**Siwa: A Descriptive Grammar, 2nd Edition** - Etienne L. Poisson 2016-11-06

This is the second edition of the grammar of the artificial language Siwa. This book is one of the most detailed and in-depth descriptions of a conlang or constructed language currently available. Siwa is an apriori constructed language spoken by a people of neolithic european origin who migrated over the Atlantic and settled Quebec more than 4000 years ago before present day native Americans. The book goes into the phonology, morphology, syntax of the language as well as the culture of its speakers. Short texts introduce the reader to interesting features of Siwa culture and language. The book also contains a lexicon.

**Infinity and Me** - Kate Hosford 2013-11-01

When I looked up, I shivered. How many stars were in the sky? A million? A billion? Maybe the number was as big as infinity. I started to feel very, very small. How could I even think about something as big as infinity? Uma can't help feeling small when she peers up at the night sky. She begins to wonder about infinity. Is infinity a number that grows forever? Is it an endless racetrack? Could infinity be in an ice cream cone? Uma soon finds that the ways to think about this big idea may just be . . . infinite.

It was Marlowe - Wilbur Gleason Zeigler 1895  
**The Interior Landscape** - 1994

This classic anthology of translations has long been out of print. The poems come from one of the earliest surviving texts of Tamil poetry, the Kuruntokai, an anthology of love lyrics probably recorded during the first three centuries AD. Seventy-six of these classical poems have here beengiven a modern language and form. In an effort at fidelity to the effect of the images and their placement in the original, Ramanujan has given a visual shape to the poems by typographic devices. An essay on Tamil poetry explains its techniques and enriches the reader's pleasure in these quiet, controlled, yet dramatic poems.

From Cellar to Garret - David Rice Jones 1876

*Indi an Castl es 1206-1526* Konstantin S Nossov 2012-06-20

From the beginning of the 2nd millennium AD northern India began to fall under the sway of a number of Muslim-Turkic rulers who, at the start of the 13th century, founded the series of dynasties known to history as the Delhi Sultanate. For three centuries these sultans expanded their territory, which led to a dramatic rise in the number of fortifications throughout the subcontinent. This period is the defining age of the Indian castle and the combined influence of the Islamic and Hindu architectural tradition lends these fortifications a unique style. This book covers all the major sites of the period including the fabled seven medieval cities on the site of the present-day city of Delhi.
