The Story of a Pioneer - Anna Howard Shaw 1920

This autobiography follows the life of Anna Shaw (1847-1919) from her birth in Newcastle-on-Tyne, England through her presidency of the National American Woman Suffrage Association. Shaw immigrated with her genteel but financially pressed family to America in 1851. They settled first in New Bedford and then in Lawrence, Massachusetts, finally migrating in 1859 to a pioneer farmstead in northern Michigan, where Anna performed much of the subsistence labor during her father's long absences. The first part of her narrative emphasizes her efforts to gain an education and take up a ministerial career. After two years at Albion College, she attended Boston Theological School (1876-1878) and accepted a pastorate in East Dennis, Cape Cod, after graduation; later she also took temporary charge of the Congregational Church in Dennis. After her ordination had been blocked by members of the New England Conference of the Methodist Episcopal Church opposed to ordaining women, Shaw was ordained by the 1880 Conference of the Methodist Protestant Church in Tarrytown, N.Y.

Sea Salt - Stan Waterman 2005

From forward by Peter Benchley (Author of *Jaws*). "Ladies and gentlemen, are you in for a treat! You are about to make the acquaintance of one of the most extraordinary gentlemen of this or any recent age. And not just a gentleman but a filmmaker, an adventurer, an explorer, a daredevil, a gallant, a poet, an intimate of creatures as exquisitely exotic as the leafy sea dragon and the sloe-eyed cuttlefish and - this above all - a true pioneer in the discovery of our last frontier, the sea. Stan Waterman has spent more than half a century in, on and under the sea, and in these pages he takes you with him on the amazing ride he calls his life. There is excitement enough in his encounters with wild animals and weird people to fill a hundred lives and all their fantasies. To cite just one example, have you ever wondered what it would be like to dive in the open ocean with a huge school of certifiably anthropophagous sharks as they gorge on the carcass of a whale ... at night? Probably not. But hang on, because when Stan recounts scenes from the filming of the classic 1971 documentary feature film, *Blue Water, White Death*, you'll be there beside him, and astonished that anyone lived to tell the tale. Stan is on intimate terms with many of the seas' most formidable denizens, including that ultimate marine predator, the Great White Shark, and he writes wonderfully about the contradictions inherent in this magnificent creature: the incomparable natural beauty, the perfection of function, all manifest in the creature's capacity as a killing machine. *Sea Salt* is far more, however, than just a catalogue of critters and close calls. Stan has a profound rapport with the sea, and his command of language and literature eloquently conveys the depth of his feeling. The thoughtful, graceful writing sets the book a full step above most memoirs about the sea; not only does Stan appreciate good writing - you'll be pleased to

encounter an occasional quote from Joseph Conrad or Henry Beston – but he'll often turn a phrase or craft a paragraph that could well have come from the pen of a master. Born in Montclair, New Jersey, one of two sons of a cigar manufacturer, Stan served in the Navy during the last days of World War II and then graduated from Dartmouth College. He was a blueberry farmer in Maine for a while, and tried his hand as a charter-boat captain in the Bahamas. Scuba diving was in its infancy back then, but as soon as Stan discovered that there was a way for him to be able to both see and breathe underwater, he was hooked. Soon he added a movie camera to his kit, and thus was born a career that would lead to five Emmy Awards and would inspire the next two generations of underwater filmmakers. Today, this gentle man still leads dive tours all over the world, and he is equally at home pursuing schools of whale sharks and sitting at home by a fire on a blustery autumn evening, re-reading "Hamlet" for the twentieth time. I've had the privilege of knowing Stan since 1974, and I must admit that, like many of Stan's friends, I take a tiny measure of pride in the publication of *Sea Salt*. For at least the last couple of decades, we've been urging him to commit himself to paper because we felt it was important that his vast archive of memories not be permitted simply to evanesce. As you enjoy each grain of *Sea Salt*, I hope that your richest reward will be a sense of comradeship with the very special man who's sharing with you the story of his utterly beguiling journey."

Salt On Your Tongue Charlotte Runcie 2019-01-03

'An ode to the ocean, and the generations of women drawn to the waves or left waiting on the shore' Guardian In *Salt On Your Tongue*, Charlotte Runcie explores what the sea means to us, and particularly what it has meant to women through the ages. In mesmerising prose, she explores how the sea has inspired, fascinated and terrified us, and how she herself fell in love with the deep blue. This book is a walk on the beach with Turner, with Shakespeare, with the Romantic Poets and shanty-singers. It's an ode to our oceans – to the sailors who brave their treacherous waters, to the women who lost their loved ones to the waves, to the creatures that dwell in their depths, to beachcombers, swimmers, seabirds and mermaids. Navigating through ancient Greek myths, poetry, shipwrecks and Scottish folktales, *Salt On Your Tongue* is about how the wild untameable waves can help us understand what it means to be human.

Madrid, 1957. Under the fascist dictatorship of General Francisco Franco, Spain is hiding a dark secret. Meanwhile, tourists and foreign businessmen flood into Spain under the welcoming promise of sunshine and wine. Among them is eighteen-year-old Daniel Matheson, the son of an oil tycoon, who arrives in Madrid with his parents hoping to connect with the country of his mother's birth through the lens of his camera. Photography--and fate--introduce him to Ana, whose family's interweaving obstacles reveal the lingering grasp of the Spanish Civil War--as well as chilling definitions of fortune and fear. Lives and hearts collide, revealing an incredibly dark side to the sunny Spanish city. Captivating, deft, and illuminating historical fiction." --Booklist, *STARRED REVIEW* "This gripping, often haunting historical novel offers a memorable portrait of fascist Spain." --Publishers Weekly, *STARRED REVIEW* "This richly woven historical fiction . . . will keep young adults as well as adults interested from the first page to the last." - -SLC, *STARRED REVIEW* "Riveting . . . Salt in the Blood - Patrick Dixon 2021-06-24

"Everything creaks and bends in heavy seas – what will not bend will simply snap. So many times I wondered how much load we could carry in a powerful storm without breaking apart. If we flooded any faster I would drown in seconds." Patrick Dixon spent years working as a doctor at University College Hospital, while his wife Sheila was a magistrate – high-pressure careers that demanded long hours away from their home, family and passion for sailing. It is a frustrating story many occasional sailors can relate to, but unlike most, Patrick and Sheila realised early enough that they could only bend so far before something snapped, they could only take on so much before they drowned. This is their story of how they made changes (some more challenging than others) that they knows other sailors could make too, regardless of where they are at the moment – how they changed their priorities but managed to sustain a new career that fitted in around life rather than the other way round. It is also the story of their personal journey, both physically (across the Atlantic and to little-visited corners of the Mediterranean) and metaphorically – how a doctor who treated cancer patients coped with a partner facing the same battle. Neither of them wanted to let that flood things either. Through their personal story, with plenty of mishaps that led to insights (both about sailing and life in general), and encounters that turned into opportunities, Patrick and Sheila explore the importance of prioritising the right things in life, and the simple benefits of travel. The book is packed with inspiring but practical advice for all those who have salt in the blood.

release if you've read everything by Louise Penny and need more Quebecois noir to feed your crime-loving tendencies' Crime Fiction Lover _____ Truth lingers in murky waters... As Montrealer Catherine Day sets foot in a remote fishing village and starts asking around about her birth mother, the body of a woman dredges up in a fisherman's nets. Not just any woman, though: Marie Garant, an elusive, nomadic sailor and unbridled beauty who once tied many a man's heart in knots. Detective Sergeant Joaquin Moralès, newly drafted to the area from the suburbs of Montreal, barely has time to unpack his suitcase before he's thrown into the deep end of the investigation. On Quebec's outlying Gaspé Peninsula, the truth can be slippery, especially down on the fishermen's wharves. Interviews drift into idle chit-chat, evidence floats off with the tide and the truth lingers in murky waters. It's enough to make DS Moralès reach straight for a large whisky... Both a dark and consuming crime thriller and a lyrical, poetic ode to the sea, *We Were the Salt of the Sea* is a stunning, page-turning novel, from one of the most exciting new names in crime fiction. _____ Praise for Roxanne Bouchard: 'Colourful, authentic characters with the kind of flavour that can only be inspired by real locals. So good it'll make you want to pack your bags and drive straight to the seaside' Journal de Montréal 'Lyrical and elegiac, full of quirks and twists' William Ryan 'Asks questions right from page one' Quentin Bates 'An isolated Canadian fishing community, a missing mother, and some lovely prose. Very impressed by this debut so far' Eva Dolan 'A tour de force of both writing and translation' Su Bristow 'The translation from French has retained a dreamily poetic cast to the language, but it's det-fic for all that, as DS Joaquin Morales, transplanted from balmy Mexican shores to a remote Quebecois fishing community, investigates a woman's death at sea. This is the first book by Bouchard, renowned Canadian playwright and author, to be translated into English' Sunday Times 'Characters are well-drawn, from Moralès, the cop, and his sturdy inspector, Marlène, to the husky fishermen who were Marie's devoted suitors three decades ago. There's a comic element: the chef at the bistro, a mine of misleading information; the alcoholic priest who was never ordained - and the appalling undertaker who was once a used-car salesman and never forgot the spiel ... Sea Salt Aerosol Production - Ernie R. Lewis 2004-01-09

Published by the American Geophysical Union as part of the Geophysical Monograph Series, Volume 152. Sea salt aerosol (SSA) exerts a major influence over a broad reach of geophysics. It is important to the physics and chemistry of the marine atmosphere and to marine geochemistry and biogeochemistry generally. It affects visibility, remote sensing, atmospheric chemistry, and air quality. Sea salt aerosol particles interact with other atmospheric gaseous and aerosol constituents by acting as sinks for condensable gases and suppressing new particle formation, thus influencing the size distribution of these other aerosols and more broadly influencing the geochemical cycles of substances with which they interact. As the key aerosol constituent over much of Earth's surface at present, and all the more so in pre-industrial times, SSA is central to description of Earth's aerosol burden.

In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . "A thoughtful, magisterial alternate history from one of science fiction's most important writers."—*The New York Times Book Review* It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe's population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World. Salt to the Sea - Ruta Sepetys 2016-02-02

New York Times Bestseller and winner of the Carnegie Medal! "Masterfully crafted"—*The Wall Street Journal* For readers of *Between Shades of Gray* and *All the Light We Cannot See*, Ruta Sepetys returns to WWII in this epic novel that shines a light on one of the war's most devastating—yet unknown—tragedies. World War II is drawing to a close in East Prussia and thousands of refugees are on a desperate trek toward freedom, many with something to hide. Among them are Joana, Emilia, and Florian, whose paths converge en route to the ship that promises salvation, the *Wilhelm Gustloff*. Forced by circumstance to unite, the three find their strength, courage, and trust in each other tested with each step closer to safety. Just when it seems freedom is within their grasp, tragedy strikes. Not country, nor culture, nor status matter as all ten thousand people—adults and children alike—aboard must fight for the same thing: survival. Told in alternating points of view and perfect for fans of Anthony Doerr's Pulitzer Prize-winning *All the Light We Cannot See*, Erik Larson's *Dead Wake*, and Elizabeth Wein's *Printz Honor Book Code Name Verity*, this masterful work of historical fiction is inspired by the real-life tragedy that was the sinking of the *Wilhelm Gustloff*—the greatest maritime disaster in history. As she did in *Between Shades of Gray*, Ruta Sepetys unearths a shockingly little-known casualty of a gruesome war, and proves that humanity and love can prevail, even in the darkest of hours. Salt - Mark Kurlansky 2011-03-18

From the award-winning and bestselling author of *Cod* comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the stuff of kitchens and cooking. Yet trade routes were

established, alliances built and empires secured – all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth’s rock fairly close to the surface. From pre-history until just a century ago – when the mysteries of salt were revealed by modern chemistry and geology – no one knew that salt was virtually everywhere. Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world’s sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans’ insatiable demand. As he did in his highly acclaimed *Cod*, Mark Kurlansky once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.

Salt - Hannah Moskowitz 2018-10-30

Roaming the Mediterranean Sea on sailboats and hunting down monsters is the only life seventeen-year-old Indi and his siblings have ever known. He never loved it, but now that his parents are gone—vanished during a hunt three months ago—it's harder and harder to fight his desire to escape. He's constantly battling his ferocious love for his siblings and the temptation of his parents' journal, which contains directions to a treasure that their parents hinted at. Maybe it's something valuable enough to distract Beza from her mission to hunt down the monster that killed their parents. Something that would take the little kids away from the sea that's turning Oscar into a pirate and wasting Zulu's brilliant six-year-old mind. Something that could give Indi a normal life. Acclaimed author Hannah Moskowitz has reinvented yet another genre in this ridiculously propulsive epic that is part seafaring epic, part coming-of-age tale, and a totally warm-hearted story of a boy who loves his family and just wants to figure his own self out—if only the fate of the world weren't on his shoulders.
