Based on the Weidenfeld Lectures author Bernhard Schlink delivered at Oxford University, "Guilt about the Past" is essential reading for anyone wanting to understand how events of the past can affect a nation's future. Rethinking Holocaust Film Reception - Stefanie Rauch 2020-12-10

Taking early 21st century Britain as a case study, Rethinking Holocaust Film Reception: A British Case Study presents an intervention into the scholarship on the representation of the Holocaust on film. Based on a study of audience responses to select films, Stefanie Rauch demonstrates that the reception of films about the Holocaust is a complex process that we cannot understand through textual analysis alone, but by also paying attention to individual reception processes. This book restores the agency of viewers and takes seriously their diverse responses to representations of the Holocaust. It demonstrates that viewers'

interpretative resources play an important role in film reception. Viewers regard Holocaust films as a separate genre that they encounter with a set of expectations. The author highlights the implications of Britain's lessons-focused approach to Holocaust education and commemoration and addresses debates around the supposed globalization of Holocaust memory by unpacking the peculiar Britishness of viewers' responses to films about the Holocaust. A sense of emotional connection or its absence to the Holocaust and its memory speaks to divisions along ethnic, generational, and national lines.

Fakes and Forgeries - Peter Knight 2004

The possibility that works of art and literature might be forged and that identity might be faked has haunted the cultural imagination for centuries. That spectre seems to have returned with a vengeance recently, with a series of celebrated hoaxes and scandals ranging from the Alan Sokal hoax article in *Social Text* to Benjamin Wilkomirski's (TM)'s 'faked' Holocaust memoir. But as well as creating anxiety, the possibility of 'faking it' has now been turned into entertainment. Traditionally these activities have been dismissed as dangerous and immoral, but more recently some scholars have begun to speculate, for example, that all forms of national identity rely on forged myths of origin. Recent cultural theory has likewise called into question traditional notions of authenticity and originality in both personal identity and in works of art. Despite critical pronouncements of the death of the author and the substitution of the simulacrum for the original, however, making a distinction between the genuine and the fake continues to play a major role in our everyday understanding and evaluation of culture, law and politics. Consider, for example, the fiasco surrounding the 'forged' Hitler diaries, law suits against auction houses for failing to detect forgeries in the art market, or the problem of plagiarism at universities. It still seems to matter that we can spot the difference, especially in the historical moment when we are capable of making copies that are indistinguishable 'perhaps even better than' the original. This collection of essays considers the moral, aesthetic and political questions that are raised by the long history and current prevalence of fakes and forgeries. The international team of contributors consider the issues thrown up by a wide range of examples, drawn from fields ranging from literature to art history. These case studies include little-known subjects such as Eddie Burrup, the Australian aboriginal artist who turned out to be an 81-year-old white woman, as well as new interpretations of familiar cases such as faked Holocaust memoirs. The strength of the collection is that it brings together not only a wide range of cultural examples of fakes and forgeries from different historical periods, but also offers a wide variety of theoretical takes that will form a useful introduction and casebook on this growing field of inquiry.

Seel enarbei t an Deut schl an 2016-08-09

The last decade has undoubtedly been the most controversial in the long literary career of Martin Walser. This volume presents a review of this career, going far beyond short-lived arguments to present an insightful overview of much of his work. It considers not only major aspects of his writing, covering both his literary beginnings and the most recent works, but also different, previously neglected features of his persona and his writing, namely his activity as a university teacher and his art criticism. In addition, fruitful comparisons are made with other writers, such as Proust, Grass and Uwe Johnson. At the same time, recent controversies are also considered with major attention being paid to Walser's public speeches and those works of fiction which have been seen by some as demanding the end of German self-recriminations over the Nazi past. This volume is unique in that much space is devoted to both sides of the argument. It will provide stimulating reading to all those interested in Germany and German literature.

After Representati on R. Clifton Spargo 2009-11-11

After Representation? explores one of the major issues in Holocaust studies—the intersection of memory and ethics in artistic expression, particularly within literature. As experts in the study of literature and culture,

the scholars in this collection examine the shifting cultural contexts for Holocaust representation and reveal how writers—whether they write as witnesses to the Holocaust or at an imaginative distance from the Nazi genocide—articulate the shadowy borderline between fact and fiction, between event and expression, and between the condition of life endured in atrocity and the hope of a meaningful existence. What imaginative literature brings to the study of the Holocaust is an ability to test the limits of language and its conventions. *After Representation?* moves beyond the suspicion of representation and explores the changing meaning of the Holocaust for different generations, audiences, and contexts.

On Their Own Terms - H Schmitz 2004-06-16

On Their Own Terms is a study of how post-1990 German literature reconfigures the legacy of National Socialism and the Holocaust. In five sections - Historisation, Perpetrators, Hitler-Youth Memories, War Memories and Victim Perspective - a number of key literary works such as Bernhard Schlink's *Der Vorleser*, Martin Walser's *Ein springender Brunnen*, Gunter Grass's *Im Krebsgang* and W. G. Sebald's *Austerlitz* are analysed. The literary texts are situated within the wider context of contemporary German debates on the issue, from the exhibition 'Crimes of the German Wehrmacht 1941-1945', to the Walser-Bubis-affair and the ensuing debate about representations of German suffering. One of the central concerns of this book is the literary configuration of German experience and the narrative strategies employed by the writers to validate it against or set it in context with a perspective of victim experience.

Der Vorleser - 2005

Ethics, Art, and Representations of the Holocaust - Simone Gigliotti 2013-11-22

In honor of Berel Lang's five decades of scholarly and philosophical contributions, the editors of *Ethics, Art and Representations of the Holocaust* invited seventeen eminent scholars from around the world to discuss Lang's impact on their own research and to reflect on how the Nazi genocide continues to resonate in contemporary debates about antisemitism, commemoration and poetic representations. Resisting what Alvin Rosenfeld warned as "the end of the Holocaust", the essays in this collection signal the Holocaust as an event without closure, of enduring resonance to new generations of scholars of genocide, Jewish studies, and philosophy.

Ghostwriting - Richard T. Gray 2017-11-16

Ghostwriting provides the first comprehensive analysis of the fictional prose narratives of one of contemporary Germany's most recognized authors, the émigré writer W. G. Sebald. Examining Sebald's well-known published texts in the context of largely unknown unpublished works, and informed by documents and information from Sebald's literary estate, this book offers a detailed portrait of his characteristic literary techniques and how they emerged and matured out of the practices and attitudes he represented in his profession as a literary scholar. The title "Ghostwriting" signals the convergence in Sebald's works of a set of diverse historical questions, philosophical views, and literary practices. Many historical ghosts haunt Sebald's narratives on the level of story. Moreover, Sebald's narrator plays the role of a ghostwriter in the profound sense that his stories fictionally re-enact the histories of obscure, but once-living individuals whose lives they revitalize, and whose fates are tied up with the most virulent historical conjunctures of the modern world. This study thus seeks to comprehend the constitutive elements of Sebald's "poetics of history," his implementation of literary tools for effective historical memorializing.

The Reader - Bernhard Schlink 2001-05-01

Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

German Text Crimes - Tom Cheesman 2013

German Text Crimes offers new perspectives on scandals and legal actions implicating writers of German literature since the 1950s. Topics range from literary echoes of the "Heidegger Affair" to recent incitements to murder businessmen (agents of American neo-liberal power) in works by Rolf Hochhuth and others. GDR songwriters' cat-and-mouse games with the Stasi; feminist debates on pornography, around works by Charlotte Roche and Elfriede Jelinek; controversies over anti-Semitism, around Bernhard Schlink's *Der Vorleser* / *The Reader* and Martin Walser's lampooning of the Jewish critic Marcel Reich-Ranicki; Peter Handke's pro-Serbian travelogue; the disputed editing of Ingeborg Bachmann's *Nachlaß*; vexed relations between dramatists and directors; (ab)uses of privacy law to 'censor' contemporary fiction: these are among the cases of 'text crimes' discussed. Not all involve codified law, but all test relations between state power, civil society, media industries and artistic license.

Monatsschrift Für Das Deutsche Geistesleben - 1902**Jews in German Literature since 1945** - 2021-11-15

This volume contains some 46 essays on various aspects of contemporary German-Jewish literature. The approaches are diverse, reflecting the international origins of the contributors, who are based in seventeen different countries. Holocaust literature is just one theme in this context; others are memory, identity, Christian-Jewish relations, anti-Zionism, la belle juive, and more. Prose, poetry and drama are all represented, and there is a major debate on the controversial attempt to stage Fassbinder's *Der Müll, die Stadt und der Tod* in 1985. The overall approach of the volume is an inclusive one. In his introduction, the editor calls for a reappraisal of the terms of German-Jewish discourse away from the notion of 'Germans' and 'Jews' and towards the idea that both Jews and non-Jews, all of them Germans, have contributed to the corpus of 'German-Jewish literature'.

German Culture and the Uncomfortable Past - Helmut Schmitz 2017-07-05

Beginning with the question of the role of the past in the shaping of a contemporary identity, this volume spans three generations of German and Austrian writers and explores changes and shifts in the aesthetics of Vergangenheitsbewältigung (coming to terms with the past). The purpose of the book is to assess contemporary German literary representations of National Socialism in a wider context of these current debates. The contributors address questions arising from a shift over the last decade, triggered by a generation change-questions of personal and national identity in Germany and Austria, and the aesthetics of memory. One of the central questions that emerges in relation to the Hitler youth generation is that of biography, as examined through Günter Grass' and Martin Walser's conflicting views on the subject of National Socialism. Other themes explored here are the conflict between the post-war generations and the contributions of that conflict to (West)-German mentality, and the growing historical distance and its

influence on the aesthetics of representation.

Jean Pauls Ausgewählte Werke in Acht Bänden: Vorschule der Aesthetik - Jean Paul 1895**The German Student Movement and the Literary Imagination** - Susanne Rinner 2013-02-28

Through a close reading of novels by Ulrike Kolb, Irmtraud Morgner, Emine Sevgi Özdamar, Bernhard Schlink, Peter Schneider, and Uwe Timm, this book traces the cultural memory of the 1960s student movement in German fiction, revealing layers of remembering and forgetting that go beyond conventional boundaries of time and space. These novels engage this contestation by constructing a palimpsest of memories that reshape readers' understanding of the 1960s with respect to the end of the Cold War, the legacy of the Third Reich, and the Holocaust. Topographically, these novels refute assertions that East Germans were isolated from the political upheaval that took place in the late 1960s and 1970s. Through their aesthetic appropriations and subversions, these multicultural contributions challenge conventional understandings of German identity and at the same time lay down claims of belonging within a German society that is more openly diverse than ever before.
