Practically Speaking - J. Dan Rothwell

2016-11-10

Widely praised for its conversational tone and clear advice, *Practically Speaking* is the public speaking textbook your students will actually read. Filled with engaging stories and examples, sound scholarship and recent research, and useful tips and tricks, *Practically Speaking* shows students how to get started, practice thinking critically, and ultimately develop their own voice.

Rhetorical Criticism - Jim A. Kuypers

2016-04-21

Now in its second edition, *Rhetorical Criticism: Perspectives in Action* presents a thorough, accessible, and well-grounded introduction to contemporary rhetorical criticism. Systematic chapters contributed by noted experts introduce the fundamental aspects of a perspective, provide students with an example to model when writing their own criticism, and address the

potentials and pitfalls of the approach. In addition to covering traditional modes of rhetorical criticism, the volume presents less commonly discussed rhetorical perspectives, exposing students to a wide cross-section of techniques.

Public Speaking - David Zarefsky 2017

For courses in Public Speaking. *Teach Readers Sound Strategies for Public Speaking Public Speaking: Strategies for Success* gives readers the tools they need to think critically, plan strategically, and speak effectively. By thinking analytically, organizing ideas, doing sound research, and properly assessing their audiences, readers learn how to successfully inform and persuade. In the process, they build necessary skills for many other areas of life. The Eighth Edition builds on the idea that public speaking is a strategic practice. It allows readers to recognize that public speaking is an art dictated by the dynamics of an audience. By learning a set of norms and expectations and

strategizing how to plan for any situation, readers are better able to achieve their public speaking goals. Students learn to prepare for any public speaking situation by assessing different strategies and developing habits of analysis and memory through examples, activities and sample speeches. Emphasis on underlying theory throughout helps readers understand how certain speakers and their audiences engage one another. Also available with MyCommunicationLab

An Introduction to Business Ethics - Joseph R. DesJardins 2023

"The overarching goal in the seventh edition of this text remains what it was for the first edition: "to provide a clear, concise, and reasonably comprehensive introductory survey of the ethical choices available to us in business." This book arose from the challenges encountered in my own teaching of business ethics. Over the years I

have taught business ethics in many settings and with many formats. I sometimes relied on an anthology of readings, other times I emphasized case studies"--

Speaking Professionally - Alan Jay Zaremba
2014-12-18

Updated with new and current examples throughout, this concise guide is a rich resource for anyone who wants to become more effective in speaking settings. It covers all the basics and identifies essential principles that will help readers to efficiently prepare, deliver, and evaluate presentations.

The Rhetorical Presidency - Jeffrey K. Tulis
2017-11-07

Modern presidents regularly appeal over the heads of Congress to the people at large to generate support for public policies. The Rhetorical Presidency makes the case that this development, born at the outset of the twentieth century, is the product of conscious political choices that fundamentally transformed the

presidency and the meaning of American governance. Now with a new foreword by Russell Muirhead and a new afterword by the author, this landmark work probes political pathologies and analyzes the dilemmas of presidential statecraft. Extending a tradition of American political writing that begins with *The Federalist* and continues with Woodrow Wilson's *Congressional Government*, *The Rhetorical Presidency* remains a pivotal work in its field.

Algebra and Trigonometry - Robert Blitzer
2003-02-01

This book presents the traditional content of Precalculus in a manner that answers the age-old question of "When will I ever use this?" Highlighting truly relevant applications, this book presents the material in an easy to teach from/easy to learn from approach. KEY TOPICS Chapter topics include equations, inequalities, and mathematical models; functions and graphs; polynomial and rational functions; exponential and logarithmic functions; trigonometric

functions; analytic trigonometry; systems of equations and inequalities; conic sections and analytic geometry; and sequences, induction, and probability. For individuals studying Precalculus.

Dialectic and Rhetoric - F.H. van Eemeren
2013-03-14

This volume discusses two distinct perspectives on the analysis of argumentative discourse: the dialectical and the rhetorical perspective. It intends to open a thorough discussion of the two approaches, their commonalities and differences, and the ways in which, in some combination or other, they can be used to further the development of sound analytic tools for dealing with argumentation.

Lincoln and Douglas - Allen C. Guelzo
2010-05-11

From the two-time winner of the prestigious Lincoln Prize, a stirring and surprising account of the debates that made Lincoln a national figure and defined the slavery issue that would

bring the country to war. In 1858, Abraham Lincoln was known as a successful Illinois lawyer who had achieved some prominence in state politics as a leader in the new Republican Party. Two years later, he was elected president and was on his way to becoming the greatest chief executive in American history. What carried this one-term congressman from obscurity to fame was the campaign he mounted for the United States Senate against the country's most formidable politician, Stephen A. Douglas, in the summer and fall of 1858. As this brilliant narrative by the prize-winning Lincoln scholar Allen Guelzo dramatizes, Lincoln would emerge a predominant national figure, the leader of his party, the man who would bear the burden of the national confrontation. Lincoln lost that Senate race to Douglas, though he came close to toppling the "Little Giant," whom almost everyone thought was unbeatable. Guelzo's Lincoln and Douglas brings alive their debates and this whole year of campaigns and

underscores their centrality in the greatest conflict in American history. The encounters between Lincoln and Douglas engage a key question in American political life: What is democracy's purpose? Is it to satisfy the desires of the majority? Or is it to achieve a just and moral public order? These were the real questions in 1858 that led to the Civil War. They remain questions for Americans today.

The Mindful Way to Study - Jake Gibbs
2013-05-25

The ability to pay attention is a key component of effective learning. Just think of all the times in your life when parents, teachers, bosses, and coaches have told you to pay attention to what you are doing. You would think that with all of the attention paid to paying attention, we would be pretty good at it. The problem is we're not, because most of us have never been taught how. Commonly adopted methods like forced concentration are actually counterproductive to learning and achieving our goals. In addition,

too much focus on future goals and rewards takes our attention away from what we need to be doing in order to achieve them. Luckily, there is another way, a better way: the mindful way. The Mindful Way To Study: Dancing With Your Books is a guide to help students, professionals, and other lifelong learners develop a better approach to their educational and career pursuits. By using mindfulness, or the practice of bringing full awareness to the present moment, the authors blend the latest research with entertaining stories and specific techniques to teach readers how to truly pay attention, and even learn to enjoy it.

A Speaker's Guidebook Dan O'Hair 2011-10-26
A Speaker's Guidebook is the best resource in the classroom, on the job, and in the community. Praised for connecting with students who use and keep it year after year, this tabbed, comb-bound text covers all the topics typically taught in the introductory course and is the easiest-to-use public speaking text available. In every

edition, hundreds of instructors have helped us focus on the fundamental challenges of the public speaking classroom. Improving on this tradition, the fifth edition does even more to address these challenges with stronger coverage of overcoming speech anxiety, organizing and outlining, and more. And as the realities of public speaking change, so does A Speaker's Guidebook; the new edition also focuses on presentational speaking in a digital world — from finding credible sources online to delivering presentations in a variety of mediated formats. Read the preface.

Confessional Crises and Cultural Politics in Twentieth-Century America - Dave Tell

2015-01-14

Confessional Crises and Cultural Politics in Twentieth-Century America revolutionizes how we think about confession and its ubiquitous place in American culture. It argues that the sheer act of labeling a text a confession has become one of the most powerful, and most

overlooked, forms of intervening in American cultural politics. In the twentieth century alone, the genre of confession has profoundly shaped (and been shaped by) six of America's most intractable cultural issues: sexuality, class, race, violence, religion, and democracy.

The Rhetoric of Religion - Kenneth Burke
1970-04

"But the point of Burke's work, and the significance of his achievement, is not that he points out that religion and language affect each other, for this has been said before, but that he proceeds to demonstrate how this is so by reference to a specific symbolic context. After a discussion 'On Words and The Word,' he analyses verbal action in St. Augustine's Confessions. He then discusses the first three chapters of Genesis, and ends with a brilliant and profound 'Prologue in Heaven,' an imaginary dialogue between the Lord and Satan in which he proposes that we begin our study of human motives with complex theories of

transcendence,' rather than with terminologies developed in the use of simplified laboratory equipment. . . . Burke now feels, after some forty years of search, that he has created a model of the symbolic act which breaks through the rigidities of the 'sacred-secular' dichotomy, and at the same time shows us how we get from secular and sacred realms of action over the bridge of language. . . . Religious systems are systems of action based on communication in society. They are great social dramas which are played out on earth before an ultimate audience, God. But where theology confronts the developed cosmological drama in the 'grand style,' that is, as a fully developed cosmological drama for its religious content, the 'logologer' can be further studied not directly as knowledge but as anecdotes that help reveal for us the quandaries of human governance." --Hugh Dalziel Duncan from *Critical Responses to Kenneth Burke, 1924 - 1966*, edited by William H. Rueckert (Minneapolis: University of

Minnesota Press, 1969).

The SAGE Handbook of Rhetorical Studies -

Andrea A. Lunsford 2008-10-29

The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship, synthesizing theories and practices across major areas of study in the field and pointing the way for future studies. Edited by Andrea A. Lunsford and Associate Editors Kirt H. Wilson and Rosa A. Eberly, the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field.

Lyndon Johnson, Vietnam, and the

Presidency - David Zarefsky 2021-08-16

Even those who remember hearing those words may not remember that they came at the very end of a 45-minute speech primarily concerning Vietnam. Three months into an already tumultuous year, in the aftermath of the Tet offensive and facing a deeply divided country,

President Lyndon Baines Johnson addressed the nation to announce new initiatives and appeal for public support. The speech of March 31, 1968 announced a bombing halt over much of North Vietnam, a limited troop increase rather than a major escalation, and his own decision to withdraw from the presidential race. Each of these decisions was unexpected, a major surprise that stunned the nation. In Lyndon Johnson, Vietnam, and the Presidency, political rhetoric scholar David Zarefsky examines the three key announcements and how they fit together in the speech. In particular, LBJ's announcement that he would not run for re-election gave the de-escalation measures more credibility because they could not be seen as political ploys. Zarefsky traces the development of the speech through eleven drafts, reflecting disagreements and doubts among the writers and advisers. In turn, he sets these efforts in the larger context of the Cold War and the impact of the Tet offensive. Drawing on archival sources

and reflecting rhetorical insights, this book illuminates one of the most consequential speeches of the 1960s. Even though the fighting in Vietnam would continue for several more years, the course of America's conduct in Vietnam was changed permanently by this speech.

Hot Topics Cool Heads - Clark D. Olson
2017-11

Strategic Maneuvering in Argumentative Discourse- Frans H. van Eemeren 2010
In "Strategic Maneuvering in Argumentative Discourse," Frans H. van Eemeren "brings together the dialectical and the rhetorical dimensions of argumentation by introducing the concept of strategic maneuvering. Strategic maneuvering refers to the arguer's continual efforts to reconcile aiming for effectiveness with being reasonable. It takes place in all stages of argumentative discourse and manifests itself simultaneously in the choices that are made

from the topical potential available at a particular stage, in adaptation to audience demand, and in the use of specific presentational devices. Strategic maneuvering derails when in the specific context in which the discourse takes place a rule for critical discussion has been violated, so that a fallacy has been committed. Van Eemeren makes clear that extending the pragma-dialectical approach to argumentation by taking account of strategic maneuvering leads to a richer and more precise method for analyzing and evaluating argumentative discourse."

How to Think Straight - Antony Flew

2010-10-05

Practical reasoning and clear thinking are essential for everyone if we are to make sense of the information we receive each day. Being able to quickly know the difference between valid and invalid arguments, the contradictory versus the contrary, vagueness and ambiguity, contradiction and self-contradiction, the truthful

and the fallacious, separates clear thinkers from the crowd. How to Think Straight lays the foundation for critical reasoning by showing many ways in which our thinking goes awry. Celebrated philosopher Antony Flew entertainingly instructs on the many and varied faults that occur in argument, the power of reason, how to challenge assertions and find evidence, and how not to be persuaded by half-truths. Flew also examines poor reasoning, and why we should be concerned with finding the truth. Lucid, terse, and sensible, with study questions and exercises to help along the way, this enlightening second edition will help you develop the skills necessary to argue and reason effectively by following a few simple, easy-to-remember directions.

Customers for Life - Carl Sewell 2009-07-01

In this completely revised and updated edition of the customer service classic, Carl Sewell enhances his time-tested advice with fresh ideas and new examples and explains how the

groundbreaking “Ten Commandments of Customer Service” apply to today’s world. Drawing on his incredible success in transforming his Dallas Cadillac dealership into the second largest in America, Carl Sewell revealed the secret of getting customers to return again and again in the original Customers for Life. A lively, down-to-earth narrative, it set the standard for customer service excellence and became a perennial bestseller. Building on that solid foundation, this expanded edition features five completely new chapters, as well as significant additions to the original material, based on the lessons Sewell has learned over the last ten years. Sewell focuses on the expectations and demands of contemporary consumers and employees, showing that businesses can remain committed to quality service in the fast-paced new millennium by sticking to his time-proven approach: Figure out what customers want and make sure they get it. His “Ten Commandants” provide the essential

guidelines, including:

- Underpromise, overdeliver: Never disappoint your customers by charging them more than they planned. Always beat your estimate or throw in an extra service free of charge.
- No complaints? Something’s wrong: If you never ask your customers what else they want, how are you going to give it to them?
- Measure everything: Telling your employees to do their best won’t work if you don’t know how they can improve.

[The Rhetoric of Social Movements](#) - Nathan Crick 2020-09-23

This collection provides an accessible yet rigorous survey of the rhetorical study of historical and contemporary social movements and promotes the study of relations between strategy, symbolic action, and social assemblage. Offering a comprehensive collection of the latest research in the field, *The Rhetoric of Social Movements: Networks, Power, and New Media* suggests a framework for the study of social movements grounded in a methodology of “slow

inquiry" and the interconnectedness of these imminent phenomena. Chapters address the rhetorical tactics that social movements use to gain attention and challenge power; the centrality of traditional and new media in social movements; the operations of power in movement organization, leadership, and local and global networking; and emerging contents and environments for social movements in the twenty-first century. Each chapter is framed by case studies (drawn from movements across the world, ranging from Black Lives Matter and Occupy to Greek anarchism and indigenous land protests) that ground conceptual characteristics of social movements in their continuously unfolding reality, furnishing readers with both practical and theoretical insights. The Rhetoric of Social Movements will be of interest to scholars and advanced students of rhetoric, communication, media studies, cultural studies, social protest and activism, and political science.

Strategic Public Speaking - David Zarefsky

2007

"Handbook for Public Speaking: " "Strategies for Success" David Zarefsky, "Northwestern University" An adaptation of "Public Speaking: Strategies for Success," 4/e, this handbook offers students a valuable, accessible reference tool to guide them as they learn how to develop and apply strategies to speaking situations they will encounter throughout their lives. David Zarefsky, one of today's leading scholars in speech communication, encourages students to think through and about the public speaking process. Zarefsky urges students to consider the diversity of audiences, occasions, and speakers and to choose a specific purpose, a relevant topic, and the appropriate material to make their speeches successful. Features Tabs divide the book into sections; each tab contains the list of chapters on the front of the tab and some key points from the chapter on the back of the tab. These tabs aid in the students navigation through the text and add to its aesthetic appeal.

The emphasis on strategic thinking throughout the text shows students that public speaking is about choices; they will learn that presenting is an art and not a science. Features to support this strategic emphasis include: Choose a Strategy, which presents case studies requiring students to decide how the skills and concepts in the text could be adapted to a concrete rhetorical situation. Applying Strategies, which feature helpful tips that guide students in utilizing what they have learned to develop their own public speaking skills. Strategies for Speaking to Diverse Audiences boxes, providing students with helpful information to prepare them for speaking to audiences from a variety of backgrounds. Full of examples and case studies, this text also draws on the underlying theory to enable students to develop a better understanding of the speech preparation process one that they can apply to the variety of speaking situations they will encounter throughout their lives. Complete coverage of the

first speech in Chapter 1 provides students early on with an overview of the public speaking process and simple guidelines for putting together their first speech. Praise for "Handbook for Public Speaking" This is a most complete and accessible text, emphasizing critical thinking and context and rhetorical situation at least as much as the mechanics of researching, designing, and presenting effective speeches. A good, complete, solid textbook. Required reading. Gary J. Richmond, "LaGuardia" "Community College of the City University of New York" "

Argumentation Theory: A Pragma-Dialectical Perspective - Frans H. van Eemeren 2018-07-27
The book offers a compact but comprehensive introductory overview of the crucial components of argumentation theory. In presenting this overview, argumentation is consistently approached from a pragma-dialectical

perspective by viewing it pragmatically as a goal-directed communicative activity and dialectically as part of a regulated critical exchange aimed at resolving a difference of opinion. As a result, the book also systematically explains how the constitutive parts of the pragma-dialectical theory of argumentation, which are discussed in a number of separate publications, hang together. The following crucial topics are discussed: (1) argumentation theory as a discipline; (2) the meta-theoretical principles of pragma-dialectics; (3) the model of a critical discussion aimed at resolving a difference of opinion; (4) fallacies as violations of a code of conduct for reasonable argumentative discourse; (5) descriptive research of argumentative reality; (6) analysis as theoretically-motivated reconstruction; (7) strategic manoeuvring aimed at combining achieving effectiveness with maintaining reasonableness; (8) the conventionalization of argumentative practices; (9) prototypical

argumentative patterns; (10) pragma-dialectics amidst other approaches. *Argumentation Theory: A Pragma-Dialectical Perspective* is clearly written and makes argumentation theory understandable to all scholars and advanced students interested in argumentation research. *An Introduction to Business Ethics* Joseph R. DesJardins 2011

Since its inception, *An Introduction to Business Ethics* by Joseph DesJardins has been a cutting-edge resource for the business ethics course. Desjardins' unique multidisciplinary approach offers critical analysis and integrates the perspective of philosophy with management, law, economics, and public policy, providing a clear, concise, yet reasonably comprehensive introductory survey of the ethical choices available to us in business.

Rhetorical Citizenship and Public Deliberation - Christian Kock 2015-06-29

Citizenship has long been a central topic among educators, philosophers, and political theorists.

Using the phrase “rhetorical citizenship” as a unifying perspective, *Rhetorical Citizenship and Public Deliberation* aims to develop an understanding of citizenship as a discursive phenomenon, arguing that discourse is not prefatory to real action but in many ways constitutive of civic engagement. To accomplish this, the book brings together, in a cross-disciplinary effort, contributions by scholars in fields that rarely intersect. For the most part, discussions of citizenship have focused on aspects that are central to the “liberal” tradition of social thought—that is, questions of the freedoms and rights of citizens and groups. This collection gives voice to a “republican” conception of citizenship. Seeing participation and debate as central to being a citizen, this tradition looks back to the Greek city-states and republican Rome. Citizenship, in this sense of the word, is rhetorical citizenship. Rhetoric is thus at the core of being a citizen. Aside from the editors, the contributors are John Adams,

Paula Cossart, Jonas Gabrielsen, Jette Barnholdt Hansen, Kasper Møller Hansen, Sine Nørholm Just, Ildikó Kaposi, William Keith, Bart van Klink, Marie Lund Klujeff, Manfred Kraus, Oliver W. Lembcke, Berit von der Lippe, James McDonald, Niels Møller Nielsen, Tatiana Tatarchevskiy, Italo Testa, Georgia Warnke, Kristian Wedberg, and Stephen West.

Argumentation and Debate - Austin J. Freeley
2013-01-01

Widely praised, *ARGUMENTATION AND DEBATE*, 13E, uses a clear, concise, and engaging presentation that makes even complex material easy for students to understand. The authors have adapted the text over the years to match changing practices in debate and teaching while preserving classical and conventional approaches to learning debate. This edition retains its rhetorical roots with a flexible tone open to a diverse array of debate styles that is appropriate in the contemporary context. It values the importance of inclusion

and sensitivity to differences of culture, gender, orientation, class and other factors as they impact communicative choices and argumentation. The authors have a preference for team topic evidence-based policy debate; however, the text strives to offer viable tools for a wide range of readers interested in improving their critical thinking for reasoned decision making. Peers, Pirates, and Persuasion John Logie
2006-01-30

John Logie examines the rhetoric of the ongoing debate over peer-to-peer technologies, in particular Napster and its successors. The Grokster case, he contends, has already produced the chilling effects that will stifle the innovative spirit at the heart of the Internet and networked communities.

Quantitative Literacy - Bruce Crauder 2018

Shunned - Graham Thornicroft 2006

People with mental illness commonly describe the stigma and discrimination they face as being worse than their main condition. Discrimination can pervade every part of their daily life - their personal life, working life, sense of citizenship, their ability to maintain even a basic standard of living. Though things have certainly improved in the past 50 years, discrimination against the mentally ill is still a major problem throughout the world. It can manifest itself in subtle ways, such as the terminology used to describe the person or their illness, or in more obvious ways - by the way the mentally ill might be treated and deprived of basic human rights. Should we just accept such discrimination as deeply rooted and resistant to change, or is this something that we can collectively change if we understand and commit ourselves to tackling the problem? Shunned presents clearly for a wide

readership information about the nature and severity of discrimination against people with mental illness and what can be done to reduce this. The book features many quotations from people with mental illness showing how this has affected their home, personal, social, and working life. After showing, both from personal accounts and from a thorough review of the literature, the nature of discrimination, the book sets out a clear manifesto for change. Written by a leading figure in mental health in a lively and accessible manner, the book presents a fascinating and humane portrayal of the problem of stigma and discrimination, and shows how we can work to reduce it.

The Practice of Argumentation - David Zarefsky 2019-09-19

Explores how we justify our beliefs - and try to influence those of others - both soundly and effectively.

Principles of Public Speaking - Kathleen M. German 2016-05-23

Balancing skills and theory, *Principles of Public Speaking* emphasizes orality, Internet technology, and critical thinking as it encourages the reader to see public speaking as a way to build community in today's diverse world. Within a framework that emphasizes speaker responsibility, critical thinking and listening, and cultural awareness, this classic book uses examples from college, workplace, political, and social communication to make the study of public speaking relevant, contemporary, and exciting. This brief but comprehensive book also offers the reader the latest in using technology in speechmaking, featuring a unique and exciting integrated text and technology learning system.

The Rhetorical Act: Thinking, Speaking and Writing Critically - Karlyn Kohrs Campbell 2014-02-28

THE RHETORICAL ACT: THINKING, SPEAKING, AND WRITING CRITICALLY, Fifth Edition, teaches liberal arts students how to craft and

critique rhetorical messages that influence, inviting and enabling them to become articulate rhetors and critics of the world around them. The new edition maintains a traditional humanistic approach to rhetoric, while extending the scope and relevance of the text. THE RHETORICAL ACT reaffirms the ancient Aristotelian and Ciceronian relationships between art and practice-one cannot master rhetorical skills without an understanding of the theory on which such skills are based. The text combines thorough coverage of rhetorical criticism, media literacy, and strategic public speaking, providing a solid grounding in essential concepts while helping students hone their skills in each area. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Rhetorical Argumentation - Christopher W. Tindale 2004-05-27

The study of argumentation has primarily

focused on logical and dialectical approaches, with minimal attention given to the rhetorical facets of argument. Rhetorical Argumentation: Principles of Theory and Practice approaches argumentation from a rhetorical point of view and demonstrates how logical and dialectical considerations depend on the rhetorical features of the argumentative situation. Throughout this text, author Christopher W. Tindale identifies how argumentation as a communicative practice can best be understood by its rhetorical features.

The Centrality of Style - Mike Duncan
2013-04-07

In The Centrality of Style, editors Mike Duncan and Star Medzerian Vanguri argue that style is a central concern of composition studies even as they demonstrate that some of the most compelling work in the area has emerged from the margins of the field.

Debating Women - Carly S. Woods 2018-10-01
Spanning a historical period that begins with women's exclusion from university debates and continues through their participation in coeducational intercollegiate competitions, Debating Women highlights the crucial role that debating organizations played as women sought to access the fruits of higher education in the United States and United Kingdom. Despite various obstacles, women transformed forests, parlors, dining rooms, ocean liners, classrooms, auditoriums, and prisons into vibrant spaces for ritual argument. There, they not only learned to speak eloquently and argue persuasively but also used debate to establish a legacy, explore difference, engage in intercultural encounter, and articulate themselves as citizens. These debaters engaged with the issues of the day, often performing, questioning, and occasionally refining norms of gender, race, class, and

nation. In tracing their involvement in an activity at the heart of civic culture, Woods demonstrates that debating women have much to teach us about the ongoing potential for debate to move arguments, ideas, and people to new spaces.

Rhetorical Style - Jeanne Fahnestock 2011-10-12
A comprehensive guide to the language of argument, Rhetorical Style offers a renewed appreciation of the persuasive power of the English language. Drawing on key texts from the rhetorical tradition, as well as on newer approaches from linguistics and literary stylistics, Fahnestock demonstrates how word choice, sentence form, and passage construction can combine to create effective spoken and written arguments. With examples from political speeches, non-fiction works, and newspaper reports, Rhetorical Style surveys the arguer's options at the word, sentence, interactive, and passage levels, and illustrates the enduring usefulness of rhetorical stylistics in analyzing

and constructing arguments.
