World Transformation Jawara D. King 2007-06

"Courage on Bataan and Beyond" is a comprehensive story about Abel F. Ortega's life during the Bataan Death March and Japanese imprisonment written by his son. Abel will take the reader with him from his childhood days when he would sit in a rocking chair and dream about the Far East to defending the Bataan Peninsula in a last ditch effort to keep the Japanese from taking the Philippines. Abel narrates how his family's prayers and his faith in God helped him to survive the infamous Bataan Death March, three-and-a-half years as a POW and two Hell Ship Voyages. This book will evoke both laughter and tears as one follows Abel from captivity to liberation. In his three-and-a-half years as a POW, he endured near starvation, hard labor, torture and the indescribable

and inhumane cruelty from his captors before being set free August 15th, 1945. There were very few POW's who survived the Japanese brutality of Bataan and their following captivity, and of these, not many are still with us. Today at 85, Abel feels his story needs to be told so that the brave soldiers of Bataan will not be forgotten once again.

The Truth Agenda- Andy Thomas 2014-12-10

The Truth Agenda explores some of the most famous unexplained mysteries and global cover-ups of recent history. What is the truth about UFOs, pyramids, religious apparitions, psychic phenomena, visions of the future and ancient prophecies, and what is their connection to famous conspiracy theories concerning the Moon landings, 9/11, the New World Order, and claims that the planet is secretly run by a powerful ruling elite? Leading mysteries researcher Andy Thomas pulls the many threads together in an accessible, stimulating and credible overview which suggests that our world may be very different from the picture presented by the establishment. The Truth Agenda shows how we can avoid control manipulations and help to create a more positive future. Why do so many people believe in conspiracy theories, and what is the evidence to support them? What is the basis for the wide belief that we are now in a 'New Era' of massive change and consciousness shift? Why is there such

huge but officially undeclared interest in paranormal phenomena from authorities and religions? How does all this tie together and explain the agendas of control and surveillance in the West, and what can we do?

[The Greatest Lie on Earth](#) - Edward Hendrie 2016-01-17

This book reveals the mother of all conspiracies. It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth. The most universally accepted scientific belief today is that the earth is a globe, spinning on its axis at a speed of approximately 1,000 miles per hour at the equator, while at the same time it is orbiting the sun at approximately 66,600 miles per hour. All of this is happening as the sun, in turn, is supposed to be hurtling through the Milky Way galaxy at approximately 500,000 miles per hour. The Milky Way galaxy, itself, is alleged to be racing through space at a speed ranging from 300,000 to 1,340,000 miles per hour. What most people are not told is that the purported spinning, orbiting, and speeding through space has never been proven. In fact, every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary. Yet, textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe. Christian schools have been hoodwinked into teaching heliocentrism, despite the clear teaching in the bible that the earth is not a sphere and does not move. This book reveals the evil forces behind the heliocentric deception, and why scientists and the Christian churches have gone along with it.

[Alien Intelligence and the Pathway to Mars](#) - Mary Bennett 2021-05-04

- Details how exploratory probes sent to Mars in the 1970s triggered a plethora of anomalous events, particularly crop circles (glyphs), and how these events are messages from ET intelligence to help us send a human mission to Mars
- Reveals how the anomalous Cydonia region of Mars fits the Golden Ratio Spiral and looks at links between Martian formations and Earth's ancient sites
- Illustrated throughout with color photographs, maps, and diagrams

In this full-color study based on 25 years of research, Mary Bennett explores the ancient and modern connections between Mars and Earth as well as how extraterrestrial

intelligences are trying to assist us in constructing a viable spacecraft to take a human crew swiftly and safely to Mars. She details how exploratory probes sent to Mars in the 1970s triggered over three decades of anomalous yet scientifically validated events, including crop circles, or crop glyphs. She explains how these formations, along with related events, encode advanced engineering concepts that offer solutions to the fundamental problems presently hindering long-haul crewed spaceflight--whether to the Moon, Mars, or beyond. Looking at the red planet itself, the author reveals the scientifically verifiable evidence pointing to intelligent design on the surface of Mars, specifically in the Cydonia region, which fits the Golden Ratio Spiral. She looks at the covert links between the Martian formations and Earth's ancient sites, such as the Avebury landscape in England and the Giza Complex. She describes how agencies concerned with space travel have been quietly mirroring areas of Mars through construction projects here on Earth, revealing that many of the ET messages have already been partially decoded. Taking you from a complex on Mars to the Teotihuacán pyramids in Mexico, from phi ratios to the Pentagon, from the Great Pyramid to quantum computing, this exploration of the hidden influence of Mars shows that our abilities as a future space-faring species began in the ancient past and are now coming to fruition.

Conspiracies - Andy Thomas 2019-12-10

At any time in our history, you will find significant and seemingly indisputable events occurring, the kind that can change the course of our lives -- the assassination of President John F. Kennedy, the terrorist

attacks of 9/11. Yet for every one of them, somebody, somewhere will loudly dispute the 'official' account, doubting that the truth has been told. In today's environment, with trust in authorities at an all-time low, conspiracy theories have found a new currency, and websites and social networking ensure they receive a wider and more rapid spread than ever before. But how do we separate truth from imagination? Was Princess Diana murdered, as many people think, despite all the official denials? Did NASA really go to the Moon, when anomalies in the photographic record suggest otherwise? Could 9/11 really have been set up by agencies within the USA itself? The Kindle edition includes an update on all the conspiracy theories that have emerged in the wake of the Coronavirus pandemic. The author opens the conspiracy casebook by examining the mindset of those who believe in conspiracies, and considers whether the dismissive attitude towards them has been fair. Part Two looks into history to establish that conspiracies do occur, credibility should therefore be given to belief in some of the alleged plots and cover-ups of today. This leads into a well-argued examination of some of the most popular conspiracies of our times, including theories over assassinations, UFO cover-ups, and widely voiced concerns over 9/11 and the 'New World Order'. Part Three draws the conclusion that while not all conspiracy theories can be proven, they do at least draw attention to paths not to take, and can be valuable in helping to create a better world where new trust and hope can be forged. Are we living in a world of control, of oppression, of habitual deception? Is this really how things are, or simply human nature massively distorted through a dark lens? The truth probably lies somewhere in the middle.

The Archive Effect - Jaimie Baron 2013-12-13

The Archive Effect: Found Footage and the Audiovisual Experience of History examines the problems of representation inherent in the appropriation of archival film and video footage for historical purposes. Baron analyses the way in which the meanings of archival documents are modified when they are placed in new texts and contexts, constructing the viewer's experience of and relationship to the past they portray. Rethinking the notion of the archival document in terms of its reception

and the spectatorial experiences it generates, she explores the 'archive effect' as it is produced across the genres of documentary, mockumentary, experimental, and fiction films. This engaging work discusses how, for better or for worse, the archive effect is mobilized to create new histories, alternative histories, and misreadings of history. The book covers a multitude of contemporary cultural artefacts including fiction films like Zelig, Forrest Gump and JFK, mockumentaries such as The Blair Witch Project and Forgotten Silver, documentaries like Standard Operating Procedure and Grizzly Man, and videogames like Call of Duty: World at War. In addition, she examines the works of many experimental filmmakers including those of Péter Forgács, Adele Horne, Bill Morrison, Cheryl Dunye, and Natalie Bookchin.

Ken's Moon - Ralph Kennedy Johnston, Sr. 2016-07-09

The story of Ken Johnston's archive of historic NASA photos and his decision to go public with evidence of the manipulation of those images from the Apollo moon missions is the stuff of legend in the alternative history community. The basic story is that Ken discovered a disturbing situation in the secret halls of our hallowed space agency. At the Lunar Receiving Laboratory, Ken was the Director of the Data and Photo Control Department, responsible for all the photographs and data generated by the contributing scientists from around the world. He also produced and edited the NASA Lunar Sample Information Catalog for each of the Lunar landing missions. One day, Ken enters the room where he sees strange activity. Given that he feels a sense of responsibility for the integrity of the NASA collection, he inquires as to what is going on. He spoke with several people who called themselves "strippers" because they were stripping out details in lunar images that might be hard to explain. That day, they were at the task of painting out the stars in particular lunar images. The unusually lame excuse given was that the stars in the lunar sky would "confuse people." This was alarming for Ken to discover. He found out also that "smudging out" anomalies on images was commonplace. Ken's story could be counted as a minority report in NASA's branded panorama of American heroics. The US Government and the American people had allocated significant financial and other

resources toward the goal of reaching the moon at the behest of our young President Kennedy. The idea was to see what was there, to share that information to the world, and elevate the knowledge of mankind. To discover that the artifacts of that effort might have been manipulated was highly disappointing. It is this scenario being asserted by Ken Johnston, the very human being, who at one time, had watch over the chain of evidence.

The Signal and the Noise - Nate Silver 2015-02-03

UPDATED FOR 2020 WITH A NEW PREFACE BY NATE SILVER "One of the more momentous books of the decade." —The New York Times Book Review Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work, Silver examines the world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the "prediction paradox": The more humility we have about our ability to make predictions, the more successful we can be in planning for the future. In keeping with his own aim to seek truth from data, Silver visits the most successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an absolute

sense that matters but how good it is relative to the competition. In other cases, prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from the noise. With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions, Nate Silver's insights are an essential read.

[Mysteries of Ancient South America](#) - Harold T. Wilkins 2000

The reprint of Wilkin's classic book on the megaliths and mysteries of South America. This book predates Wilkin's book Secret Cities of Old South America published in 1952. Mysteries of Ancient South America was first published in 1947 and is considered a classic book of its kind. With diagrams, photographs and maps, Wilkins digs into old manuscripts and books to bring us some truly amazing stories of South America: a bizarre subterranean tunnel system; lost cities in the remote border jungles of Brazil; legends of Atlantis in South America; cataclysmic changes that shaped South America; and other strange stories from one of the world's greatest researchers.

The Stargate Conspiracy - Lynn Picknett 2001-09-01

In recent years, alternative historians have gained remarkable insight into the mysteries of ancient Egypt—but according to Lynn Picknett and Clive Prince, their discoveries tie into a dangerous conspiracy nearly fifty years in the making. At the center of this conspiracy is a group of respected, powerful individuals who believe that the ancient Egyptian gods are really extraterrestrials who will soon return to earth. The conspirators have intimate and exclusive knowledge of this momentous second coming—but they insist on keeping it to themselves. What could be the purpose of such a conspiracy? Why are the conspirators so desperate to keep their information a secret? And what does it mean for mankind? In this riveting, well-researched book, Picknett and Price offer compelling evidence that the conspiracy exists—and expose the insidious

motivations of the individuals and organizations behind it...

Two-thirds - David P. Myers 1999-10-01

Although Two-Thirds is in part science-based, drawing on physics and astronomy, it is also deeply philosophical in its exegesis of ideas. This book demonstrates how the secrets of our ancient structures such as the Great Pyramids in Egypt, the city of Teotihuacán in Mexico and Stonehenge in England, hold the key to the development of new energy and propulsion sources for the next millennium. Two-Thirds contains much that is not even recognised by science today, but which can be verified. We learn for example that the speed of light is not constant -- it moves at three different speeds throughout the universe. Age old mysteries are discussed ranging in topic as wide as the Moon's essential role in the creation of life on Earth, the significance of the 'Face' on Mars and the relevance of meditation.

Invisible Residents - Terence Sanderson 2005

This book is a groundbreaking contribution to the study of the UFO enigma, originally published over 30 years ago. In this book, Sanderson, a renowned zoologist with a keen interest in the paranormal, puts forward the curious theory that a "OINTS"-Other Intelligences-live under the Earth's oceans. This underwater, parallel, civilization may be twice as old as Homo sapiens, he proposes, and may have developed what we call space flight." Sanderson postulates that the OINTS are behind many UFO sightings as well as the mysterious disappearances of aircraft and ships in the Bermuda Triangle. What better place to have an impenetrable base than deep within the oceans of the planet? Yet, if UFOs, or at least some of them, are coming from beneath our oceans or lakes, does it necessarily mean that there is another civilization besides our own that is responsible? In fact, could it be that since WWII a number of underwater UFO bases have been constructed by the very human governments of our planet? Whatever their source, Sanderson offers here an exhaustive study of USOs (Unidentified Submarine Objects) observed in nearly every part of the world. He presents many well-documented and exciting case studies of these unusual sightings; more.

THE APOLLO MOON MISSIONS - Randy Walsh 2019-09-18

As a child I was fascinated by the Apollo Moon missions. As I got older the fascination never waned, until, approximately 15 years ago, I happened to watch a documentary on one of the Apollo missions. In that they discussed the method used for circumnavigating the Moon during the missions. As a trained pilot I remember questioning that method of navigation and from there I started to doubt the validity of the Apollo Moon missions itself, which led to subsequent years of research. This book is culmination of that research and the reasons why I believe that the Apollo Moon missions were faked. Included in Part 1 of this series I discuss the following key factors: □ The Saturn V rocket and the fraudulent claims on the powerful F-1 engines, without which the Apollo landings could not have taken place. □ The non-existent capabilities of the Apollo guidance computer and the fact that this computer was a fake. □ The conflicting and contradictory information regarding the radiation intensity between the Earth and Moon which would have prevented any manned lunar landing. □ The inadequate shielding for both the Command Module and Lunar Module which would have ended any manned mission outside of Low Earth Orbit in a matter of minutes if not seconds. □ And the incomplete, missing and/or destroyed documents along with the thousands of missing reels of telemetry tapes containing data that has been 'lost' forever

The Giza Death Star Destroyed - Joseph P. Farrell 2005

Final volume in a trilogy, the first of which is the author's The Giza death star, and the second of which is his The Giza death star deployed.

Moon Hoax: Debunked! - Paolo Attivissimo 2013-10-13

A no-nonsense, fact-filled debunking of all the main "Moon hoax" conspiracy theories, collected in a single book. If you're an open-minded doubter, you'll find technically accurate but plain-English answers to your questions; if you're a space enthusiast or professional, you'll find a handy reference for dealing with the most obstinate hoax believers and for clarifying popular objections and misconceptions about the Moon landings. "Moon Hoax: Debunked!" is also an opportunity to rediscover and celebrate one of mankind's greatest voyages, which doesn't need

conspiracy theories to be a fascinating adventure. For example, did you know how close to failure each flight actually came? Did you know that pictures of Playmates were smuggled to the Moon to prank the astronauts? Or that there was a secret Soviet plan to land a Russian on the Moon before the US? Paolo Attivissimo is a British-Italian science journalist, lifelong space enthusiast and contributor to NASA's Apollo Lunar Surface Journal.

The Occult Connection - Ken Hudnall 2009

The Apollo Deception - Mitch Silver 2019-12-01

Gary Stephens is brought into a government-sanctioned cover-up when he discovers that his father helped fake the Apollo 11 moon landing in the 1960s. After China announce a space mission to place their own flag next to the one US astronauts planted during the Apollo 11 mission, few people bat an eyelid. Shortly after this statement Charlie Stephens, a 81-year-old former filmmaker, is murdered. The incident is made to look like an accident, but why? Going through his father's effects, Gary Stephens - a director of beer and yogurt ads - discovers seven cans of old 35mm film. Dated before the landing, they're identical to the footage NASA claims was shot by the Apollo 11 crew. The US flag is not and has never been in the Sea of Tranquility, and only Tricky Dick and a handful of others knew it. Why was the real nature of the Apollo 11 mission kept hidden? And what measures will be taken to keep the secret buried?

Somebody Else is on the Moon - George H. Leonard 1977

The Fastest Pen of the West [Part Two] - Albino Galuppini
2018-12-21

This is a biography of Bill Kaysing (1922-2005), author of the important book "We never went to the Moon". It tells the whole story of a writer with a very unusual ?alternative lifestyle.? After working for Rocketdyne, Kaysing became a whistleblower regarding the Apollo Space Programme. He completely changed his lifestyle ? to become a ?nonconformist? and began to live a life which many free-thinkers might envy. He lived outside the constraints of the society that most of the rest of us live in. While

living in California, he became quite infamous - all over the world as the "father" of the controversial theory of the Moon landing hoax. His extraordinary story is one that gives a fascinating glimpse into certain parts of American society and one that will ?shake the conscience? of any reader who is not aware of the machinations of US corporations and government.

Dark Moon - Mary Bennett 2001

As the dust settles on the 30th anniversary of Apollo 11, information is now coming to light that throws into serious doubt the authenticity of the Apollo record. New evidence clearly suggests that NASA hoaxed the photographs taken on the surface of the Moon. These disturbing findings are supported by detailed analysis of the Apollo images by professional photographer David S Percy ARPS and physicist David Groves PhD. The numerous inconsistencies clearly visible in the Apollo photographic account are quite irrefutable. Recent research indicates that the errors evidenced in DARK MOON were deliberately planted by individuals determined to leave clues to the faking in which they were unwillingly involved. DARK MOON is the answer to the question-did the Apollo missions really land a man on the Moon and return him alive and well to Earth, or is the record incorrect?

The Free-energy Device Handbook - 1994

A large-format compilation of various patents, papers, descriptions and diagrams concerning free-energy devices and systems. The Free-Energy Device Handbook is a visual tool for experimenters and researchers into magnetic motors and other over-unity devices. With chapters on the Adams Motor, the Hans Coler Generator, cold fusion, superconductors, N machines, space-energy generators, Nikola Tesla, T. Townsend Brown, and the latest in free-energy devices. Packed with photos, technical diagrams, patents and fascinating information, this book belongs on every science shelf. With energy and profit being a major political reason for fighting various wars, free-energy devices, if ever allowed to be mass distributed to consumers, could change the world! True Stories of Space Exploration Conspiracies - Nick Redfern

2014-07-15

For many, space and its exploration are a source of constant wonder. When following space missions and learning about the information that's been gathered or gazing up at the stars and considering what lies beyond our atmosphere, our solar system, indeed, the very universe—the questions that arise are nearly endless. Now, consider the possibility that some of what has been learned in space has been kept from the public. Perhaps there is convincing evidence that we are not alone after all. Author Nick Redfern takes on these mysteries with a compelling page-turner that will have readers reconsidering what they thought they knew about space.

[The Apollo Deception](#) - Mitch Silver 2020-07-31

In 1969, Apollo 11 landed on the moon . . . didn't they? After China announce a space mission to place their own flag next to the one US astronauts planted during the Apollo 11 mission, few people bat an eyelid. Shortly after this statement Charlie Stephens, a 74-year-old former filmmaker, is murdered. The incident is made to look like an

accident, but why? Going through his father's effects, Gary Stephens discovers reels of 35mm celluloid showing the Apollo mission was faked - there's no US flag on the moon, and only a handful of people know it. For his own safety Gary is brought into Mission Dark Side, a government-sanctioned cover-up to send a crew to the moon to plant the flag before the Chinese reach it . . . but there are those out to sabotage the mission and cause the US a national embarrassment.

Through Astronaut Eyes - Jennifer K. Levasseur 2020-06-15

Featuring over seventy images from the heroic age of space exploration, *Through Astronaut Eyes* presents the story of how human daring along with technological ingenuity allowed people to see the Earth and stars as they never had before. Photographs from the Mercury, Gemini, and Apollo programs tell powerful and compelling stories that continue to have cultural resonance to this day, not just for what they revealed about the spaceflight experience, but also as products of a larger visual rhetoric of exploration. The photographs tell us as much about space and the astronauts who took them as their reception within an American culture undergoing radical change throughout the turbulent 1960s. This book explores the origins and impact of astronaut still photography from 1962 to 1972, the period when human spaceflight first captured the imagination of people around the world. Photographs taken during those three historic programs are much admired and reprinted, but rarely seriously studied. This book suggests astronaut photography is particularly relevant to American culture based on how easily the images were shared through reproduction and circulation in a very visually oriented society. Space photography's impact at the crossroads of cultural studies, the history of exploration and technology, and public memory illuminates its continuing importance to American identity.

The Flat-Earth Conspiracy - Eric Dubay 2014-11-09

Wolves in sheep's clothing have pulled the wool over our eyes. For almost 500 years, the masses have been thoroughly deceived by a cosmic fairy-tale of astronomical proportions. We have been taught a falsehood so gigantic and diabolical that it has blinded us from our own experience and common sense, from seeing the world and the universe as they truly are. Through pseudo-science books and programs, mass media and public education, universities and government propaganda, the world has been systematically brain-washed, slowly indoctrinated over centuries into the unquestioning belief of the greatest lie of all time. A multi-generational conspiracy has succeeded, in the minds of the masses,

to pick up the fixed Earth, shape it into a ball, spin it in circles, and throw it around the Sun! The greatest cover-up of all time, NASA and Freemasonry's biggest secret, is that we are living on a plane, not a planet, that Earth is the flat, stationary center of the universe.

Apollo 20. The Disclosure - Luca Scantamburlo 2010

Since April 2007, a whistleblower by the name of "retiredafb" has been shocking the general public with its disclosure: footages and comments posted on YouTube and Revver.com. He claims to be William Rutledge, and the Apollo 20 Commander for the USAF (August 1976). Luca Scantamburlo - ex journalist - has interviewed him and another YouTube user ("moonwalker1966delta") who claims to be a former NASA astronaut, and the Apollo 19 Commander (February 1976). Did these presumed secret joint US/USSR space missions take place indeed? The targets would have been some lunar anomalies, on the far side of the Moon. The opinion of the Author is this amazing story contains some kernels of truth, behind the controversial strategy of disclosure (video fakes and misleading data are present). In the book there are the reasons for his opinion, the chronology of his research (with his Web articles already published), the interviews with the two alleged Commanders, and some revelations never published before.

SS Brotherhood of the Bell - Joseph P. Farrell 2011-04-02

In 1945, a mysterious Nazi secret weapons project code-named "The Bell" left its underground bunker in lower Silesia, along with all its project documentation, and a four-star SS general named Hans Kammler. Taken aboard a massive six engine Junkers 390 ultra-long range aircraft, "The Bell," Kammler, and all project records disappeared completely, along with the gigantic aircraft. It is thought to have flown to America or Argentina. As a prelude to this disappearing act, the SS murdered most of the scientists and technicians involved with the project, a secret weapon that according to one German Nobel prize-winning physicist, was given a classification of "decisive for the war," a security classification higher than any other secret weapons project in the Third Reich, including its atomic bomb. What was "The Bell"? What new physics might the Nazis have discovered with it? How far did the Nazis

go after the war to protect the advanced energy technology that it represented? In *The SS Brotherhood of The Bell*, alternative science and history researcher Joseph P. Farrell reveals a range of exotic technologies the Nazis had researched, and challenges the conventional views of the end of World War Two, the Roswell incident, and the beginning of MAJIC-12, the government's alleged secret team of UFO investigators.

Anti-Gravity and the Unified Field - David Hatcher Childress 1990

Explored here is how gravity, electricity, and magnetism manifest from a unified field around us; why artificial gravity is possible; secrets of UFO propulsion; free energy; Nikola Tesla and anti gravity airships of the 20s and 30s; flying saucers as superconducting whirls of plasma; anti-mass generators; vortex propulsion; government cover-ups; gravitational pulse drive; spacecraft; and more.

Apollo's Warriors - Michael E. Haas 1998-05

Presenting a fascinating insider's view of U.S.A.F. special operations, this volume brings to life the critical contributions these forces have made to the exercise of air & space power. Focusing in particular on the period between the Korean War & the Indochina wars of 1950-1979, the accounts of numerous missions are profusely illustrated with photos & maps. Includes a discussion of AF operations in Europe during WWII, as well as profiles of Air Commandos who performed above & beyond the call of duty. Reflects on the need for financial & political support for restoration of the forces. Bibliography. Extensive photos & maps. Charts & tables.

Alien Intelligence and the Pathway to Mars - Mary Bennett 2021-05-04

A full-color exploration of the links between ancient monuments on Earth, formations on Mars, sacred geometry, crop glyphs, and advanced physics • Details how exploratory probes sent to Mars in the 1970s triggered a plethora of anomalous events, particularly crop circles (glyphs), and how these events are messages from ET intelligence to help us send a human mission to Mars • Reveals how the anomalous Cydonia region of Mars fits the Golden Ratio Spiral and looks at links between Martian formations and Earth's ancient sites • Illustrated throughout

with color photographs, maps, and diagrams In this full-color study based on 25 years of research, Mary Bennett explores the ancient and modern connections between Mars and Earth as well as how extraterrestrial intelligences are trying to assist us in constructing a viable spacecraft to take a human crew swiftly and safely to Mars. She details how exploratory probes sent to Mars in the 1970s triggered over three decades of anomalous yet scientifically validated events, including crop circles, or crop glyphs. She explains how these formations, along with related events, encode advanced engineering concepts that offer solutions to the fundamental problems presently hindering long-haul crewed spaceflight--whether to the Moon, Mars, or beyond. Looking at the red planet itself, the author reveals the scientifically verifiable evidence pointing to intelligent design on the surface of Mars, specifically in the Cydonia region, which fits the Golden Ratio Spiral. She looks at the covert links between the Martian formations and Earth's ancient sites, such as the Avebury landscape in England and the Giza Complex. She describes how agencies concerned with space travel have been quietly mirroring areas of Mars through construction projects here on Earth, revealing that many of the ET messages have already been partially decoded. Taking you from a complex on Mars to the Teotihuacán pyramids in Mexico, from phi ratios to the Pentagon, from the Great Pyramid to quantum computing, this exploration of the hidden influence of Mars shows that our abilities as a future space-faring species began in the ancient past and are now coming to fruition.

The Giza Death Star Deployed Joseph P. Farrell 2003

Physicist Joseph Farrell is amazing sequel to 'The Giza Death Star' which takes us from the Great Pyramid of Giza to the asteroid belt and the so-called Pyramids of Mars. Farrell expands on his thesis that the Great Pyramid was a chemical maser, designed as a weapon and eventually deployed with disastrous results to the solar system. The Great Pyramid as a weapon! Evidence of the Use of Weapons of Mass Destruction in Ancient Times! The Astonishing Technology used in the Giza Death Star! Evidence of a similar Death Star-Pyramid built on Mars! The mystery of the Asteroid Belt solved! Topics in this amazing book include: Exploding

Planets: The Movie, the Mirror, and the Model; Dating the Catastrophe and the Compound; A Brief History of the Exoteric and Esoteric Investigations of the Great Pyramid; No Machines, Please!; The Stargate Conspiracy; The Scalar Weapons; Message or Machine?; A Tesla Analysis of the Putative Physics and Engineering of the Giza Death Star; Cohering the Zero Point, Vacuum Energy, Flux: Synopsis of Scalar Physics and Paleophysics; Configuring the Scalar Pulse Wave; Inferred Applications in the Great Pyramid; Quantum Numerology, Feedback Loops and Tetrahedral Physics

Dark Mission Richard C. Hoagland 2009-09-01

The New York Times bestseller about the strange history of NASA and its cover-ups regarding its origins and extraterrestrial architecture found on the moon and Mars is even more interesting in its new edition. Authors Richard C. Hoagland and Mike Bara include a new chapter about the discoveries made by ex-Nazi scientist and NASA stalwart Wernher von Braun regarding what he termed "alternate gravitational solutions," or the rewriting of Newtonian physics into hyperdimensional spheres.

Moondust - Andrew Smith 2006-04-04

In 1999, Andrew Smith was interviewing Charlie Duke, astronaut and moon walker, for the Sunday Times. During the course of the interview, which took place at Duke's Texan home, the telephone rang and Charlie left the room to answer it. When he returned, some twenty minutes later, he seemed visibly upset. It seemed that he'd just heard that, the previous day, one of his fellow moon walkers, the astronaut Pete Conrad, had died. The more Charlie spoke the more Andrew realised that his grief was something more than the mere fact of losing a friend. 'Now there's only nine of us,' he said. Only nine. Which meant that, one day not long

from now, there would be none, and when that day came, no one on earth would have known the giddy thrill of gazing back at us from the surface of the moon. The thought shocked Andrew, and still does. Moondust is his attempt to understand why. The Apollo moon programme has been called the last optimistic act of the 20th Century. Over a strange three year period between 1969 and 1972, twelve men made the longest and most eccentric of all journeys, and all were indelibly marked by it. In Moondust Andrew sets out to interview all the remaining astronauts who walked on the moon, and to find out how their lives were changed for ever by what had happened. 'Where do you go after you've been to the moon?' In addition to this question that would prove hugely troubling to many of the returned astronauts, they also had to deal with the fantasies of faceless millions at their backs, for this was the first truly global media event. The walkers would forever be caught between the gravitational pull of the moon and the earth's collective dreaming.

Whistleblowing for Change Tatiana Bazzichelli 2021-11-30

The courageous acts of whistleblowing that inspired the world over the past few years have changed our perception of surveillance and control in today's information society. But what are the wider effects of whistleblowing as an act of dissent on politics, society, and the arts? How does it contribute to new courses of action, digital tools, and contents? This urgent intervention based on the work of Berlin's Disruption Network Lab examines this growing phenomenon, offering interdisciplinary pathways to empower the public by investigating whistleblowing as a developing political practice that has the ability to provoke change from within.
