cent are performed in the field of outer-consciousness. As a well-known writer has so well expressed it: "Our self is greater than we know; it has peaks above and lowlands below the plateau of our conscious experience." Prof. Elmer Gates has forcibly put it; "At least ninety per cent of our mental life is sub-conscious. If you will analyze your mental operations you will find that conscious thinking is never a continuous line of consciousness, but a series of conscious data with great intervals of sub-consciousness. We sit and try to solve a problem and fail. We walk around, try again and fail. Suddenly an idea dawns that leads to a solution of the problem. The sub-conscious processes were at work. We do not volitionally create our own thinking. It takes place in us. We are more or less passive recipients. We cannot change the nature of a thought, or of a truth, but we can, as it were, guide the ship by a moving of the helm." But, perhaps, the most beautiful expression of this underlying truth, is that of Sir Oliver Lodge, who says

in his consideration of the subject: "Imagine an iceberg glorying in its crisp solidity, and sparkling pinnacles, resenting attention paid to its submerged self, or supporting region, or to the saline liquid out of which it arose, and into which in due course it will someday return. Or, reversing the metaphor, we may liken our present state to that of the hull of a ship submerged in a dim ocean among strange monsters, propelled in a blind manner through space; proud perhaps of accumulating many barnacles of decoration; only recognizing our destination by bumping against the dock-wall; and with no cognizance of the deck and cabins above us, or the spars and sails-no thought of the sextant, and the compass, and the captain-no perception of the look-out on the mast-of the distant horizon. With no vision of objects far ahead-dangers to be avoided-destinations to be reached-other ships to be spoken to by means other than by bodily contact-a region of sunshine and cloud, of space, or perception, and of intelligence utterly inaccessible below the waterline."

**Kartini** - Raden Adjeng Kartini 2014-01-10

In Indonesia, the legacy of Raden Ajeng Kartini (1879-1904) is celebrated on Kartini Day, every year on April 21. Around the world, Kartini is recognized as a major figure in the history of the advancement of women: a tireless and effective advocate of women's education and emancipation. However, this book is the first complete and unexpurgated collection of Kartini's published articles, memoranda, and

correspondence ever published in any language. This collection reveals Kartini's importance as a pioneer of the Indonesian nationalist movement. Claiming, in her letters and petitions, her people's right to national autonomy well before her male compatriots did so publicly, Raden Ajeng Kartini used her writing in an attempt to educate the Netherlands and Dutch colonialists about Java and the aspirations of its people. Had she lived, she would have been one of Indonesia's leading pre-independence writers, as well as an educationist. In 1964, she was elevated to the status of national hero by Indonesia's first president, Sukarno. She has become one of the most well known Asian figures in the international women's movement. The product of several decades' study and based on archival sources, *Kartini: The Complete Writings, 1898-1904* is extensively annotated and provided with an authoritative historical introduction by one of the world's leading Kartini authorities. The book will be the essential resource for scholars and students of Kartini and her place in Indonesian history, around the world, for many years to come. **Effective Apology** - John Kador 2009-05-11

There's nothing easy about apology. The news is filled with examples of

leaders apologizing, needing to apologize, or failing miserably at the attempt. And certainly we all have occasion to apologize ourselves—maybe more often than we realize. But we don't need more apologies, says John Kador—we need better ones. Too many people just go through the motions, missing out on the power of apology to restore strained relationships, create possibilities for growth, and generate better outcomes for all. *Effective Apology* challenges you to think about the fundamental value and importance of apology as it delivers detailed advice for making an apology that truly heals and renews. Kador explores the Five Rs of apology: Recognize the wrong and the person harmed; accept moral Responsibility for your actions; express Remorse; provide meaningful Restitution; and offer assurance that the offense will not be Repeated. Making apology work in the real world—when and how to apologize, in what medium, and how to make it stick—is made clear through over seventy examples of good and bad apologies drawn from the news, popular culture, and the experiences of Kador, his clients, and his friends. The willingness to apologize signals strength, character, and integrity. Effective leadership is impossible without effective apology. John Kador shows how to craft and deliver a confident apology that will defuse resentment, reduce litigation, create goodwill, and transform a relationship ruptured by mistrust and disappointment into something stronger and more durable than it ever was before.

**Chokehold** - Paul Butler 2018-09-18

Finalist for the 2018 National Council on Crime & Delinquency's Media for a Just Society Awards Nominated for the 49th NAACP Image Award for Outstanding Literary Work (Nonfiction) A 2017 Washington Post Notable Book A Kirkus Best Book of 2017 "Butler has hit his stride. This is a meditation, a sonnet, a legal brief, a poetry slam and a dissertation that represents the full bloom of his early thesis: The justice system does not work for blacks, particularly black men." —The Washington Post "The most readable and provocative account of the consequences of the war on drugs since Michelle Alexander's *The New Jim Crow . . .*" —The New York Times Book Review "Powerful . . . deeply informed from a legal standpoint and yet in some ways still highly personal" —The Times

Literary Supplement (London) With the eloquence of Ta-Nehisi Coates and the persuasive research of Michelle Alexander, a former federal prosecutor explains how the system really works, and how to disrupt it. Cops, politicians, and ordinary people are afraid of black men. The result is the Chokehold: laws and practices that treat every African American man like a thug. In this explosive new book, an African American former federal prosecutor shows that the system is working exactly the way it's supposed to. Black men are always under watch, and police violence is widespread—all with the support of judges and politicians. In his no-holds-barred style, Butler, whose scholarship has been featured on 60 Minutes, uses new data to demonstrate that white men commit the majority of violent crime in the United States. For example, a white woman is ten times more likely to be raped by a white male acquaintance than be the victim of a violent crime perpetrated by a black man. Butler also frankly discusses the problem of black on black violence and how to keep communities safer—without relying as much on police. Chokehold powerfully demonstrates why current efforts to reform law enforcement will not create lasting change. Butler's controversial recommendations about how to crash the system, and when it's better for a black man to plead guilty—even if he's innocent—are sure to be game-changers in the national debate about policing, criminal justice, and race relations.

**Inside Obama's Brain** - Sasha Abramsky 2009-12-01

"Never has the world needed strong and wise American leadership more than it does now. Abramsky's eminently readable description of Obama's personal gifts makes it clear that he is remarkably suited to be the president the moment requires." -Former New York Governor Mario M. Cuomo From the moment he burst onto the national political scene, Barack Obama has fascinated people more than any politician in decades. Many biographers have already retold his story, but no previous book truly explains how his mind works, what passions drive him, or what makes him such an effective leader. This concise profile explores the ideas, inspirations, and experiences that have shaped the president. It quotes a wide network of sources, including many who broke long-standing vows of silence to offer their candid and surprising

observations. Award-winning journalist Sasha Abramsky interviewed close to one hundred of Obama's current and former friends, colleagues, classmates, teachers, staff, mentors, basketball buddies, fellow Chicago activists, media consultants, editors, and even his next-door neighbors from Hyde Park. These people each know a part of Obama's life and career, which the author blends the pieces into a uniquely detailed analysis. Abramsky explains the origins of Obama's extraordinary poise, focus, and self-confidence; his powerful storytelling and speaking skills; and his empathetic listening style. He shows why Obama's experiences as a community organizer are widely misunderstood and more influential than many people realize. And he explores how Obama found a unique way to bridge America's racial divides. No previous book has delved so deeply into the events and people that helped make Barack Obama the man he is today.

**Inside the Investments of Warren Buffett** - Yefei Lu 2016-08-09

Since the 1950s, Warren Buffett and his partners have backed some of the twentieth century's most profitable, trendsetting companies. But how did they know they were making the right investments? What did Buffet and his partners look for in an up-and-coming company, and how can others replicate their approach? A gift to Buffett followers who have long sought a pattern to the investor's success, Inside the Investments of Warren Buffett presents the most detailed analysis to date of Buffet's long-term investment portfolio. Yefei Lu, an experienced investor, starts with Buffett's interest in the Sanborn Map Company in 1958 and tracks nineteen more of his major investments in companies like See's Candies, the Washington Post, GEICO, Coca-Cola, US Air, Wells Fargo, and IBM. Accessing partnership letters, company documents, annual reports, third-party references, and other original sources, Lu pinpoints what is unique about Buffett's timing, instinct, use of outside knowledge, and postinvestment actions, and he identifies what could work well for all investors in companies big and small, domestic and global. His substantial chronology accounts for broader world events and fluctuations in the U.S. stock market, suggesting Buffett's most important trait may be the breadth of his expertise.

*Burni ng Down the Hbuse*- Nell Bernstein 2014-06-03

When teenagers scuffle during a basketball game, they are typically benched. But when Will got into it on the court, he and his rival were sprayed in the face at close range by a chemical similar to Mace, denied a shower for twenty-four hours, and then locked in solitary confinement for a month. One in three American children will be arrested by the time they are twenty-three, and many will spend time locked inside horrific detention centers that defy everything we know about how to rehabilitate young offenders. In a clear-eyed indictment of the juvenile justice system run amok, award-winning journalist Nell Bernstein shows that there is no right way to lock up a child. The very act of isolation denies delinquent children the thing that is most essential to their growth and rehabilitation: positive relationships with caring adults. Bernstein introduces us to youth across the nation who have suffered violence and

psychological torture at the hands of the state. She presents these youths all as fully realized people, not victims. As they describe in their own voices their fight to maintain their humanity and protect their individuality in environments that would deny both, these young people offer a hopeful alternative to the doomed effort to reform a system that should only be dismantled. *Burning Down the House* is a clarion call to shut down our nation's brutal and counterproductive juvenile prisons and bring our children home.

**Binary Options Unmasked** - Anna Coulling 2015-01-17

Binary options - is it betting or trading? A debate that has been raging

ever since binary options exploded onto the market, sweeping away convention, tearing up the rule book, and dividing opinion. Indeed, simply mention the word binary and instantly a heated debate will ensue. But love them or loathe them, binary options are here to stay, and Binary Options Unmasked has been written to provide traders with a balanced and considered view of these deceptively simple yet powerful instruments. There are many traps for the unwary, but there are also some solid gold nuggets, if you know where to look. Are Binary Options For Me? This is the question I hope will be answered for you in this book. In writing it, I have tried to provide a complete introduction to the subject, with practical examples of how to approach these innovative instruments. Every aspect of this market is explained - both the good and the bad. Nothing is left unsaid. Binary options have much to offer, and used with common sense and thought, are perfectly valid trading instruments. Applied unthinkingly, they become like any other instrument - a quick way to lose money fast. Binary Options Unmasked reveals the true characteristics of this market. It covers the current market participants, along with their product offering. Moreover, not only are binary options explained in detail, but their application as a trading instrument is also illustrated. Trading strategies and approaches too are explored, along with an innovative and practical approach to interpreting volatility, a key component of any options trading. I hope this book, will give you the confidence at least to consider these instruments in more detail for yourself, with an open mind and your eyes wide open.
