Six Billion Shoppers - Porter Erisman

2017-09-26

An insightful, practical guide to e-commerce in emerging markets--and how to profit from their explosive boom. From China to India to Nigeria, e-commerce is entering a golden era in countries that were long left out of the e-commerce gold

rush experienced in the West. If the story of the first twenty years of e-commerce's growth was set in developed markets, the story of the next twenty years will be set in emerging ones. The rise of e-commerce in emerging markets is being driven by three major trends: widespread internet adoption, a rising middle class, and, most importantly, innovative new business models that serve the needs of local customers better than the models used by western e-commerce giants. *Six Billion Shoppers* takes readers on an exciting and colorful journey around the world to visit the next e-commerce mega markets and explore how a new e-commerce boom is opening opportunities for entrepreneurs and global brands alike. Traveling through Nigeria, China, India, Southeast Asia, and Latin America, Porter Erisman addresses e-commerce across these new markets and what it means for western brands. He argues that e-commerce in developing countries is revolutionary and will play a much larger role in

emerging markets than in the West. With e-commerce in emerging markets entering a rapid period of expansion, Six Billion Shoppers explains how to seize the massive opportunity created by emerging market consumers and provides practical advice on how to ride this new business trend.

Launch (Updated & Expanded Edition) - Jeff Walker 2021-07-27

From the creator of Product Launch Formula: A new edition of the #1 New York Times best-selling guide that's redefined online marketing and helped countless entrepreneurs make millions. The revised and updated edition of the #1 New York Times bestseller Launch will build your business - fast. Whether you've already got an online business or you're itching to start one, this is a recipe for getting more traction and a fast start. Think about it: What if you could

launch like Apple or the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? And you could do it no matter how humble your business or budget? Since 1996, Jeff Walker has been creating hugely successful online launches. After bootstrapping his first Internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented success. And once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Tiny, home-based businesses started doing launches that brought in tens of thousands, hundreds of thousands, and even millions of dollars. Whether you have an existing business or you're starting from scratch, this is how you start fast. This formula is how you engineer massive success. Now the question is this: Do you want to start slow, and fade away from there? Or are you ready for a launch that will change the future of your business and your life?

E-Business Fundamentals - Peter Eckersley 2003-05-29

This comprehensive textbook considers all of the key business, management and technical issues of e-Business, examining and explaining how technologies can help organizations in both the public and private sectors conduct business in new ways. After addressing the changing nature of the e-Economy and the impact of the dot.com 'bubble' of the late 1990s, Eckersley, Harris and Jackson go on to analyse key software developments and the impact these have had on organizational practices. They then outline the legal and ethical frameworks of e-Business, and consider how companies use various e-commerce tools to enter new markets. Finally, they trace the progress public sector

organizations have made in adopting e-Business practice. This is an accessible, jargon-free and focused textbook that offers readers both a technical and managerial overview of the issues surrounding e-Business. It uses illustrative cases and discussion questions to help students and managers in organizations not only to familiarize themselves with e-Business but also to equip themselves with the skills to challenge and analyze the changing business environment.
