A Consumers' Republic Elizabeth Cohen 2008-12-24

In this signal work of history, Bancroft Prize winner and Pulitzer Prize finalist Elizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life. Trumpeted as a means to promote the general welfare, mass consumption quickly outgrew its economic objectives and became synonymous with patriotism, social equality, and the American Dream. Material goods came to embody the promise of America, and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change. Yet despite undeniable successes and unprecedented affluence, mass consumption also fostered economic inequality and the fracturing of society along gender, class, and racial lines. In charting the complex legacy of our "Consumers' Republic" Elizabeth Cohen has written a bold, encompassing, and profoundly influential book.

Statebuilding Timothy Sisk 2014-01-21

After civil wars end, what can sustain peace in the long-term? In particular, how can outsiders facilitate durable conflict-managing institutions through statebuilding - a process that historically has been the outcome of bloody struggles to establish the state's authority over warlords, traditional authorities, and lawless territories? In this book, Timothy Sisk explores international efforts to help the world's most fragile post-civil war countries today build viable states that can provide for security and deliver the basic services essential for development. Tracing the historical roots of statebuilding to the present day, he demonstrates how the United Nations, leading powers, and well-meaning donors have engaged in statebuilding as a strategic approach to peacebuilding after war. Their efforts are informed by three key objectives: to enhance security by preventing war recurrence and fostering community and human security; to promote development through state provision of essential services such as water, sanitation, and education; to enhance human rights and democracy, reflecting the liberal international order that reaffirms the principles of democracy and human rights. Improving governance, alongside the state's ability to integrate social differences and manage conflicts over resources, identity, and national priorities, is essential for long-term peace. Whether the global statebuilding enterprise can succeed in creating a world of peaceful, well-governed, development-focused states is unclear. But the book concludes with a road map toward a better global regime to enable peacebuilding and development-oriented statebuilding into the 21st century.

Maneuver and Firepower - John B. Wilson 1998

Europe's Crumbling Myths - Manfred Gerstenfeld 2003

A collection of interviews conducted by Gerstenfeld with Jewish historians and public figures. In a lengthy essay preceding the interviews (pp. 10-90), "From the Aftermath of the Holocaust to Today's Antisemitism" [an abridged version appeared in "Jewish Political Studies Review" 14 (2002)], notes a number of issues relevant to assessing European postwar antisemitism: barriers placed in the way of survivors' reintegration into postwar society, problems related to financial and moral restitution, the reluctance of European states to punish war criminals and its relation to national myths that exculpate countries from responsibility for the Holocaust, the preservation or lack thereof of Holocaust memory and Holocaust education. Stresses the double standard adopted by European countries in regard to Israel, and antisemitism expressed in anti-Zionism. Presents brief reports on antisemitism in various countries and suggests that more research is needed to reveal connections between present and postwar antisemitism. Some of the interviews (which consist of quotes interspersed with Gerstenfeld's comments), were published previously. Contents:

Economics in One Lesson Henry Hazlitt 2010-08-11

With over a million copies sold, *Economics in One Lesson* is an essential guide to the basics of economic theory. A fundamental influence on modern libertarianism, Hazlitt defends capitalism and the free market from economic myths that persist to this day. Considered among the leading economic thinkers of the "Austrian School," which includes Carl Menger, Ludwig von Mises, Friedrich (F.A.) Hayek, and others, Henry Hazlitt (1894-1993), was a libertarian philosopher, an economist, and a journalist. He was the founding vice-president of the Foundation for Economic Education and an early editor of *The Freeman*

magazine, an influential libertarian publication. Hazlitt wrote *Economics in One Lesson*, his seminal work, in 1946. Concise and instructive, it is also deceptively prescient and far-reaching in its efforts to disassemble economic fallacies that are so prevalent they have almost become a new orthodoxy. Economic commentators across the political spectrum have credited Hazlitt with foreseeing the collapse of the global economy which occurred more than 50 years after the initial publication of *Economics in One Lesson*. Hazlitt's focus on non-governmental solutions, strong — and strongly reasoned — anti-deficit position, and general emphasis on free markets, economic liberty of individuals, and the dangers of government intervention make *Economics in One Lesson* every bit as relevant and valuable today as it has been since publication.

An Extraordinary Time - Marc Levinson 2016-11-08

The decades after World War II were a golden age across much of the world. It was a time of economic miracles, an era when steady jobs were easy to find and families could see their living standards improving year after year. And then, around 1973, the good times vanished. The world economy slumped badly, then settled into the slow, erratic growth that had been the norm before the war. The result was an era of anxiety, uncertainty, and political extremism that we are still grappling with today. In *An Extraordinary Time*, acclaimed economic historian Marc Levinson describes how the end of the postwar boom reverberated throughout the global economy, bringing energy shortages, financial crises, soaring unemployment, and a gnawing sense of insecurity. Politicians, suddenly unable to deliver the prosperity of

years past, railed haplessly against currency speculators, oil sheikhs, and other forces they could not control. From Sweden to Southern California, citizens grew suspicious of their newly ineffective governments and rebelled against the high taxes needed to support social welfare programs enacted when coffers were flush. Almost everywhere, the pendulum swung to the right, bringing politicians like Margaret Thatcher and Ronald Reagan to power. But their promise that deregulation, privatization, lower tax rates, and smaller government would restore economic security and robust growth proved unfounded. Although the guiding hand of the state could no longer deliver the steady economic performance the public had come to expect, free-market policies were equally unable to do so. The golden age would not come back again. A sweeping reappraisal of the last sixty years of world history, *An Extraordinary Time* forces us to come to terms with how little control we actually have over the economy.

The Army Nurse Corps - Judith Bellafaire 1993

The Future of the Public's Health in the 21st Century - Institute of Medicine 2003-02-01

The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. *The Future of the Public's Health in the 21st Century* reaffirms the vision of Healthy People 2010, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. Providing an accessible analysis, this book will be important to public health policy-makers and practitioners, business and community leaders, health advocates, educators and journalists.

War and Economy in the Third Reich - J. Overy 1995-06-29

War and Economy in the Third Reich examines the nature of the German economy in the 1930s and the Second World War. Richard Overy's essays, collected here for the first time with a substantial new introduction, explore the tension between Hitler's vision of an armed economy and the reality of German economic and social life. Often thought-provoking, always informed, *War and Economy* opens a window on an essential aspect of Hitler's Germany.

The New Nationalism - Theodore Roosevelt 1910

Collect and Record - Laura Jockusch 2012-10-11

This title tells the story of Jewish survivors who pioneered Holocaust research in the immediate aftermath of World War II. Just liberated from Nazi terror, amidst political turmoil and privation, physically exhausted and traumatized women and men founded historical commissions and documentation centers throughout Europe to chronicle the Nazi Final Solution.

A History of the Book in America - David Paul Nord 2015-12-01

The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading-in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies—receive imaginative scrutiny as well. *The Enduring Book*

demonstrates that the corporate consolidations of the last half-century have left space for the independent publisher, that multiplicity continues to define American print culture, and that even in the digital age, the book endures. Postwar Japan - Michael J. Green 2017-02-02

Japanese security, economic, institutional, and developmental policies have undergone a remarkable evolution in the 70 years since the end of World War II. In this volume, distinguished Japanese scholars reflect on the evolution of these policies and draw lessons for the coming decades. The pillars of Japan's reentry into the international community since 1945 remain no less important seven decades later as Japan's economy and society enter the next phase of maturity. The authors demonstrate the continuing viability of Japan's postwar strategic choices, as well as the inevitability of adaptation to challenging new circumstances. This book will be of interest to historians of U.S.-Japan relations and policy makers seeking to place today's policy issues in a historical context. Contributions by Akiko Imai, Akiko Fukushima, Jun Saito, Kazuya Sakamoto, Yoshihide Soeya, and Yoko Takeda

Global Trends 2030 Office of the Director of National Intelligence Council 2017-03-11

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in *Global Trends 2030*, including: a review of the four previous *Global Trends* reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Propaganda for War - Horace Cornelius Peterson 1968

Postwar Economic Problems - Seymour Edwin Harris 1943

Postwar - Tony Judt 2006-09-05

Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, *Postwar* is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

The Atlantic Charter - Lorri Moulton

In the summer of 1941, the Atlantic Charter marked the first of many meetings between President Franklin Roosevelt and Prime Minister Winston Churchill. The Charter laid out eight articles promoting ideals such as equality among nations and promising post-war freedom of the seas. It was ironic that in a conference concerning war aims, the United States was still a neutral country and the British were far from sure they could win the war against Germany.

Bulletin of the Atomic Scientists - 1970-06

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

World History Roger B. Beck 2006-02-09

The Economics of World War - Stephen Broadberry 2005-09-29

This unique volume offers a definitive new history of European economies at war from 1914 to 1918. It studies how European economies mobilised for war, how existing economic institutions stood up under the strain, how economic development influenced outcomes and how wartime experience influenced post-war economic growth. Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain, Germany, France, Russia, the USA, Italy, Turkey, Austria-Hungary and the Netherlands. The editors' overview draws some stark lessons about the role of economic development, the importance of markets and the damage done by nationalism and protectionism. A companion volume to the acclaimed *The Economics of World War II*, this is a major

contribution to our understanding of total war.
