Here are some benefits of user manual template: The manual would help the user understand the product's functionality. It would contain a lot of details pertaining to the product's functions. Manuals are usually created by a technical team, those who have extensive knowledge about the product. This also applies to machinery, procedures, and

Wikipedia:Manual of Style/Glossaries

On Wikipedia, a glossary is a special kind of list. Each glossary is an alphabetically arranged list of a subject's terms, with definitions. Each term is followed by one or more explanatory (encyclopedia-style) definitions. (For example, see Glossary of architecture). In order to explain jargon for Wikipedia's broad audience, each of its glossaries contains a working vocabulary ...
