Shari'ah and Common Law - Adnan Trakic 2022-10-24

Harmonisation of law, a term that refers to the bringing together of two different legal traditions, has developed a negative connotation when considered in the context of Shari'ah and common law. Harmonisation began to be looked at as an attempt by one legal system to impose its values on the other. A major reason for that is the lack of understanding of the scope to which these two legal traditions converge. One of the principal findings of this book is that Shari'ah and common law have many more commonalities than differences. As a result, the need for harmonisation between the two might have been exaggerated. The similarities do not need to be harmonised. Rather, they need to be acknowledged and appreciated. If the differences between Shari'ah and common law, which undoubtedly exist as evidenced in this book, are viewed with an appreciation of the commonalities, the ambiance to reconcile the differences would be more conducive to the harmonisation process. This book is intended to help readers better understand Shari'ah and common law and aid harmonisation efforts when the need arises.

Raising Capital on Şukūk Markets - Salim Al-Ali 2019-05-10

Şukūk markets have grown significantly worldwide since their emergence— in Islamic jurisdictions as well as conventional jurisdictions including the US, the UK, Germany, China, France and Singapore. The practices of şukūk markets, however, have come under close scrutiny. The legal and regulatory risks arising from the existing general legal environment and their impact on those investing and trading in şukūk markets has not received adequate attention. The topic of şukūk has been subject to extensive research and academic discussion from

different perspectives, but the existing literature has not adequately addressed the issues associated with these markets. This book examines the contemporary issues encountered in the foundation and operation of şukūk markets by providing an in-depth discussion of the issues facing şukūk markets from legal and regulatory perspectives and focusing attention on how soundness can be ensured in the wider context. These issues go to the heart of what the şukūk market is really about, as recent debate has recognised in şukūk the replication of conventional bonds in ways that are considered unsatisfactory from an Islamic law point of view.

Civil Jurisdiction and Judgments - Adrian Briggs 2021-04-27

Now in a fully updated seventh edition, this book remains an established treatise in the field of civil jurisdiction and judgments. It aims to make a full and complete statement of English law on civil jurisdiction and the effect of foreign judgments against the backdrop of significant uncertainty about the consequence of Brexit on the law of civil jurisdiction and judgments. The book looks in detail at: the law after the Brussels Regulation has ceased to operate as part of English law; the substance of the Lugano Convention, which the government hopes to join; the incorporation of the 2005 Hague Convention on Choice of Court Agreements into English law, and developments in the common law rules of jurisdiction, injunctions, and foreign judgments. This text aims to be an authoritative and comprehensive reference for all legal practitioners working in commercial law across jurisdictions as well as the judiciary.

6th International Finance Conference on Financial Crisis and Governance - Mondher Bellalah 2011-08-08

Financial markets, the banking system, and the real estate, commodity and energy markets have, since 2007, been experiencing higher integration, more volatility and have undergone several shocks. More coordination is needed between G20 and market authorities. Regulators, banking supervision agencies and politicians are worried about economic growth and financial crisis. This book covers seven aspects related to financial economic issues, along with some connected topics. The first covers risk assessment, corporate governance and value creation through an appropriate risk management system. The second covers international investments, market correlation, institutional holdings and market reactions during crisis. The third part is devoted to empirical and quantitative analysis of the observed economics and finance issues. The fourth part is devoted to the role of debt in financial crisis and its impact on financial markets and the world economy. The fifth part is devoted to debt policy, free cash flows and the structure of governance. The sixth part deals with management control and the importance of communication. The last part covers Islamic finance as an alternative to conventional finance for the debt solution, the importance of the energy sector and the role of financial innovations.

Islamic Finance in the Financial Markets of Europe, Asia and America - Faiza Ismail 2022-08-30

Among international financial centres (IFCs), London is known as the 'Western hub of Islamic Finance', on account of its well-developed legal infrastructure. However, Brexit has threatened London's status and consequently, the financial services industry is moving to Dublin to continue operating in the Euro region. Similarly, Islamic finance (IF) service providers in the UK are also looking to Dublin for expansion of this niche area in euro member states. This is the first book to be written about Islamic finance operations in the Eurozone. The book offers an in-depth description of International Financial Centres and the growth of Islamic Finance, compares the growth of Islamic finance in London, Dubai and Kuala Lumpur, outlines the implications of Brexit for financial service providers in London in general and Islamic investors in particular

and also presents a case study of Ireland to establish the latter as the most appropriate country to promote IF in the Eurozone. The time is particularly right for a book exploring the potential of Ireland to emerge as a Eurozone hub of Islamic finance, as a result of Britain's exit from Europe. The book will cater to the needs of readers studying Islamic finance (IF) in the disciplines of economics, business, law, and religion. A secondary market includes practitioners, such as policymakers, lawyers, fund managers, accountants, regulators and international investors, who will be interested in exploring the benefits that the UK and Ireland have to offer the Islamic finance industry.

Blockchain, Fintech, and Islamic Finance - Hazik Mohamed 2018-12-17

While creating new forms (Shari'ah-compliant standards) to operationalize Islamic values and ethics into the current conventional economic system and banking products is crucial to sustain the Islamic economy as it is today, we also need to develop new strategies to cope with the next economic evolution. The digital revolution in financial services is under way, and digital disruption has the potential to shrink the role and relevance of today's banks, while simultaneously creating better, faster, cheaper services that will be an essential part of everyday life. This forward-looking book discusses the crucial innovation, structural and institutional development for financial technologies (fintech) in Islamic finance. The authors explain concepts in fintech and blockchain technology and follow through with their applications, challenges and evolving nature. The book provides insights into technology which will enable and enhance actual prescribed Islamic behaviors in modern economic transactions. Case studies highlight how to cope with modern transactional behavior with the advent of global online/mobile markets, shorter attention spans, and impersonal trade exchange.

Capitalism and Class in the Gulf Arab States - Adam Hanieh 2016-04-30

Corporate Finance and Investment - Richard Pike 2018-08-14

Taking an international perspective to corporate finance, the latest edition of Corporate Finance and Investment is a highly-regarded and established text for students who want to understand the principles of corporate finance and develop the key tools to apply it. The ninth edition has been revised to include topical issues in valuation, working capital, capital structure, the dividend decision, Islamic finance, risk and risk management, and behavioural finance. With its focus on strategic issues of finance in a business setting, this text uses the latest financial and accounting data, articles and research papers to effectively demonstrate how, and to what extent, the theory can be applied to practical issues in corporate finance.

La finance islamique à la française - Jean-Paul Laramée 2008

Pourquoi la France et son industrie financière ont-elles près de dix ans de retard, par rapport au développement de la finance islamique en Angleterre ? Pourquoi la France, qui a toutes les capacités juridiques et institutionnelles, toutes les ressources humaines nécessaires, tarde-t-elle à mettre en œuvre une finance islamique à la française, compétitive et dynamique, qui serait un formidable moteur pour notre industrie financière et pour l'ensemble de notre économie ? Pourquoi des paradoxes persistants empêchent-ils de penser, en France, la finance islamique comme une opportunité nationale davantage que comme une

menace ? Pourquoi le système financier et bancaire français n'offre-t-il toujours pas aux Musulmans de France, qui constituent la plus grande communauté islamique du monde occidental, l'accès à une gamme de produits et services alternatifs en phase avec leur sensibilité religieuse, qui serait aussi susceptible d'apporter à tous les Français une réponse dynamique et éthique à leurs problèmes financiers, de crédit, d'investissement ?

Icarus - Brian Brivati 2021-07-20

In 2017, Arif Naqvi and The Abraaj Group were on the brink of changing the world of private equity. Abraaj was a pioneer of impact investing, it had helped transform communities and companies across the world by financing healthcare, education and clean energy projects, and it was about to close a new fund worth \$6 billion. But then it all came crashing down. On 10 April 2019, after landing at London Heathrow, Naqvi was arrested on fraud charges. He is facing extradition to the United States and a prison sentence of up to 291 years if he is found guilty. The dominant media narrative has painted Naqvi as a thief and fraudster, the key man in an organised criminal conspiracy. But in this explosive book, which is based on extensive research and interviews, Brian Brivati investigates how things are not quite what they seem. Icarus explores how Abraaj found itself caught in the middle of a geopolitical war between the United States and China, and when it would not back down economic hitmen tried to wipe it out.

Imperativeness in Private International Law - Giovanni Zarra 2022

This book centres on the ways in which the concept of imperativeness has found expression in private international law (PIL) and discusses "imperative norms", and "imperativeness" as their intrinsic quality, examining the rules or principles that protect fundamental interests and/or the values of a state so as to require their application at any cost and without exceptions. Discussing imperative norms in PIL means referring to international public policy and overriding mandatory rules: in this book the origins, content, scope and effects of both these forms of imperativeness are analyzed in depth. This is a subject deserving further study, considering that very divergent opinions are still emerging within academia and case law regarding the differences between international public policy and overriding mandatory rules as well as with regard to their way of functioning. By using an approach mainly based on an analysis of the case law of the CJEU and of the courts of the various European countries, the book delves into the origin of imperativeness since Roman law, explains how imperative norms have evolved in the different conceptions of private international law, and clarifies the foundation of the differences between international public policy and overriding mandatory rules and how these concepts are used in EU Regulations on PIL (and in the practice related to these sources of law). Finally, the work discusses the influence of EU and public international law sources on the concept of imperativeness within the legal systems of European countries and whether a minimum content of imperativeness - mainly aimed at ensuring the protection of fundamental human rights in transnational relationships - between these countries has emerged. The book will prove an essential tool for academics with an interest in the analysis of these general concepts and practitioners having to deal with the functioning of imperative norms in litigation cases and in the drafting of international contracts. Giovanni Zarra is Assistant professor of international law and private international law and transnational litigation in the Department of Law of the Federico II University of Naples.

Fintech in Islamic Finance - Umar A. Oseni 2019-06-26

Featuring high-level analysis of Islamic law, this book examines fintech in Islamic finance from both theoretical and empirical perspectives. Whilst building on existing approaches, it also discusses the current application of fintech in promoting financial inclusion through innovative solutions in Muslim-majority countries, identifying future directions for policy-makers. With original chapters written by prominent academics,

senior lawyers and practitioners in the global Islamic finance industry, this book serves as the first standalone pioneering reference work on fintech in Islamic finance. It also, for the first time, examines the position of Islamic law on cryptocurrencies, such as bitcoin. Besides the conceptual analysis of the Shari'ah and legal aspects of fintech in Islamic finance, this book provides relevant case studies showing current and potential developments in the application of fintech in various sectors ranging from crowdfunding and smart contracts, to Online Dispute Resolution, Investment Account Platform and identity verification in the KYC process. Setting the agenda for researchers in the field, Fintech in Islamic Finance will be useful to students and scholars of Islamic finance and financial technology.

The Energy Year Abu Dhabi 2021 - The Energy Year 2021-08-04 "Covid-19's impact has been the acceleration of the energy transition worldwide." Francesco La Camera, Director-General, IRENA The Energy Year Abu Dhabi 2021 has been conceived and developed as a critical tool for understanding the successful energy transition taking place in the emirate of Abu Dhabi and, by extension, the wider Middle East. It is no surprise that energy industry leaders worldwide are looking to the leadership of the UAE as it pursues the long-term goal of a sustainable energy future via ambitious investments and development programmes in clean energy sources such as nuclear and solar energy. "Even in the most drastic scenario in terms of demand, we will still need oil. For us the energy transition is about combining, in the smartest way, all types of technologies to achieve an affordable, reliable and cleaner energy for all." Christophe Sassolas, UAE Country Chair, TotalEnergies The Energy Year Abu Dhabi 2021 showcases the progress made by all key industry

players, both public and private, towards the ambitious UAE Energy Strategy 2050. The report features not only the most relevant oil and gas upstream and downstream projects, but the critical projects enabling the energy transition in the country such as the Barakah Nuclear Energy Plant, Noor Abu Dhabi Solar PV Plant, the upcoming Al Dhafra Solar PV Project and many others. This tenth edition of The Energy Year's Abu Dhabi series provides insight to potential investors on the government's efforts to push the energy industry forwards, providing a clear picture of the UAE's opportunities at a time when gas is becoming the key enabler of the energy transition.

Fi nanci al and Accounti ng Pri nci pl es i n Isl ami c Fi nanci ng - Safar Alam 2019-05-10

This book provides an original account detailing the origins and components of a faith-based accounting system that was founded around 629 CE. By examining the historical development that the accounting systems underwent within the context of faith-based rules and values, the book explains what is meant by the term "faith-based accounting", together with a discussion of its characteristics in relation to various product structures and the underlying Islamic finance principles. It provides important theoretical and practical contributions by explaining accounting as a value-based science rather than a value-free object or abstract. This book explores the way in which religious rules act as a directive for accounting and auditing practices in IFIs. Through which the concept of money and digital currency within the theory of money and how it is enacted in a faith-based context, amid differences of opinions among its actors, is examined. This is an important foundation to explain Islamic accounting and includes how this outcome would shape the faith-based view regarding the new phenomenon of digital currency (DC). Also featured is the concept of paper money within the theory of money and how it is enacted in a faith-based legal framework by identifying two core concepts of today's Fiat money as being a single genus or multi-genera money. This book is not merely an academic work, nor is it a pure practitioner guide; rather, it is a robust work that combines both. It marries rigorous academic research and theories with practical industry experiences. The book provides a clear and concise guide to accounting in Islamic economics and finance and how Islamic financial institutions could meet the applicable faith-based rules in their accounting practices.

Great Debates in Contract Law - Jonathan Morgan 2020-04-02

This textbook is an engaging introduction to the more advanced writings on contract law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. This edition has been extensively rewritten to include new cases and scholarship throughout. New sections include 'no oral modification' clauses, substantive fairness, regulation of standard-form contracts, and remoteness of damage in contract. An excellent book for students of contract law who wish to know more, the aim of the book is not to present a complete overview of theoretical issues in contract law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. New to this Edition: - Extensively rewritten to include new cases and scholarship throughout. - New sections and debates include 'no oral modification' clauses, substantive fairness, regulation of standard-form contracts, and remoteness of damage in contract.

European Private International Law - Geert van Calster 2021-01-14 This classic textbook provides a thorough overview of European private international law. It is essential reading for private international law students who need to study the European perspective in order to fully get to grips the subject. Opening with foundational questions, it clearly explains the subject's central tenets: the Brussels I, Rome I and Rome II Regulations (jurisdiction, applicable law for contracts and tort). Additional chapters explore the Succession Regulation, private international law and insolvency, freedom of establishment, and the impact of PIL on corporate social responsibility. The new edition includes a new chapter on the Hague instruments and an opening discussion on the impact of Brexit. Drawing on the author's rich experience, the new edition retains the book's hallmarks of insight and clarity of expression ensuring it maintains its position as the leading textbook in the field.

The Report: Dubai 2018 -

Dubai has continued to meet its targets in becoming the global capital of Islamic finance, nearly doubling the number of sukuk (Islamic bonds) listings on its exchanges since 2017. Furthermore, eased policy restrictions to encourage foreign investment and the 2019 budget's continued commitment to infrastructure development ahead of Expo 2020 are expected to continue driving economic activity. As one of the most diversified economies in the region, Dubai continues to present growth opportunities in various sectors including tourism, logistics, manufacturing and education. Although the emirate has benefitted from its proximity to oil and gas fields, Dubai is right at the forefront of the

emerging cleaner energy world, and developing and promoting renewable technologies, including solar energy and electric vehicles.

Project Financing: Financial Instruments And Risk Management -

Carmel De Nahlik 2021-05-05

The book describes the different tools and techniques available to anyone who is engaged in providing funding or advice to a project. Project finance is ultimately about applying three basic principles to a funding situation and from these three, all the other ideas flow including contracts. First, there needs to be a cash flow coming from the project that is capable of being captured by finance providers. Second, there needs to be a group of assets that can be segregated and contained by making sure they cannot be taken away by other parties and thirdly there needs to be a risk envelope that is well understood and managed dynamically during the project's life. To do this, a network of contracts must exist to support the rights of the different stakeholders and their legal claims on the project. In this book the authors examine all of these aspects and provide some examples/mini-cases of project structures and approaches. The book begins and ends with a longer case study of two projects that were standalone examples of project financing and controversial for different reasons at the time of their fundraising.
