*Abraham Lincoln* - Godfrey Rathbone Benson Baron Charnwood 1997-01-01  
As preserver of the Union and emancipator of the slaves, Lincoln occupies a unique niche in the pantheon of American leaders. People from around the world admire his eloquence as a spokesman for democracy and fighter for the oppressed. In this landmark biography, published fifty years after Lincoln's death, an English author recounted for his countrymen the remarkable story of Lincoln's life. Lord Charnwood's comprehensive biography, among the first major books about the sixteenth president, presents a sensitive and literate portrait, tracing Lincoln's rise from humble origins to the highest office in the land and recapturing the profound humanity of his character. From the grinding poverty of his boyhood in the backwoods of Kentucky and Indiana and his early struggles as a prairie lawyer, the author charts Lincoln's elevation to the Illinois legislature, Congress,

and the presidency, culminating in his role as commander in chief during the bloodiest struggles in American history. Beautifully written, this unabridged edition also offers profound historical insights into the factors contributing to the Civil War, including economic and political conditions, territorial expansion, foreign and domestic policies, and slavery. This splendid profile of an epic figure whose relevance endures and grows with the passage of time is essential reading for admirers of Lincoln, students and scholars of American history, and anyone who appreciates a well-written, engrossing biography. *Cow Demonstration* - Hugh G. Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for

the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

Stuart Gibbard 2003-10

This illustrated work covers the stories of five British engineering companies that produced successful ranges of agricultural, earthmoving or construction machinery. County, Doe, Chaseside, Muir-Hill, Matbro and Bray all made extensive use of the Ford tractor skid unit as a basis for their machines and they pioneered the development of the four-wheel drive agricultural tractor in Britain.

Stuart Gibbard gives details of all the main models and machines of these manufacturers. He chronicles the fortunes of the firms from the beginning of the 20th century to the present day and discusses many of the personalities involved.
