Information Security Technologies for Controlling Pandemics Jahankhani 2021-07-29

The year 2020 and the COVID-19 pandemic marked a huge change globally, both in working and home environments. They posed major challenges for organisations around the world, which were forced to use technological tools to help employees work remotely, while in self-isolation and/or total lockdown. Though the positive outcomes of using these technologies are clear, doing so also comes with its fair share of potential issues, including risks regarding data and its use, such as privacy, transparency, exploitation and ownership. COVID-19 also led to a certain amount of paranoia, and the widespread uncertainty and fear of change represented a golden opportunity for threat actors. This book discusses and explains innovative technologies such as blockchain and methods to defend from Advanced Persistent Threats (APTs), some of the key legal and ethical data challenges to data privacy and security presented by the COVID-19 pandemic, and their potential consequences. It then turns to improved decision making in cyber security, also known as cyber situational awareness, by analysing security events and comparing data mining techniques, specifically classification techniques, when applied to cyber security data. In addition, the book illustrates the importance of cyber security, particularly information integrity and surveillance, in dealing with an on-going, infectious crisis. Aspects addressed range from the spread of misinformation, which can lead people to actively work against measures designed to ensure public safety and minimise the spread of the virus, to concerns over the approaches taken to monitor, track, trace and isolate infectious cases through the use of technology. In closing, the book considers the legal, social and ethical cyber and information security implications of the pandemic and responses to it from the perspectives of confidentiality, integrity and availability.

Whispers in the Ear of a Dreaming Ape Joshua Chaplinsky 2019-10-12

The debut short story collection from Joshua Chaplinsky, author of Kanye West-Reanimator. Thirteen weird pieces of literary genre fiction. Singularities, ciphers, and reappearing limbs. Alien messiahs and murderous medieval hydrocephalics. A dark collection that twists dreams into nightmares in an attempt to find a whisper of truth."This is dark stuff, but fun, without any hipster wink of irony or cynicism. Writing stories that are simultaneously grim and good-hearted is a fucking tough line to straddle, and writing them well... let's just say I don't see that

often. Chaplinsky walks a barbed-wire tightrope here. In short, good shit."Craig Clevenger, Author of The Contortionist's Handbook"If you're sick of tepid short stories that taste like watered-down milk, "Whispers in the Ear of a Dreaming Ape," is the collection of multi-colored, bite-sized brain pan bullets that might just be the cure. Joshua Chaplinsky has an imagination both of depth and breadth, and no two stories are alike. You can practically hear the lively, fascinating, hallucinatory click of his brain throughout the book. An enjoyable read for all of us dreaming apes."Autumn Christian, Author of Girl Like a Bomb

THE INDIAN LISTENER - All India Radio (AIR),New Delhi 1950-02-12

The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service,Bombay ,started on 22 December, 1935 and was the successor to the Indian Radio Times in english, which was published beginning in July 16 of 1927. From 22 August ,1937 onwards, it was published by All India Radio,New Delhi.From July 3 ,1949,it was turned into a weekly journal. Later,The Indian listener became "Akashvani" in January 5, 1958. It was made a fortnightly again on July 1,1983. It used to serve the listener as a bradshaw of broadcasting ,and give listener the useful information in an interesting manner about programmes,who writes them,take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. Spiritual Gems - Sawan Singh (Satguru) 2004

Maybe This Time - Kasie West 2019-07-09

Beloved author Kasie West brings her signature witty banter and rom-com fun to a bold, fresh format. Think Four Weddings and a Funeral for YA. One year. Nine events. Nine chances to . . . fall in love?Weddings. Funerals. Barbecues. New Year's Eve parties. Name the occasion, and Sophie Evans will be there. Well, she has to be there. Sophie works for the local florist, so she can be found at every big event in her small hometown, arranging bouquets and managing family dramas.Enter Andrew Hart. The son of the fancy new chef in town, Andrew is suddenly required to attend all the same events as Sophie. Entitled, arrogant, preppy Andrew. Sophie just wants to get her job done and finish up her sketches so she can apply to design school. But every time she turns around, there is Andrew, getting in her way and making her life more complicated. Until one day she wonders if maybe complicated isn't so bad after all . . .Told over the course of one year and following Sophie from event to event, this delightful novel from master of romantic comedy Kasie West shows how love can blossom in unexpected places.

The Sky Queen - Mamang Dai 2005

A superb retelling of another age-old classic folk tale from Arunachal Pradesh. The story of Nyanyi Myete, the legendary celestial queen from

the Kojum-Koja civilization, who came out of the Great Deluge to give us the message of harmony in the natural world.

The Borden Murders - Sarah Miller 2019-05-07

With murder, court battles, and sensational newspaper headlines, the story of Lizzie Borden is compulsively readable and perfect for the Common Core. Lizzie Borden took an axe, gave her mother forty whacks. When she saw what she had done, she gave her father forty-one. In a compelling, linear narrative, Miller takes readers along as she investigates a brutal crime: the August 4, 1892, murders of wealthy and prominent Andrew and Abby Borden. The accused? Mild-mannered and highly respected Lizzie Borden, daughter of Andrew and stepdaughter of Abby. Most of what is known about Lizzie's arrest and subsequent trial (and acquittal) comes from sensationalized newspaper reports; as Miller sorts fact from fiction, and as a legal battle gets underway, a gripping portrait of a woman and a town emerges. With inserts featuring period photos and newspaper clippings—and, yes, images from the murder scene—readers will devour this nonfiction book that reads like fiction. A School Library Journal Best Book of the Year "Sure to be a hit with true crime fans everywhere." —School Library Journal, Starred

Polycystic Ovary Syndrome - Andrea Dunaif 2008-01-12

This volume includes the latest diagnostic criteria for PCOS and comprises the most up-to-date information about the genetic features and pathogenesis of PCOS. It critically reviews the methodological approaches and the evidence for various PCOS susceptibility genes. The book also discusses additional familial phenotypes of PCOS and their potential genetic basis. All four editors of this title are extremely prominent in the field of PCOS.

Blended Learning in Action - Catlin R. Tucker 2016-09-03

Shift to blended learning to transform education Blended learning has the power to reinvent education, but the transition requires a new approach to learning and a new skillset for educators. Loaded with research and examples, Blended Learning in Action demonstrates the advantages a blended model has over traditional instruction when technology is used to engage students both inside the classroom and online. Readers will find: Breakdowns of the most effective classroom setups for blended learning Tips for leaders Ideas for personalizing and differentiating instruction using technology Strategies for managing devices in schools Questions to facilitate professional development and deeper learning

The Man Who Loved Books Too Much - Allison Hoover Bartlett 2009-09-17

In the tradition of *The Orchid Thief*, a compelling narrative set within the strange and genteel world of rare-book collecting: the true story of an infamous book thief, his victims, and the man determined to catch him. Rare-book theft is even more widespread than fine-art theft. Most thieves, of course, steal for profit. John Charles Gilkey steals purely for the love of books. In an attempt to understand him better, journalist Allison Hoover Bartlett plunged herself into the world of book lust and discovered just how dangerous it can be. John Gilkey is an obsessed, unrepentant book thief who has stolen hundreds of thousands of dollars worth of rare books from book fairs, stores, and libraries around the country. Ken Sanders is the self-appointed "bibliodick" (book dealer with a penchant for detective work) driven to catch him. Bartlett befriended both outlandish characters and found herself caught in the middle of efforts to recover hidden treasure. With a mixture of suspense, insight, and humor, she has woven this entertaining cat-and-mouse chase into a narrative that not only reveals exactly how Gilkey pulled off his dirtiest crimes, where he stashed the loot, and how Sanders ultimately caught him but also explores the romance of books, the lure to collect them, and the temptation to steal them. Immersing the reader in a rich, wide world of literary obsession, Bartlett looks at the history of book passion, collection, and theft through the ages, to examine the craving that makes some people willing to stop at nothing to possess the books they love.

The Paradox Twins - Joshua Chaplinsky 2021-04-06

The Paradox Twins is a copyright infringing biographical collage that exists on the Internet, pieced together by an unknown auteur. Named for the famous thought experiment, it concerns estranged twin brothers who reunite at their father's funeral to discover they no longer look alike. Haunted by the past (and possibly the future), they move into their father's house to settle his affairs, only to reignite old rivalries and uncover long-hidden secrets, most of which involve the young woman who lives next door. An epistolary work comprised of excerpts from various memoirs, novels, screenplay adaptations, and documents of public record, The Paradox Twins is an experimental, sci-fi ghost story about the scariest, most unknowable quantity there is—family. PRAISE

FOR THE PARADOX TWINS "Chaplinsky takes a famous physics paradox and brings it back down to earth, using it to rethink the ways in which families relate and interrelate and disintegrate. A collage that assembles itself into a sneaky whole in which it's not always easy to tell what the truth is." -Brian Evenson, author of *Song For the Unraveling of the World* "As confirmed by The Paradox Twins, Joshua Chaplinsky is one of a handful of American novelists creating the literature of the future: dazzling, original and subversive." -Steve Erickson, author of *Zeroville* and *Shadowbahn* "Like a coy, uncanny hybrid of J.G. Ballard and John Carpenter, the Oulipo and the Bizarro, The Paradox Twins is an engrossing and digressive trip through birth and back, stuffed from end to end with mystic weirdness and meta-gags with style to spare." -Blake Butler, author of *Alice Knott* and *300,000,000*

□□□□□□□□□□ - 2011

First presented as a manifesto in the 1960s in Japan, "Metabolism" is a theory of architecture contending that "buildings and cities should be designed and developed in the same continuous way that the material substance of a natural organism is produced." From the time of Japan's postwar redevelopment to its period of rapid economic growth, the theory gave birth to grand visions of future cities, encouraged the realization of much experimental architecture, and also provided the foundation on which many of Japan's contemporary world-renowned architects and designers could build their careers. It is the most widely known modern architecture theory to have emerged from Japan. This exhibition is the first ever to pose the question of what significance Metabolism holds today. It draws on various documents and models to explore the thoughts and work of Tange Kenzo, which set the scene for the emergence of Metabolism, and the activities of the Metabolist architects and others during the 1960s up until Osaka's Expo '70, which in many ways was a showcase for the theory. It also represents an important opportunity to think about the necessity of archiving and preserving distinguished historical documents and records related to the movement.

The Science of 114 Chakras in Human Body - Amit Ray 2015-07-04

The Science of 114 Chakras in Human Body is a guide book written by Dr. Amit Ray in 2015. Ray identified, located and named each of these 114 chakras in the body and the brain in his deep meditation in the Himalaya. In the book he explained the details of these 114 chakras in human body. The hierarchy, the network, and the topology of the chakras are explained in a scientific way. Ray relates the human emotions, behaviors, inner experiences and the deep spiritual experiences in the rich frameworks of 114 hierarchal and intelligent energy vortexes in the brain and the body. Ray discovered the details of the brain-body-behavior and consciousness dynamics including immunity, diseases, perception, attention, language, memory, thinking, behaviors, and consciousness in this rich frameworks of 114 chakras.

Fame, Fate, and the First Kiss - Kasie West 2019-02-05

Fan favorite author Kasie West delivers an effervescent story about chasing your dreams and following your heart, perfect for fans of Jenny Han and Huntley Fitzpatrick. Lacey Barnes has dreamed of being an actress for as long as she can remember. So when she gets the opportunity to star in a movie alongside one of Hollywood's hottest actors, she doesn't hesitate to accept the part. But Lacey quickly learns that life in the spotlight isn't as picture perfect as she imagined. She's having trouble bonding with her costars, her father has hired the definition of a choir boy, Donovan Lake, to tutor her, and somewhere along the way she's lost her acting mojo. And just when it seems like things couldn't get any worse, it looks like someone on set is deliberately trying to sabotage her. As Lacey's world spins out of control, it feels like the only person she can count on—whether it's helping her try to unravel the mystery of who is out to get her or snap her out of her acting funk—is Donovan. But what she doesn't count on is this straight-laced boy becoming another distraction. With her entire future riding on this movie, Lacey knows she can't afford to get sidetracked by a crush. But for the first time in her life Lacey wonders if it's true that the best stories really do happen when you go off script.

The Green Eyed Lama - Jeffrey Lester Falt 2018-11-26

"THE GREEN-EYED LAMA" IS THE BEST NOVEL EVER WRITTEN ABOUT MONGOLIA" (JACK WEATHERFORD)THE FIRST MONGOLIAN NOVEL EVER PUBLISHED IN THE WEST!AN AWARD-WINNING, DECADE-LONG BESTSELLER IN MONGOLIA.The year is 1938. The newly-installed communist government of Mongolia, under orders from Moscow, has launched a nation-wide purge. Before it ends, nearly a tenth of the country's population will be murdered.A young nomadic herds-woman named Sendmaa falls in love with Baasan, a talented and

handsome Buddhist lama. Baasan resolves to leave the priesthood and marry Sendmaa, but her scheming neighbor persuades Baasan's brother, Bold, to ask for Sendmaa's hand in marriage first. Their love triangle is engulfed by tragedy when Mongolia's Stalin moves to crush the Buddhist faith. Baasan is arrested. Sendmaa, Bold, and the other northern herders are branded counter-revolutionaries, and their herds are confiscated. As the country teeters toward war, Baasan is sentenced to death as a class enemy. But an improbable ally, a lama turned "KGB" agent, intervenes in a way that reaches all the way to Franklin Roosevelt. Still, Baasan must summon every bit of his talent and ingenuity if he's to survive the gulag, reunite with Sendmaa, and help save the Buddhist faith. The Green-Eyed Lama is based on a true story. Nearly all of the book's characters are referred to by their real names. Written originally in English, it was published in Mongolian in 2008, and has been a bestseller in Mongolia for 10 years. The Green-Eyed Lama is the first Mongolian novel to be published in the West. In November 2017, the French publishing house Grasset Editions published the novel in French under the title *Le Moine Aux Yeux Verts*.

Kanye West - Reanimator - Joshua Chaplinsky 2018-03-07

"Of Kanye West, who was my friend in college and after he dropped out, I can speak only with extreme sadness..." So begins this epic cautionary tale of ambition and hubris. A bizarre mix of Lovecraft and hip-hop history, Kanye West's *Reanimator* reimagines the classic story "Herbert West's Reanimator" with everyone's favorite petulant genius cast in the titular role. In it, Kanye West attempts to reanimate a moribund hip-hop scene, only to come to the conclusion that his music is so powerful, it should be used to reanimate the dead. And who better to reanimate than those two legendary titans gone before their time—Biggie and Tupac? Hilarity and carnage ensue.

A Dictionary, Hindūstānī and English - John Shakespear 1817

Snow in Love (Point Paperbacks) - Aimee Friedman 2018-10-30

Perfect for fans of *Let It Snow*, this irresistible collection of wintry love stories is guaranteed to bring on the warm fuzzies.

Welsh History - Glyn E. German 2015

This highly informative chronological survey of Welsh history draws together the latest scholarship.

A First List of Cyprus Fungi - Cyprus Agricultural Department 2021-09-10

Churning the Earth - Aseem Shrivastava 2012-05-24

The world stands so dazzled by India's meteoric economic rise that we hesitate to acknowledge its consequences to the people and the environment. In *Churning the Earth*, Aseem Shrivastava and Ashish Kothari engage in a timely enquiry of this impressive growth story. They present incontrovertible evidence on how the nature of this recent growth has been predatory and question its sustainability. Unfettered development has damaged the ecological basis that makes life possible for hundreds of millions resulting in conflicts over water, land and natural resources, and increasing the chasm between the rich and the poor, threatening the future of India as a civilization. Rich with data and stories, this eye-opening critique of India's development strategy argues for a radical ecological democracy based on the principles of environmental sustainability, social equity and livelihood security. Shrivastava and Kothari urge a fundamental shift towards such alternatives—already emerging from a range of grassroots movements—if we are to forestall the descent into socio-ecological chaos. *Churning the Earth* is unique in presenting not only what is going wrong in India, but also the ways out of the crises that globalised growth has

precipitated.

This Is Your Mind on Plants - Michael Pollan 2021-07-06

The instant New York Times bestseller | A Washington Post Notable Book | One of NPR's Best Books of the Year "Expert storytelling . . . [Pollan] masterfully elevates a series of big questions about drugs, plants and humans that are likely to leave readers thinking in new ways." —New York Times Book Review From #1 New York Times bestselling author Michael Pollan, a radical challenge to how we think about drugs, and an exploration into the powerful human attraction to psychoactive plants—and the equally powerful taboos. Of all the things humans rely on plants for—sustenance, beauty, medicine, fragrance, flavor, fiber—surely the most curious is our use of them to change consciousness: to stimulate or calm, fiddle with or completely alter, the qualities of our mental experience. Take coffee and tea: People around the world rely on caffeine to sharpen their minds. But we do not usually think of caffeine as a drug, or our daily use as an addiction, because it is legal and socially acceptable. So, then, what is a "drug"? And why, for example, is making tea from the leaves of a tea plant acceptable, but making tea from a seed head of an opium poppy a federal crime? In *This Is Your Mind on Plants*, Michael Pollan dives deep into three plant drugs—opium, caffeine, and mescaline—and throws the fundamental strangeness, and arbitrariness, of our thinking about them into sharp relief. Exploring and participating in the cultures that have grown up around these drugs while consuming (or, in the case of caffeine, trying not to consume) them, Pollan reckons with the powerful human attraction to psychoactive plants. Why do we go to such great lengths to seek these shifts in consciousness, and then why do we fence that universal desire with laws and customs and fraught feelings? In this unique blend of history, science, and memoir, as well as participatory journalism, Pollan examines and experiences these plants from several very different angles and contexts, and shines a fresh light on a subject that is all too often treated reductively—as a drug, whether licit or illicit. But that is one of the least interesting things you can say about these plants, Pollan shows, for when we take them into our bodies and let them change our minds, we are engaging with nature in one of the most profound ways we can. Based in part on an essay published almost twenty-five years ago, this groundbreaking and singular consideration of psychoactive plants, and our attraction to them through time, holds up a mirror to our fundamental human needs and aspirations, the operations of our minds, and our entanglement with the natural world.

Aries Horoscope 2021 - Acharya Rajan 2021-01-04

A comprehensive horoscope for 2021 covers monthly and yearly predictions. These horoscopes not only cover all key aspects of your life viz health, family, career, finances, education but also provide guidance and practical wisdom to lead you towards inner peace and happiness. These editions are borne out of a deep study and have been meticulously prepared by renowned spiritual leader and astrologer - Acharya Rajan, who represents a new generation of truly global individuals emerging out of the East & the West who firmly believe in Astrology as a Science and Celestial powers equitable to cosmic movements with second-by-second mathematical calculations. And that's exactly what he endeavors to achieve through these books - share the predictions triggered by planetary movements coupled with guidance and wisdom to help you choose!

The Unhappening of Genesis Lee - Shallee McArthur 2014-11-18

"Equal parts dark and delightful, McArthur's stunning debut takes an awesome SF premise and follows it deep into the maze of the human mind." —Dan Wells, New York Times bestselling author What would it feel like to never forget? Or to have a memory stolen? Seventeen-year-old Genesis Lee has never forgotten anything. As one of the Mementi—a small group of genetically enhanced humans—Gena remembers everything with the help of her Link bracelets, which preserve them perfectly. But Links can be stolen, and six people have already lost their lives to a memory thief, including Gena's best friend. Anyone could be next. That's why Gena is less than pleased to meet a strange but charming boy named Kalan who claims not only that they have met before, but also that Gena knows who the thief is. The problem is that Gena doesn't remember Kalan, she doesn't remember seeing the thief, and she doesn't know why she's forgetting things—or how much else she might forget. As growing tensions between Mementi and ordinary

humans drive the city of Havendale into chaos, Gena and Kalan team up to search for the thief. And as Gena loses more memories, they realize they have to solve the mystery fast . . . because Gena's life is unhappening around her. "For anyone fascinated with thoughts of omniscience and total social connection—and who isn't?—McArthur's debut suggests fascinating and chilling possibilities." —Kirkus Reviews "A thrilling read from beginning to end, this stunning debut had me wishing I could record my memories to keep them safe!" —Elana Johnson, USA Today-bestselling author

Show Them a Good Time - Nicole Flattery 2020-01-28

"Show Them a Good Time is a master class in the short story—bold, irreverent and agonizingly funny." Sally Rooney, Author of Normal People and Conversations with Friends Named A Most Anticipated Novel of 2020 by Entertainment Weekly * Marie Claire * Wall Street Journal * The A.V. Club * The Millions * Time * Parade * The Chicago Review of Books * LitHub A blisteringly original and wickedly funny collection of stories about the strange worlds that women inhabit and the parts that they must play. A sense of otherworldly menace is at work in the fiction of Nicole Flattery, but the threats are all too familiar. SHOW THEM A GOOD TIME tells the stories of women slotted away into restrictive roles: the celebrity's girlfriend, the widower's second wife, the lecherous professor's student, the corporate employee. And yet, the genius of Flattery's characters is to blithely demolish the boundaries of these limited and limiting social types with immense complexity and caustic intelligence. Nicole Flattery's women are too ferociously mordant, too painfully funny to remain in their places. In this fiercely original and blazingly brilliant debut, Flattery likewise deconstructs the conventions of genre to serve up strange realities: In Not the End Yet, Flattery probes the hilarious and wrenching ambivalence of Internet dating as the apocalypse nears; in Sweet Talk, the mysterious disappearance of a number of local women sets the scene for a young girl to confront the dangerous uncertainties of her own sexuality; in this collection's center piece, Abortion, A Love Story, two college students in a dystopian campus reconfigure the perilous stories of their bodies in a fraught academic culture to offer a subversive, alarming, and wickedly funny play that takes over their own offstage lives. And yet, however surreal or richly imagined the setting, Flattery always shows us these strange worlds from startlingly unexpected angles, through an unforgettable cast of brutally honest, darkly hilarious women and girls. Like the stories of Mary Gaitskill, Miranda July, Lorrie Moore, Joy Williams, and Ottessa Moshfegh, SHOW THEM A GOOD TIME is the work of a profoundly resonant and revelatory literary voice - at once spiky, humane, achingly hilarious-- that is sure to echo through the literary culture for decades to come.

The Fun Hat - Just Right Reader 2021-12

Full House - Stephen Jay Gould 2011-10

Gould shows why a more accurate way of understanding our world is to look at a given subject within its own context, to see it as a part of a spectrum of variation and then to reconceptualize trends as expansion or contraction of this "full house" of variation, and not as the progress or degeneration of an average value, or single thing.

satta king - Satta Matka Game Results - Satta King 2022-01-17

Satta king - Satta Matka Game Results | SATTAKING GAME LIVE RESULT 2022: Satta King is a form of lottery game played in online and offline mode in some parts of the country. Today in the digital world, it is mostly played online through several websites. Also known as Satta Matka, the game has its origin before Indian Independence.

The Deaths of December - Susi Holliday 2017-11-16

'A festive cracker of a crime novel' Cass Green, author of In a Cottage in a Wood 'A quirky, cleverly plotted crime story' Sunday Mirror 'A cracking read. The perfect Christmas gift for crime fans' C. L. Taylor, author of

The Lie 'Dark and satisfying, it is a fine antidote to Christmas cheer' Daily Mail ***** It looks like a regular advent calendar. Until DC Becky Greene starts opening doors . . . and discovers a crime scene behind almost every one. The police hope it's a prank. Because if it isn't, a murderer has just surfaced - someone who's been killing for twenty years. But why now? And why has he sent it to this police station? As the country relaxes into festive cheer, Greene and DS Eddie Carmine must race against time to catch the killer. Because there are four doors left, and four murders will fill them . . . It's shaping up to be a deadly little Christmas. ***** Goodreads reviewers are raving about this gripping festive thriller! 'A deeply twisted, festive murder, thriller, mystery with a good psychological twist to it.' 'Christmas books are normally romances so I enjoyed The Deaths of December for the anti Christmas twist.' 'The perfect festive read for those who like to be curled up in front of the fire with the lights down low ready to be thrilled and chilled in equal measure'

Hiroshima - John Hersey 2020-06-23

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Grand-papa's Arithmetic - Jean Macé 1868

Play Like a PIRATE - Quinn Rollins 2016-02-01

The author presents his own perspectives and techniques for making play part of his classroom's learning experience; includes QR code links to resources and templates.

Fi nboy - David O'Boyle 2021-05-10

Jake likes the back of the classroom. Amongst desks, diverse faces and decorated walls, he can blend in, at least on most days. But today is not most days. Today is presentation day, and on presentation day, even the timid face the spotlight. Those like Jake, who are not only timid, but have something to hide, must be careful. One misstep could reveal his big secret- that he has a fin, a fin that he tapes down beneath his shirt every day to avoid public ridicule. Sadly, you can't plan for everything. Missteps occur, and when they do, Jake must either stand small or stand tall. By standing tall, he learns that confronting your insecurities shapes you more than any protruding back appendage ever could. It also shapes others. Inspired by Jake's courage, fellow students follow his lead and share their own secrets. By the end of class, the fin that weighed Jake down lifts everyone up.

Journal of Health and Recreation: 4, (1832-1833) - Anonymous 2021-09-09

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
