**Running Behavioral Studies With Human Participants** - Frank E. Ritter 2013

A practical, concrete road map to running research studies with human subjects. Covering both conceptual and practical issues critical to implementing a study with human participants, this book is organized to follow the standard process in experiment-based research, covering such issues as potential ethical problems, risks to validity, experimental setup, running a study, and concluding a study. The detailed guidance on each step of a study is ideal for anyone who has had little or no previous practical training in research methodology. The book's examples and sample forms are drawn from areas such as cognitive psychology, human factors, human-computer interaction, and human-robotic interaction. Key Features A coherent view of how to implement the experimental process, including detailed discussions of the setup and running of behavioral studies, gives you a practical guide for implementing your own experiments. Concrete examples speak to the diverse needs of the HCI, human factors, cognitive science, and related communities. Practical coverage of risks and problems that can be anticipated and avoided helps you recognize the ethical challenges you might encounter during the course of designing, running, or concluding a study. Three running example scenarios drawn from industrial and academic settings help you understand the major themes of each chapter. Example forms provide you with models you can use as you create your own experimental documents (such as IRB applications, experimental scripts, consent forms, and room layouts) to meet your particular research needs. Practical advice and examples of challenges associated with experimental setup and execution (such as how to set up experimental rooms, manage late or missing participants, and devise an effective experimental script) humanize key points in a memorable way, helping you recall the major points of the book. Built-in learning aids include further readings, an appendix on running studies online, questions at the end of each chapter, and publication paths and types that encourage you to take ownership of the research process and engage in research in a directed and methodical way. Book jacket.

**SAGE Readings for Introductory Sociology** - Kimberly McGann 2018-01-10

This brief anthology for introductory sociology is a collection of 24 classic statements and contemporary favorites that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The Second Edition places more emphasis on a diverse range of social experiences, and several of the new selections are from sociologists whose work has attracted widespread media attention. New to this Edition: There are more readings in this edition on the experiences of minorities, including LGBTQ Americans,

Hispanics, Asians, and African Americans. The book now reflects a more diverse authorship as well, with an even split between male and female scholars and almost one-third of the readings written by nonwhite authors. The introduction has been updated to incorporate the results of 2016 election and to make the case for sociology as a discipline ideally suited for navigating the social and political changes in contemporary American society, as well as individual students' day-to-day challenges. Several new readings are from sociologists who have been in the national spotlight for their contributions to major public debates: Tressie McMillian Cottom; Lisa Wade; Matthew Desmond (Pulitzer Prize winner); Elizabeth Armstrong and Laura Hamilton.

**Gender, Sexuality, and Intimacy: A Contexts Reader** - Jodi O'Brien 2017-01-13

This new anthology from SAGE brings together over 90 recent readings on gender, sexuality, and intimate relationships from Contexts, the award-winning magazine published by the American Sociological Association. Each contributor is a contemporary sociologist writing in the clear, concise, and jargon-free style that has made Contexts the "public face" of sociology. Jodi O'Brien and Arlene Stein, former Contexts Editors, have chosen pieces that are timely, thought-provoking, and especially suitable for classroom use; written introductions that frame each of the books three main sections; and provided questions for discussion.

**Toward Decentering the New Testament** - Mitzi J. Smith 2018-08-21  
Toward Decentering the New Testament is the first introductory text to the New Testament written by an African American woman biblical scholar and an Asian-American male biblical scholar. This text privileges the voices, scholarship, and concerns of minoritized nonwhite peoples and communities. It is written from the perspectives of minoritized voices. The first few chapters cover issues such as biblical interpretation, immigration, Roman slavery, intersectionality, and other topics. Questions raised throughout the text focus readers on relevant contemporary issues and encourage critical reflection and dialogue between student-teachers and teacher-students.

**Constructivist Approaches and Research Methods** - Pam Denicolo 2016-09-07

This book provides a comprehensive overview of personal construct psychology (PCP) that will help researchers understand the why's, what's and how's of conducting a rigorous constructivist research project. From the theoretical underpinnings of constructivist approaches to the practical values of these techniques, these three expert authors explain how to conduct interpretative, constructivist research from inception to completion. Key topics include: Understanding research philosophies and paradigms Constructing and exploring personal realities Establishing effective research procedures Evaluating grids, mapping, narrative and other research methods Managing the practicalities of fieldwork Analysing and presenting data With activities and procedural examples from a wide range of disciplines woven throughout the text and two special chapters featuring in-depth case studies from a variety of constructivist researchers, this book helps readers grasp the tools, designs, and opportunities of interpretative research. An essential companion for both researchers and practitioners looking to understand people's values, attitudes, beliefs, perceptions, or motivations!

This brief anthology for introductory sociology is a collection of 24 short readings that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The selections

represent four theoretical traditions in sociology (functionalism, symbolic interaction, conflict theory, feminism) and show the range and diversity of sociology and the people who practice it. The book is designed for instructors who want to expose students to some original scholarship in their first sociology course, but who do not want to adopt a comprehensive reader along with the core text they are using.

**Race, Culture, Psychology, and Law** - Kimberly Barrett 2005

Race, Culture, Psychology, and Law is the only book to provide summaries and analyses of culturally competent psychological and social services encountered within the U.S. legal arena. The book is broad in scope and covers the knowledge and practice crucial in providing comprehensive services to ethnic, racial, and cultural minorities. Topics include the importance of race relations, psychological testing and evaluation, racial "profiling," disparities in death penalty conviction, immigration and domestic violence, asylum seekers, deportations and civil rights, juvenile justice, cross-cultural lawyering, and cultural competency in the administration of justice.

**Understanding the Psychology of Diversity** - B. Evan Blaine 2017-01-30

The updated Third Edition of this best seller presents a highly readable examination of diversity from a unique psychological perspective to teach students how to understand the social and cultural differences in today's society. By exploring how individuals construct their view of social diversity and how they are defined and influenced by it, author Bruce Evan Blaine and new coauthor Kimberly J. McClure Brenchley present all that psychology has to offer on this critically important topic. The new edition features chapters on traditional topics such as categorization, stereotypes, sexism, racism, and sexual prejudice. Further chapters explore nontraditional diversity topics, such as weightism, ageism, and social stigma. Integrated throughout the text are applications of these topics to timely social issues.

**Social Class** Annette Lareau 2008-07-10

Class differences permeate the neighborhoods, classrooms, and workplaces where we lead our daily lives. But little is known about how class really works, and its importance is often downplayed or denied. In this important new volume, leading sociologists systematically examine how social class operates in the United States today. Social Class argues against the view that we are becoming a classless society. The authors show instead the decisive ways social class matters—from how long people live, to how they raise their children, to how they vote. The distinguished contributors to Social Class examine how class works in a variety of domains including politics, health, education, gender, and the family. Michael Hout shows that class membership remains an integral part of identity in the U.S.—in two large national surveys, over 97 percent of Americans, when prompted, identify themselves with a particular class. Dalton Conley identifies an intangible but crucial source of class difference that he calls the "opportunity horizon"—children form aspirations based on what they have seen is possible. The best predictor of earning a college degree isn't race, income, or even parental occupation—it is, rather, the level of education that one's parents achieved. Annette Lareau and Elliot Weininger find that parental involvement in the college application process, which significantly contributes to student success, is overwhelmingly a middle-class phenomenon. David Grusky and Kim Weeden introduce a new model for measuring inequality that allows researchers to assess not just the extent

of inequality, but also whether it is taking on a more polarized, class-based form. John Goldthorpe and Michelle Jackson examine the academic careers of students in three social classes and find that poorly performing students from high-status families do much better in many instances than talented students from less-advantaged families. Erik Olin Wright critically assesses the emphasis on individual life chances in many studies of class and calls for a more structural conception of class. In an epilogue, journalists Ray Suarez, Janny Scott, and Roger Hodge reflect on the media's failure to report hardening class lines in the United States, even when images on the nightly news—such as those involving health, crime, or immigration—are profoundly shaped by issues of class. Until now, class scholarship has been highly specialized, with researchers working on only one part of a larger puzzle. Social Class gathers the most current research in one volume, and persuasively illustrates that class remains a powerful force in American society.

**The McDonaldization of Society** - George Ritzer 2020-12-10

The book that made "McDonaldization" part of the lexicon of contemporary sociological theory, read by hundreds of thousands of students, is now in its Tenth Edition! George Ritzer's seminal work of critical sociology, The McDonaldization of Society, continues to stand as one of the pillars of modern sociological thought. Building on the argument that the fast food restaurant has become the model for the rationalization process today, this book links theory to contemporary life in a globalized world. Ritzer opens our eyes to many current issues and shows how McDonaldization's principles—efficiency, calculability, predictability, and control—have been applied to other sectors of American society and throughout the world. This new edition continues

to shift its focus to how we experience McDonaldization online, the new locus of production and consumption in the digital age.

**The Real World** - Kerry Ferris 2018

"In every chapter, Ferris and Stein use examples from everyday life and pop culture to draw students into thinking sociologically and to show the relevance of sociology to their relationships, jobs, and future goals. Data Workshops in every chapter give students a chance to apply theoretical concepts to their personal lives and actually do sociology.

**Global Feminist Autoethnographies During COVID-19** - Melanie Heath 2022-01-27

Global Feminist Autoethnographies bears witness to our displacements, disruptions, and distress as tenured faculty, faculty on temporary contracts, graduate students, and people connected to academia during COVID-19. The authors document their experiences arising within academia and beyond it, gathering narratives from across the globe—Australia, Canada, Ghana, Finland, India, Norway, South Africa, the United Kingdom, the United States along with transnational engagements with Bolivia, Iran, Nepal, and Taiwan. In an era where the older rules about work and family related to our survival, wellbeing, and dignity are rapidly being transformed, this book shows that distress and traumas are emerging and deepening across the divides within and between the global North and South, depending on the intersecting structures that have affected each of us. It documents our distress and trauma and how we have worked to lift each other up amidst severe precarities. A global co-written project, this book shows how we are moving to decolonize our scholarship. It will be of interest to an interdisciplinary array of scholars in the areas of intersectionality, gender, family, race, sexuality, migration, and global and transnational sociology.

Drawing from a wide selection of classic and contemporary works, this best-selling reader includes 56 readings that represent a plurality of voices and views within sociology.

**The Many Hands of the State** - Kimberly J. Morgan 2017-02-27

The state is central to social scientific and historical inquiry today, reflecting its importance in domestic and international affairs. States kill, coerce, fight, torture, and incarcerate, yet they also nurture, protect, educate, redistribute, and invest. It is precisely because of the complexity and wide-ranging impacts of states that research on them has proliferated and diversified. Yet, too many scholars inhabit separate academic silos, and theorizing of states has become dispersed and disjointed. This book aims to bridge some of the many gaps between scholarly endeavors, bringing together scholars from a diverse array of disciplines and perspectives who study states and empires. The book offers not only a sample of cutting-edge research that can serve as models and directions for future work, but an original conceptualization and theorization of states, their origins and evolution, and their effects.

**Counseling Individuals Through the Lifespan** - Daniel W. Wong 2020-08-03

Organized around the 2016 Council for Accreditation of Counseling and Related Educational Programs (CACREP) Standards, Counseling Individuals Through the Lifespan introduces readers to the fundamentals of the counseling process during each stage of human development. Topics such as the client-counselor relationship, counseling theory, research, and interventions are addressed with a focus on caring for the total person within their environment and culture in today's diverse world. Emphasizing the importance of self-reflection, chapters include case illustrations and guided practice exercises to further the development of successful, ethical 21st century counselors. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides. **Sociology** - David M. Newman 2009-12-08

The Eighth edition of David Newman's Sociology: Exploring the Architecture of Everyday Life once again invites students into the world of sociological thought. Sociology encourages students to think less about the next test and more about how the subject applies to their everyday lives. In addition to updated coverage and fresh examples, this edition features revamped Micro-Macro Connections that have been even further honed to help students understand the link between individual lives and the structure of society.

**Early Childhood Education** - Kimberly A. Gordon Biddle 2013-01-02  
Early Childhood Education: Becoming a Professional is an inspiring introduction to the world of early childhood education, preparing the teachers of tomorrow to reach their full potential in their schools and

communities. Written by a diverse and experienced author team (Kimberly A. Gordon Biddle, Ana Garcia-Nevarez, Wanda J. Roundtree-Henderson, and Alicia Valero-Kerrick), this text engages readers to connect contemporary educational and developmental theory and research to developmentally appropriate practices and applications that are easily implemented in the classroom. In response to today's ever-changing educational environment, the text focuses on both the importance of taking personal and professional responsibility, as well as today's issues in diversity—from supporting children with exceptionalities to supporting children and families in broader cultural contexts.

[The Kaleidoscope of Gender](#) - Catherine G. Valentine 2019-03-07

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. *The Kaleidoscope of Gender: Prisms, Patterns, and Possibilities* provides an accessible, timely, and stimulating overview of the cutting-edge literature and theoretical frameworks in sociology and related fields in order to understand the social construction of gender. The kaleidoscope metaphor and its three themes—prisms, patterns, and possibilities—unify topic areas throughout the book. By focusing on the prisms through which gender is shaped, the patterns which gender takes, and the possibilities for social change, the reader gains a deeper understanding of ourselves and our relationships with others, both locally and globally. Editors Catherine Valentine, Mary Nell Trautner, and the work of Joan Spade, focus on the paradigms and approaches to gender studies that are constantly changing and evolving. The Sixth Edition includes incorporation of increased emphasis on global perspectives, updated contemporary social movements, such as #BlackLivesMatter and #MeToo, and an updated focus on gendered violence. Free online resources are available at The SAGE Gender and Sexuality Resource Center. This site is intended to provide you with an array of multimedia resources to enhance your studies of gender and sexuality.

**Pleasure in the News** - Kim Gallon 2020-05-25

Critics often chastised the twentieth-century black press for focusing on sex and scandal rather than African American achievements. In *Pleasure in the News*, Kim Gallon takes an opposing stance—arguing that African American newspapers fostered black sexual expression, agency, and identity. Gallon discusses how journalists and editors created black sexual publics that offered everyday African Americans opportunities to discuss sexual topics that exposed class and gender tensions. While black churches and black schools often encouraged sexual restraint, the black press printed stories that complicated notions about respectability. Sensational coverage also expanded African American women's sexual consciousness and demonstrated the tenuous position of female impersonators, black gay men, and black lesbians in early twentieth African American urban communities. Informative and empowering, *Pleasure in the News* redefines the significance of the black press in African American history and advancement while shedding light on the important cultural and social role that sexuality played in the power of the black press.

**Introduction to Sociology 2e** - Heather Griffiths 2017-12-31

*Introduction to Sociology 2e* adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones
