Time for Taking Chances -

Otto Schmalz 2020-04-13

Time for Taking Chances:

Leaving Germany as a

Teenager after the War is an intimate account of a profound transition undertaken by a nineteen-year-old German boy immigrating to Canada in 1951 who saw no hope for his bombed-out country ever getting back on its feet. At the Canadian consulate in Hannover, in whose dramatic ruins he'd lived for six years after the Second World War, Otto Schmalz learned of the possibility for another chance. Canada, way out there on the other side of the Atlantic, needed electricians like him, they told him. His skills in this trade would allow him to immigrate. But after he arrived in a camp outside Montréal, Otto immediately felt cheated. Penniless, without a job, with no relatives or grasp of the language, this teenage immigrant realized the chance he'd taken in coming to Canada would be followed up with a whole lot more chance-taking, much of it in the company of other immigrants, whose help and friendship were always invaluable. Here is the immigrant's story, a story that

many people have experienced, and many more will.

Fluent Forever - Gabriel Wyner 2014-08-05

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those

sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
