James Taylor 2013-03-01

Land Rover Defender, 90 and 110 Range - 30 Years of the Coil-Sprung 4x4 Models charts the evolution of the coil-sprung Defender vehicles. covered include: Origins of the Defender and early Ninety and One Ten Models; Development and use of the long-wheelbase models; Special conversions and Defenders built outside the UK, including in Australia and South Africa; Military and emergency service use of the Defender; Detailed examinations of engines and engineering, and the focus on diesel power; The future of the Defender.
