You could buy guide guided reading activity the american republic or acquire it as soon as feasible. You could quickly download this guided reading activity the american republic after getting deal. So, later than you require the book swiftly, you can straight acquire it. Its so unconditionally simple and therefore fats, isnt it? You have to favor to in this circulate

Paradoxes of Education in a Republic Eva T. H. Brann 1979

Written over a decade ago, Eva T. H. Brann's enlightening analysis of American education places the recent debate on the means and ends of a liberal education in new perspective. She goes beyond discussion of courses and particular books to claim that philosophical inquiry is far more important to the improvement of education than curricular and administrative schemes. She provides both a broad philosophical and historical analysis of education in any republic and specific, practical suggestions for achieving the education that will serve as the best preparation for life in our own republic.

A Concise History of the American Republic: - Samuel Eliot Morison
1983-01-13

A Concise History of the American Republic, Second Edition, is a compact, authoritative, gracefully written narrative of American history from the arrival of the Native Americans' Siberian forebears to the economic conflicts of the Carter and Reagan administrations. Its distinguished authors embrace a full range of the American experience: economic and social, literary and spiritual, political and military. In the engaging narrative that has made this work so well received, the second edition offers fresh and incisive analyses of the American party system, the Cold War, unemployment, environmental problems, Middle East

conflicts, the energy crisis, our relations with China, the issues surrounding various elections, and much more. Major social, political, and economic policies and trends that have affected women and minority groups are recorded in detail. *A Concise History* is illustrated with 30 maps and over 200 paintings, cartoons, and photographs. Available in one-volume paper and cloth editions and in two separate paperback volumes.

Building the American Republic, Volume 2 - Harry L. Watson
2018-01-18

"Building the American Republic tells the story of United States with remarkable grace and skill, its fast moving narrative making the nation's struggles and accomplishments new and compelling. Weaving together stories of abroad range of Americans. Volume 1 starts at sea and ends on the field. Beginning with the earliest Americans and the arrival of strangers on the eastern shore, it then moves through colonial society to the fight for independence and the construction of a federal republic. Vol 2 opens as America struggles to regain its footing, reeling from a presidential assassination and facing massive economic growth, rapid demographic change, and combustive politics.

Texas Contemporary World Studies 2015

Ready-Made Democracy - Michael Zakim 2003-12-15

Ready-Made Democracy explores the history of men's dress in America to consider how capitalism and democracy emerged at the center of American life during the century between the Revolution and the Civil War. Michael Zakim demonstrates how clothing initially attained a significant place in the American political imagination on the eve of Independence. At a time when household production was a popular expression of civic virtue, homespun clothing was widely regarded as a reflection of America's most cherished republican values: simplicity, industriousness, frugality, and independence. By the early nineteenth century, homespun began to disappear from the American material landscape. Exhortations of industry and modesty, however, remained a common fixture of public life. In fact, they found expression in the form of the business suit. Here, Zakim traces the evolution of homespun clothing into its ostensible opposite—the woolen coats, vests, and pantaloons that were "ready-made" for sale and wear across the country. In doing so, he demonstrates how traditional notions of work and property actually helped give birth to the modern industrial order. For Zakim, the history of men's dress in America mirrored this transformation of the nation's social and material landscape: profit-seeking in newly expanded markets, organizing a waged labor system in the city, shopping at "single-prices," and standardizing a business persona. In illuminating the critical links between politics, economics, and fashion in antebellum America, Ready-Made Democracy will prove essential to anyone interested in the history of the United States and in the creation of modern culture in general.

The Fictional Republic - Carol Nackenoff 1994

Investigating the persistence and place of the formulas of Horatio Alger in American politics, The Fictional Republic reassesses the Alger story in its Gilded Age context. Carol Nackenoff argues that Alger was a keen observer of the dislocations and economic pitfalls of the rapidly industrializing nation, and devised a set of symbols that addressed anxieties about power and identity. As classes were increasingly divided by wealth, life chances, residence space, and culture, Alger maintained

that Americans could still belong to one estate. The story of the youth who faces threats to his virtue, power, independence, and identity stands as an allegory of the American Republic. Nackenoff examines how the Alger formula continued to shape political discourse in Reagan's America and beyond.

Nemesis - Chalmers Johnson 2007-02-06

The long-awaited final volume of Chalmers Johnson's bestselling Blowback trilogy confronts the overreaching of the American empire and the threat it poses to the republic. In his prophetic book Blowback, Chalmers Johnson linked the CIA's clandestine activities abroad to disaster at home. In The Sorrows of Empire, he explored the ways in which the growth of American militarism and the garrisoning of the planet have jeopardized our stability. Now, in Nemesis, he shows how imperial overstretch is undermining the republic itself, both economically and politically. Delving into new areas—from plans to militarize outer space to Constitution-breaking presidential activities at home and the devastating corruption of a toothless Congress—Nemesis offers a striking description of the trap into which the dreams of America's leaders have taken us. Drawing comparisons to empires past, Johnson explores in vivid detail just what the unintended consequences of our dependence on a permanent war economy are likely to be. What does it mean when a nation's main intelligence organization becomes the president's secret army? Or when the globe's sole "hyperpower," no longer capable of paying for the vaulting ambitions of its leaders, becomes the greatest hyper-debtor of all times? In his stunning conclusion, Johnson suggests that financial bankruptcy could herald the breakdown of constitutional government in America—a crisis that may ultimately prove to be the only path to a renewed nation.

A Republic, If You Can Keep It - Neil Gorsuch 2019-09-10

NEW YORK TIMES BESTSELLER • Justice Neil Gorsuch reflects on his journey to the Supreme Court, the role of the judge under our Constitution, and the vital responsibility of each American to keep our republic strong. As Benjamin Franklin left the Constitutional Convention, he was reportedly asked what kind of government the founders would

propose. He replied, “A republic, if you can keep it.” In this book, Justice Neil Gorsuch shares personal reflections, speeches, and essays that focus on the remarkable gift the framers left us in the Constitution. Justice Gorsuch draws on his thirty-year career as a lawyer, teacher, judge, and justice to explore essential aspects our Constitution, its separation of powers, and the liberties it is designed to protect. He discusses the role of the judge in our constitutional order, and why he believes that originalism and textualism are the surest guides to interpreting our nation’s founding documents and protecting our freedoms. He explains, too, the importance of affordable access to the courts in realizing the promise of equal justice under law—while highlighting some of the challenges we face on this front today. Along the way, Justice Gorsuch reveals some of the events that have shaped his life and outlook, from his upbringing in Colorado to his Supreme Court confirmation process. And he emphasizes the pivotal roles of civic education, civil discourse, and mutual respect in maintaining a healthy republic. *A Republic, If You Can Keep It* offers compelling insights into Justice Gorsuch’s faith in America and its founding documents, his thoughts on our Constitution’s design and the judge’s place within it, and his beliefs about the responsibility each of us shares to sustain our distinctive republic of, by, and for “We the People.”

Resources in Education - 1998

The Annexation of Texas: From Republic to Statehood - Joanne Mattern 2012-12-30

After Texas earned its freedom from Mexico through a bloody revolution, its leaders were divided over whether Texas should join the United States. Through numerous captivating facts, vivid images, and easy to read text, readers will be enthralled as they make their way through this fascinating title that introduces them to Texas history, the Texas Revolution, and the Mexican-American War. The engaging sidebars and glossary, index, and table of contents make this book easy to navigate through and a perfect tool to aid in better understanding of the content and vocabulary.

Colonists, Citizens, Constitutions - James Hrdlicka 2020

Colonists, Citizens, Constitutions highlights documents that tell the story of American constitutionalism from the founding era through the turn of the twentieth century.

The American Journey - Joyce Oldham Appleby 2003

Interpreting the Founding - Alan Ray Gibson 2006

Comprehensive and judicious, *Interpreting the Founding* provides summaries and analyses of the leading interpretive frameworks that have guided the study of the Founding since the publication of Charles Beard's *An Economic Interpretation of the Constitution* in 1913. Gibson argues that scholarship on the Founding is no longer steered by a single dominant approach or even by a set of questions that control its direction. He also examines the challenges posed to Founding scholarship by this diversity and complexity and the possibilities opened by new avenues of inquiry that have recently emerged. The book features extended discussions of pioneering works by leading scholars of the Founding - including Louis Hartz, Bernard Bailyn, Gordon Wood, and Garry Wills - that best exemplify different schools of interpretation. Gibson focuses on six approaches that have dominated the modern study of the Founding: Progressive, Lockean/liberal, Republican, Scottish Enlightenment, multicultural, and multiple traditions approaches. For each approach, he traces its fundamental assumptions, revealing deeper ideological and methodological differences between schools of thought that, on the surface, seem to differ only about the interpretation of historical facts.

Before We Were Free - Julia Alvarez 2007-12-18

Anita de la Torre never questioned her freedom living in the Dominican Republic. But by her 12th birthday in 1960, most of her relatives have emigrated to the United States, her Tío Toni has disappeared without a trace, and the government’s secret police terrorize her remaining family because of their suspected opposition of el Trujillo’s dictatorship. Using the strength and courage of her family, Anita must overcome her fears and fly to freedom, leaving all that she once knew behind. From

renowned author Julia Alvarez comes an unforgettable story about adolescence, perseverance, and one girl's struggle to be free.

The Great Experiment John H. Rhodehamel 1998

Rhodehamel brings Washington vividly to life--a man who was born a loyal subject of the British crown and became the leader of a radical revolution, a victorious military leader who relinquished the trappings of power to return to farming, and a reluctant statesman who forged the institutions of a popular government that have endured for two centuries. 100 color illustrations.

The American Republic Since 1877, Student Edition - McGraw-Hill Education 2002-01-25

For high school students, *The American Republic Since 1877* presents the rich saga of American History after the Civil War. The modern history portion of *The American Vision*, this program features the same exceptional scholarship; up-to-date, accurate maps; peerless resources, and unique strategies found in *The American Vision*. This course makes modern American History understandable and relevant for every student. Features Glencoe's one-of-a-kind content reading strategy makes it easier for your students to become active, critical readers through the use of: Reading Intervention Tools Graphic Organizers in section openers and assessments Prior Knowledge Activators in every lesson In-text Reading Checks Reading and Writing Prompts National Geographic maps add dimension to the narrative and give students an understanding of the inter-relationships of places and events. Our industry-leading technology allows us to bring you *The American Republic Since 1877* in three formats printed textbook, interactive multimedia online edition, and CD-ROM interactive edition. You and your students have access to the program's vast resources whenever and however you wish.

Friends Divided - Gordon S. Wood 2017

A New York Times Book Review Notable Book of 2017 A Wall Street Journal Best Book of 2017 From the great historian of the American Revolution, New York Times-bestselling and Pulitzer-winning Gordon Wood, comes a majestic dual biography of two of America's most enduringly fascinating figures, whose partnership helped birth a nation,

and whose subsequent falling out did much to fix its course. Thomas Jefferson and John Adams could scarcely have come from more different worlds, or been more different in temperament. Jefferson, the optimist with enough faith in the innate goodness of his fellow man to be democracy's champion, was an aristocratic Southern slaveowner, while Adams, the overachiever from New England's rising middling classes, painfully aware he was no aristocrat, was a skeptic about popular rule and a defender of a more elitist view of government. They worked closely in the crucible of revolution, crafting the Declaration of Independence and leading, with Franklin, the diplomatic effort that brought France into the fight. But ultimately, their profound differences would lead to a fundamental crisis, in their friendship and in the nation writ large, as they became the figureheads of two entirely new forces, the first American political parties. It was a bitter breach, lasting through the presidential administrations of both men, and beyond. But late in life, something remarkable happened: these two men were nudged into reconciliation. What started as a grudging trickle of correspondence became a great flood, and a friendship was rekindled, over the course of hundreds of letters. In their final years they were the last surviving founding fathers and cherished their role in this mighty young republic as it approached the half century mark in 1826. At last, on the afternoon of July 4th, 50 years to the day after the signing of the Declaration, Adams let out a sigh and said, At least Jefferson still lives. He died soon thereafter. In fact, a few hours earlier on that same day, far to the south in his home in Monticello, Jefferson died as well. Arguably no relationship in this country's history carries as much freight as that of John Adams of Massachusetts and Thomas Jefferson of Virginia. Gordon Wood has more than done justice to these entwined lives and their meaning; he has written a magnificent new addition to America's collective story.

The Crisis of the Middle-Class Constitution - Ganesh Sitaraman 2017-03-14

In this original, provocative contribution to the debate over economic inequality, Ganesh Sitaraman argues that a strong and sizable middle

class is a prerequisite for America's constitutional system. A New York Times Notable Book of 2017 For most of Western history, Sitaraman argues, constitutional thinkers assumed economic inequality was inevitable and inescapable—and they designed governments to prevent class divisions from spilling over into class warfare. The American Constitution is different. Compared to Europe and the ancient world, America was a society of almost unprecedented economic equality, and the founding generation saw this equality as essential for the preservation of America's republic. Over the next two centuries, generations of Americans fought to sustain the economic preconditions for our constitutional system. But today, with economic and political inequality on the rise, Sitaraman says Americans face a choice: Will we accept rising economic inequality and risk oligarchy or will we rebuild the middle class and reclaim our republic? *The Crisis of the Middle-Class Constitution* is a tour de force of history, philosophy, law, and politics. It makes a compelling case that inequality is more than just a moral or economic problem; it threatens the very core of our constitutional system.

In the Time of the Butterflies - Julia Alvarez 2010-01-12

It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leonidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—"The Butterflies." In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from hair ribbons and secret crushes to gunrunning and prison torture, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human cost of political oppression.

Founding Brothers - Joseph J. Ellis 2002-02-05

PULITZER PRIZE WINNER • NATIONAL BESTSELLER • A landmark work of history explores how a group of greatly gifted but deeply flawed individuals—Hamilton, Burr, Jefferson, Franklin, Washington, Adams, and Madison—confronted the overwhelming challenges before them to set the course for our nation. "A splendid book—humane, learned, written with flair and radiant with a calm intelligence and wit." —The New York Times Book Review The United States was more a fragile hope than a reality in 1790. During the decade that followed, the Founding Fathers—re-examined here as Founding Brothers—combined the ideals of the Declaration of Independence with the content of the Constitution to create the practical workings of our government. Through an analysis of six fascinating episodes—Hamilton and Burr's deadly duel, Washington's precedent-setting Farewell Address, Adams' administration and political partnership with his wife, the debate about where to place the capital, Franklin's attempt to force Congress to confront the issue of slavery and Madison's attempts to block him, and Jefferson and Adams' famous correspondence—*Founding Brothers* brings to life the vital issues and personalities from the most important decade in our nation's history. *American Republic Since 1877, Teaching Strategies for American History Classroom Including Block Scheduling* McGraw-Hill Staff 2002-08

The American Revolution - Gordon S. Wood 2002-03-05

NEW YORK TIMES BESTSELLER "An elegant synthesis done by the leading scholar in the field, which nicely integrates the work on the American Revolution over the last three decades but never loses contact with the older, classic questions that we have been arguing about for over two hundred years."—Joseph J. Ellis, author of *Founding Brothers* A magnificent account of the revolution in arms and consciousness that gave birth to the American republic. When Abraham Lincoln sought to define the significance of the United States, he naturally looked back to the American Revolution. He knew that the Revolution not only had legally created the United States, but also had produced all of the great hopes and values of the American people. Our noblest ideals and aspirations—our commitments to freedom, constitutionalism, the well-

being of ordinary people, and equality-came out of the Revolutionary era. Lincoln saw as well that the Revolution had convinced Americans that they were a special people with a special destiny to lead the world toward liberty. The Revolution, in short, gave birth to whatever sense of nationhood and national purpose Americans have had. No doubt the story is a dramatic one: Thirteen insignificant colonies three thousand miles from the centers of Western civilization fought off British rule to become, in fewer than three decades, a huge, sprawling, rambunctious republic of nearly four million citizens. But the history of the American Revolution, like the history of the nation as a whole, ought not to be viewed simply as a story of right and wrong from which moral lessons are to be drawn. It is a complicated and at times ironic story that needs to be explained and understood, not blindly celebrated or condemned. How did this great revolution come about? What was its character? What were its consequences? These are the questions this short history seeks to answer. That it succeeds in such a profound and enthralling way is a tribute to Gordon Wood's mastery of his subject, and of the historian's craft.

Pillars of the Republic - Carl F. Kaestle 1983

"Pillars of the Republic "is a pioneering study of common-school development in the years before the Civil War. Public acceptance of state school systems, Kaestle argues, was encouraged by the people's commitment to republican government, by their trust in Protestant values, and by the development of capitalism. The author also examines the opposition to the Founding Fathers' educational ideas and shows what effects these had on our school system.

Women of the Republic - Linda K. Kerber 2000-11-09

Women of the Republic views the American Revolution through women's eyes. Previous histories have rarely recognized that the battle for independence was also a woman's war. The "women of the army" toiled in army hospitals, kitchens, and laundries. Civilian women were spies, fund raisers, innkeepers, suppliers of food and clothing. Recruiters, whether patriot or tory, found men more willing to join the army when their wives and daughters could be counted on to keep the farms in

operation and to resist encroachment from squatters. "I have Done as much to Carrey on the warr as maney that Sett Now at the helm of government," wrote one impoverished woman, and she was right. Women of the Republic is the result of a seven-year search for women's diaries, letters, and legal records. Achieving a remarkable comprehensiveness, it describes women's participation in the war, evaluates changes in their education in the late eighteenth century, describes the novels and histories women read and wrote, and analyzes their status in law and society. The rhetoric of the Revolution, full of insistence on rights and freedom in opposition to dictatorial masters, posed questions about the position of women in marriage as well as in the polity, but few of the implications of this rhetoric were recognized. How much liberty and equality for women? How much pursuit of happiness? How much justice? When American political theory failed to define a program for the participation of women in the public arena, women themselves had to develop an ideology of female patriotism. They promoted the notion that women could guarantee the continuing health of the republic by nurturing public-spirited sons and husbands. This limited ideology of "Republican Motherhood" is a measure of the political and social conservatism of the Revolution. The subsequent history of women in America is the story of women's efforts to accomplish for themselves what the Revolution did not.

The Americanization of Benjamin Franklin - Gordon S. Wood 2004

Offers a portrait of the complex, often contradictory figure of Benjamin Franklin, a man who was at once the quintessential American and a cosmopolitan lover of Europe, and a one-time loyalist turned revolutionary.

Republic of Detroit - Scott Borchert 2021-06-15

A New York Times Book Review Editors' Choice | Winner of the New Deal Book Award An immersive account of the New Deal project that created state-by-state guidebooks to America, in the midst of the Great Depression—and employed some of the biggest names in American letters The plan was as idealistic as it was audacious—and utterly unprecedented. Take thousands of hard-up writers and put them to work

charting a country on the brink of social and economic collapse, with the aim of producing a series of guidebooks to the then forty-eight states—along with hundreds of other publications dedicated to cities, regions, and towns—while also gathering reams of folklore, narratives of formerly enslaved people, and even recipes, all of varying quality, each revealing distinct sensibilities. All this was the singular purview of the Federal Writers' Project, a division of the Works Progress Administration founded in 1935 to employ jobless writers, from once-best-selling novelists and acclaimed poets to the more dubiously qualified. The FWP took up the lofty goal of rediscovering America in words and soon found itself embroiled in the day's most heated arguments regarding radical politics, racial inclusion, and the purpose of writing—forcing it to reckon with the promises and failures of both the New Deal and the American experiment itself. Scott Borchert's *Republic of Detours* tells the story of this raucous and remarkable undertaking by delving into the experiences of key figures and tracing the FWP from its optimistic early days to its dismemberment by the House Committee on Un-American Activities. We observe notable writers at their day jobs, including Nelson Algren, broke and smarting from the failure of his first novel; Zora Neale Hurston, the most widely published Black woman in the country; and Richard Wright, who arrived in the FWP's chaotic New York City office on an upward career trajectory courtesy of the WPA. Meanwhile, Ralph Ellison, Studs Terkel, John Cheever, and other future literary stars found encouragement and security on the FWP payroll. By way of these and other stories, Borchert illuminates an essentially noble enterprise that sought to create a broad and inclusive self-portrait of America at a time when the nation's very identity and future were thrown into question. As the United States enters a new era of economic distress, political strife, and culture-industry turmoil, this book's lessons are urgent and strong.

The Purpose of the Past Gordon S. Wood 2008-03-13

An erudite scholar and an elegant writer, Gordon S. Wood has won both numerous awards and a broad readership since the 1969 publication of his widely acclaimed *The Creation of the American Republic*. With *The Purpose of the Past*, Wood has essentially created a history of American

history, assessing the current state of history vis-à-vis the work of some of its most important scholars—doling out praise and scorn with equal measure. In this wise, passionate defense of history's ongoing necessity, Wood argues that we cannot make intelligent decisions about the future without understanding our past. Wood offers a master's insight into what history—at its best—can be and reflects on its evolving and essential role in our culture.

World History: Connections to Today Elisabeth Gaynor Ellis 2003-12

The Readers' Advisory Guide to Nonfiction Neal Wyatt 2007-05-14

With a focus on eight categories including memoir, sports, and true crime, a readers' advisory guide includes coverage of the major authors and works, popularity, and style.

Reader's Guide to American History - Peter J. Parish 2013-06-17

There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The *Reader's Guide to American History* is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

The Federalist Papers - Alexander Hamilton 2009-04-28

This authoritative edition of the complete texts of the *Federalist Papers*, the *Articles of Confederation*, the *U.S. Constitution*, and the *Amendments to the U.S. Constitution* features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the *Federalist Papers* and their importance. In three additional essays, John Dunn explores the composition of the *Federalist Papers* and the conflicting agendas of its

authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

American Republic - Rachel C. Larson 2000-06

The American Republic Student Text will grab your students' attention with its unusual, colorful, focuses on The Sixties: Nation in Crisis (Chapter 28; a complete survey of the Civil Rights movement, the Vietnam War, and the Nixon administration); Rise of the Right (Chapter 29; chronological survey of the rise of the New Right with expanded coverage of Reagan and Bush); and Bridge to the 21st Century (Chapter 30; Clinton's domestic controversies, the Republican Revolution, impeachment, and global uncertainties). Colorful spreads throughout the book highlight American society and geography, history skills, and time lines. - Publisher.

The New Republic - Reginald Horsman 2000

Reginald Horsman offers examination of this important period of US history by combining conventional political analysis with an up-to-date concern for social and ethnic matters, giving exposure to parts of the history sometimes overlooked. Covers the setting up of the Constitution in 1789, and the Presidencies of Washington, Adams, Jefferson and Madison. For those interested in US History. ALSO AVAILABLE IN HARDCOVER: 0-582-29288-3.

Common Sense - Thomas Paine 2011-06-01

Addressed to the Inhabitants of America, on the Following Interesting Subjects, viz.: I. Of the Origin and Design of Government in General, with Concise Remarks on the English Constitution. II. Of Monarchy and Hereditary Succession. III. Thoughts on the Present State of American Affairs. IV. Of the Present Ability of America, with some Miscellaneous Reflections

Congressional Record - United States. Congress 1967

Reading Lolita in Tehran - Azar Nafisi 2008-11-04

#1 NEW YORK TIMES BESTSELLER • We all have dreams—things we fantasize about doing and generally never get around to. This is the story of Azar Nafisi's dream and of the nightmare that made it come true. For two years before she left Iran in 1997, Nafisi gathered seven young women at her house every Thursday morning to read and discuss forbidden works of Western literature. They were all former students whom she had taught at university. Some came from conservative and religious families, others were progressive and secular; several had spent time in jail. They were shy and uncomfortable at first, unaccustomed to being asked to speak their minds, but soon they began to open up and to speak more freely, not only about the novels they were reading but also about themselves, their dreams and disappointments. Their stories intertwined with those they were reading—Pride and Prejudice, Washington Square, Daisy Miller and Lolita—their Lolita, as they imagined her in Tehran. Nafisi's account flashes back to the early days of the revolution, when she first started teaching at the University of Tehran amid the swirl of protests and demonstrations. In those frenetic days, the students took control of the university, expelled faculty members and purged the curriculum. When a radical Islamist in Nafisi's class questioned her decision to teach *The Great Gatsby*, which he saw as an immoral work that preached falsehoods of "the Great Satan," she decided to let him put *Gatsby* on trial and stood as the sole witness for the defense. Azar Nafisi's luminous tale offers a fascinating portrait of the Iran-Iraq war viewed from Tehran and gives us a rare glimpse, from the inside, of women's lives in revolutionary Iran. It is a work of great passion and poetic beauty, written with a startlingly original voice. Praise for *Reading Lolita in Tehran* "Anyone who has ever belonged to a book group must read this book. Azar Nafisi takes us into the vivid lives of eight women who must meet in secret to explore the forbidden fiction of the West. It is at once a celebration of the power of the novel and a cry of outrage at the reality in which these women are trapped. The ayatollahs don't know it, but Nafisi is one of the heroes of the Islamic Republic."—Geraldine Brooks, author of *Nine Parts of Desire*

The Encyclopedia of the Wars of the Early American Republic, 1783-1812: A Political, Social, and Military History [3 volumes] -

Spencer C. Tucker 2014-06-11

Relatively little attention has been paid to American military history between 1783 and 1812—arguably the most formative years of the United States. This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era. • Offers comprehensive, accessible, in-depth information and analyses in a format that lends itself to quick and easy use for readers from the high school level to senior scholars researching the field • Provides in-depth coverage of the Tripolitan War, key weapons, major battles, and Native Americans and Native American tribes

Revolutionary Backlash - Rosemarie Zagarri 2007

Argues that the debate over women's rights began not with the 1848 Seneca Falls Convention, but rather during the American Revolution itself, assessing changes in women's status from the Revolutionary War to the election of Andrew Jackson and how women built upon the precedents established during the Revolution to gain an informal role in

party politics and male electoral activities.

Other People's Money - Sharon Ann Murphy 2017-03-15

By helping readers understand the financial history of this period and the way banking shaped the society in which ordinary Americans lived and worked, this book broadens and deepens our knowledge of the Early American Republic.

U.S. History - P. Scott Corbett 2017-12-19

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
